THE ALMA MATER

MORRIS our college dear
With hearts all filled with cheer
We come to thee;
Throughout life’s checkered ways
Thy name we’ll ever praise
Teacher of youthful ways
All hail to thee.

When from our homes we came
To own thy lofty name
Breathe courage free.
Parents and teachers dear
Calmed by the lack of fear
Pay homage through the years
All hail to thee.

Composed by Ms. Ida Y. Pullens, 1924

College Motto: “Enter to Learn; Depart to Serve.”
IMPORTANT INFORMATION FOR ALL STUDENTS

Morris College complies fully with all applicable federal laws and regulations pertaining to its students, programs, and activities. These laws and regulations include the following:

- Title 38 of the United States Code regarding Veterans’ Benefits.
- Title VI and VII of the Civil Rights Act of 1964 and Section 501(c)(3) and Section 170 (b)(1)(a)(2) of the Internal Revenue Code, prohibiting discrimination on the basis of race, color, and national or ethnic origin.
- Title IX of the Education Amendments of 1972 (PL 92-318), as amended, prohibiting discrimination on the basis of sex. The College’s Title IX Compliance Officer is Roy Graham. Mr. Graham’s office is located in the Pinson Administration Building, and his telephone number is (803) 934-3298.
- Section 504 of the Rehabilitation Act of 1973 (PL 93-112), as amended, prohibiting discrimination on the basis of handicap in all programs and activities and requiring accessibility for handicapped persons.
- Family Educational Rights and Privacy Act of 1974 (PL 93-380), as amended (PL 93-568, also known as the “Buckley Amendment”), providing greater privacy safeguards to parents and students through the application of fair information practices.
- Immigration and Nationality Act (PL 87-195), by which the College is authorized under Federal law to enroll nonimmigrant alien students.
- Title IV of the 1992 Higher Education Amendments by which the College must comply with all regulations of the federal student loan program and all other Title IV programs.
- The Genetic Information Nondiscrimination Act of 2008 (GINA) prohibits employers from discriminating against individuals based on genetic tests and information.

Morris College reserves the right to make changes without notice or obligation in curricula, degree requirements, course offerings, fees, and all academic and nonacademic regulations when, in the judgment of the faculty, the president, or the board of trustees, such changes are in the best interest of the students and the College.

Registration at the College assumes the student’s acceptance of all published academic and nonacademic regulations, including those which appear in this bulletin and other official announcements or publications. Students should contact the Dean of Student Affairs to obtain a copy of the current student handbook.

Students should retain this catalog throughout their tenure at the College. The catalog will be disseminated by the Office of Admissions and Records.
ACCREDITATION STATUS AND PROGRAM APPROVALS

Morris College is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award baccalaureate degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call 404-679-4500 for questions about the accreditation of Morris College.

(Note: Publication of the Commission’s address and contact numbers is designed only to enable interested constituents 1) to learn about the accreditation status of Morris College, 2) to file a third-party comment at the time of the college’s decennial review, or 3) to file a complaint against the institution for alleged non-compliance with a standard or requirement.)

The Morris College Teacher Education Program is accredited by the National Council for Accreditation of Teacher Education (NCATE), and all teacher education program areas are approved by the South Carolina State Board of Education.

Courses for degree programs at Morris College are approved by the South Carolina Department of Education for the training of veterans.

The degree programs in Business Administration and Organizational Management are accredited by the Accreditation Council for Business Schools and Programs.

Documentation for Accreditation Status and Program Approvals may be found in the Office of the President.

**2012 SUMMER SCHOOL**  
Dates to be determined
Dr. Luns C. Richardson
President
HISTORY OF MORRIS COLLEGE

The Baptist Educational and Missionary Convention of South Carolina, composed of representatives from all of the Black Baptist churches in the state, was chartered in 1877 “to promote the cause of Christ, especially in South Carolina by establishing a Theological and Literary Institute for the training of young men for the ministry, and also for the education of our sons and daughters.” It wasn’t until 1908, however, that the Convention was able to acquire a site in Sumter, South Carolina to establish a school, which it named in honor of the Rev. Frank Morris, a pioneer leader of the Rocky River Association. Thus began a heroic venture in higher education by a group of men and women less than half a century removed from the blight of slavery. These founders were poor and without formal learning themselves, but they possessed an unflailing faith in God and a zeal to provide for others the educational opportunities they themselves had been denied.

In 1911 the College received a certificate of incorporation from the state of South Carolina. Initially the institution provided schooling at the elementary, high school and college levels with the college curriculum including liberal arts programs, a program for the certification of teachers, and a theological program. In 1915 the first Bachelor of Arts degrees were awarded to two graduates.

In 1930 the elementary school was discontinued, and the institution converted from a four-year college to a two-year junior college, but in 1933 it resumed its status as a four-year college. In 1946 the high school was discontinued. In 1948 Dr. Odell R. Reuben began a twenty-two-year term as President, during which the College experienced significant growth in programs, enrollment and facilities. One aspect of this growth was the establishment in 1948 of the Morris College School of Religion, which operated until 1996 when its program to train ministers and Christian educators was transferred to the College itself. In 1961 the certificate of incorporation was amended to delete the word “Negro,” thereby opening the doors at Morris to students of all ethnic groups.

In 1974 Dr. Luns C. Richardson became President and initiated the longest term of service of any of the College’s Presidents. During his tenure in 1978, Morris College achieved the goal of accreditation by the Southern Association of Colleges and Schools Commission on Colleges to award baccalaureate degrees. In 1982 the College became a member of The College Fund/UNCF, the nation’s largest and most successful black fund-raising organization.

Accreditation and UNCF membership launched the College into an era of remarkable growth and development during the 1980’s and 1990’s. During this period, the College built or renovated more square feet of building space than had been established during the entire first seventy years of its history. Among the new facilities were a Learning Resources Center, a Fine Arts Center, a Human Development Center, a Chapel and Religious
Center, and the College’s first full-scale Student Center. Some of this new construction and renovation was a response to the terrible destruction that the College suffered in 1989 as a result of Hurricane Hugo. In spite of the widespread damage, the College was able to reopen within a few days; and all students were able to complete their work without a loss of credits.

The growth years of the 1980’s and 1990’s were also accompanied by the initiation of new academic programs including Broadcast Media, Christian Education, Criminal Justice, Pastoral Ministry, and Recreation Administration and the initiation of an ROTC Program. In 1996 the College introduced a successful new program in Organizational Management which is offered during evening and weekend hours to older students with full-time jobs who wish to resume their earlier college careers and complete a college degree. The era of the 1990’s was also marked by a substantial expansion of new technologies on the campus with the establishment or expansion of five computer laboratories and the capacity to allow every student to have access to the Internet.

In 2010 the College embarked on a new era of expansion as the result of a gift of $10,000,000 from The Rev. Solomon Jackson, Jr., a student in the former School of Religion. Funds from this gift will be used to construct a new administration building, a new residence hall, and a new maintenance building; provide matching funds for a new student health and wellness center; and expand various categories of endowment.

Morris College has more than justified the faith, the labors, and the sacrifices of its founders; and the services that it has rendered have been extensive and beyond value. From its beginning, the College has been a center for training ministers and teachers for the pulpits and schools of the state and of the nation, and its graduates have added to the ranks of professionals and business persons. Hundreds of African-American youth who would otherwise have never attended college have received at Morris College the benefits of higher education. Many communities and state agencies have used the facilities of the College to carry out programs of general welfare and of social uplift. Morris College thus occupies a unique and significant position in the American social order as one of the few senior colleges built and operated solely under the auspices of African-Americans. As such, it represents a distinct contribution to American education and society.

PRESIDENTS OF THE COLLEGE

The following presidents have served the College since its founding:

- Dr. Edward M. Brawley, 1908-1912
- Dr. John J. Starks, 1912-1930
- Dr. Ira David Pinson, 1930-1939
- Dr. James P. Garrick, 1939-1946
- Dr. Henry H. Butler, 1946-1948
- Dr. Jeff W. Boykin, 1948 (Acting President)
- Dr. Odell R. Reuben, 1948-1970
- Interim Committee: Dr. Henry E. Hardin, Chairman; Dr. W. L. Wilson, Dr. W. H. Neal, Dr. J. L. Brooks and Dr. Anna D. Reuben, 1970-1971
MISSION STATEMENT OF MORRIS COLLEGE

Morris College was founded in 1908 by the Baptist Educational and Missionary Convention of South Carolina to provide educational opportunities for Negro students in response to the historical denial of access to the existing educational system. Today, under the continued ownership of its founding body, the College opens its doors to a culturally and geographically diverse student body, typically from the Southeast and Northeast regions. Morris College is an accredited, four-year, coeducational, residential, liberal arts and career-focused institution awarding baccalaureate degrees in the arts and sciences and in career-based professional fields.

The College serves the needs of its students, alumni and community.

It serves its students by
- Providing sound liberal arts and career-based programs with a particular emphasis on teacher education.
- Providing an intensive program for mastering basic social, thinking, listening, speaking, reading, writing, mathematical, technological, and leadership skills.
- Providing services and programs to assist in their academic, social, professional, and personal development.
- Promoting an ethical and religious environment which complements the student’s total development.

It serves its alumni by
- Promoting a relationship that is mutually beneficial to the alumni and the institution.

It serves its community by
- Providing continuing education and services to clergy and laity.
- Promoting the growth and development of the larger community through public service programs.
- Providing research services and facilities in the solution of academic and community problems.

Morris College is primarily a student-centered institution which seeks to fulfill this mission by
- Evaluating the academic performance of students to ensure competence in communication, problem solving, critical thinking, and the use of information technology.
- Emphasizing a broad understanding of the liberal arts and sciences.
- Emphasizing specific professional and technical skills necessary to meet societal demands.
- Emphasizing total development of the student for responsible citizenship in a global society.

This student-centered commitment embraces the College’s motto, “Enter to Learn; Depart to Serve.”
AFFILIATIONS
Morris College holds membership in the Council of Independent Colleges, the Association of Governing Boards of Universities and Colleges, the American Council on Education, the American Association of Colleges for Teacher Education, the National Association for Equal Opportunity in Higher Education, South Carolina Independent Colleges and Universities, and the College Fund/UNCF.

POLICY OF NONDISCRIMINATION
Morris College does not discriminate against any person on the basis of sex, age, race, religion, color, political affiliation, national or ethnic origin, or handicap in its admissions policies, employment opportunities, scholarship and loan programs, educational and athletic programs, or other college-administered programs.

LOCATION
Morris College is located at 100 West College Street on the north side of the City of Sumter on a thirty-nine-acre tract of natural beauty in a quiet neighborhood. Sumter is located in central South Carolina approximately forty-five miles from Columbia, the capital city, and from the Columbia Airport. The moderate climate and congenial atmosphere of the campus provide a pleasant setting for study.

BUILDINGS
The major buildings on the Morris College campus, their dates of construction, and their principal functions are as follows:

Academic Hall (1924, renovated 1990) is used for classes of the Division of Business Administration, and the Division of Religion and Humanities, and for several administrative offices including the Office of the Academic Dean, the Office of Student Affairs, and the Morris College Advance Program.

Brawley-Starks Academic Success Center (1932, renovated 1998) contains the Division of General Studies, Student Support Services, the Upward Bound Program, the Career Services Center, and a large learning laboratory.

Pinson Administration Building (1946) houses the Offices of the President, Financial Services, and Admissions and Records on the first floor and offices of additional staff members on the second floor.

Buildings and Grounds Office (1950), houses some staff and equipment used in physical plant maintenance.

Mabel K. Howard Building (1954) houses the Office of Counseling and Testing, the Health Center, the Financial Aid Office, the Baptist Women’s Records Room, and Army ROTC Offices.

G. Goings Daniels Hall (1964, dining facility renovated 2003) is a residence hall and dining facility.
Dobbins-Keith-Whitener Residence Hall (1967) is a residence hall for men.

Wilson-Booker Science Hall (1967) houses chiefly programs of the Division of Natural Sciences and Mathematics.

L. C. Richardson-W. A. Johnson Learning Resources Center (1980) contains the College’s library and media facilities.

W. H. Neal-lola Jones Fine Arts Center (1980) contains an auditorium and instructional facilities for programs in art, music, and theater.

Anna D. Reuben, Mamie Coker, Magnolia Lewis, Albertha Simons Hall (1984) is a residence hall for women.

Security and Information Booth (1984, expanded 2003) is located at the entrance to the campus and houses the Security Office, which also provides information to campus visitors.

The President’s Home (1986) is the official residence of the President of the College.

Garrick-Boykin Human Development Center (1991) provides facilities for physical education classes, social and cultural activities, special events, recreation administration classes, and athletic events.

O. R. Reuben Chapel and Religious Center (1996) contains a sanctuary for special religious worship services. The Religious Center contains the office of the College Minister and offices and classrooms for faculty in the area of Religion.

Charles Gilchrist Adams, C. Mackey Daniels, Marion Woodard Wright McLester, Beatrice Gregg Sanders Hall (1998) is a residence hall for women.

Alphonso R. Blake, Willie Edwin Givens, Jr., Arabella H. Rich, Pauline Winston Thompson Student Center (1998) contains food service facilities, the bookstore, post office, game room, meeting room, lounge, student government offices, and student lockers.

Bertie B. White Center for Excellence in Teaching and Learning (completed 2010) serves to nurture, promote, and enhance teaching excellence among faculty members and to enhance student learning. The Center is located at 11 West College St.

Forensics Center (2011) supports the Criminal Justice Program and includes two laboratories for genetic testing and one each for fingerprint analysis, ballistics analysis, and fire debris and controlled substance analysis. The Center also includes two classrooms, two offices, a conference room, a lounge, and a vehicle bay.
ADMISSIONS CATEGORIES, REQUIREMENTS AND PROCEDURES

Admission policies are consistent with the mission of the institution. Admission is open to all persons who show the potential for college-level work, who subscribe to the philosophy and purpose of Morris College, and who meet admission requirements. Students of all races, creeds, and national origins are welcome. New students are admitted in the fall, spring, and summer.

ADMISSION OF DEGREE-SEEKING STUDENTS

With the exception of foreign students, students seeking admission to a degree program are required to submit ACT or SAT scores. These scores are used for information purposes only.

Freshman Students

Applicants may gain admission to the freshman class by meeting any one of the following criteria:

(a) An SAT score of 800 or an ACT score of 18
(b) A high school grade point average of 2.0 or higher
(c) A high school rank in the upper 75 percent of the graduating class

Other requirements include any one of the following:

(a) Presenting evidence of graduation with a diploma from an accredited high school, ranking in the upper 75 percent of the graduating class, and successfully completing a curriculum which includes the following 24 standard units:

(b) Presenting evidence of graduation with a diploma from an accredited high school, achieving an overall grade point average of at least 2.00, and successfully completing the preceding 24 standard units.

(c) Presenting evidence of graduation with a diploma from an accredited high school, successfully completing the preceding 24 standard units, and achieving either a combined verbal and mathematics score of 800 or higher on the Scholastic Aptitude Test (SAT) or 18 on the American College Test (ACT).
(d) Presenting evidence of having successfully passed the General Educational Development (GED) Test.

(e) Presenting evidence of having scored no less than 35 on any part of the Army General Development Test.

(f) Presenting evidence of having graduated from a high school under the eleven-year plan prior to the 1947-1948 school year.

A limited number of applicants who do not meet the admissions criteria may be admitted on academic probation at the recommendation of the Admissions Committee. Students who are admitted on academic probation may not enroll for more than 13 credit hours during each of the first two semesters; and those who do not meet the standards of academic progress after two semesters of enrollment will be permanently dismissed from the College.

Transfer Students

A student who previously attended another accredited college may enter Morris College as a transfer student; and according to the nature of the academic record, some or all of the credits earned may be transferred to Morris College. All transcripts from other colleges and universities must be received two months prior to registration of the term of entrance.

A transfer student may be admitted to Morris College according to applicable criteria and procedures used for freshmen without restriction provided the student’s grade point average at the previous institution is either sufficient to allow the student to continue at the previous institution or to place the student in good academic standing at Morris College. The grade point average at Morris College differs according to whether the student is seeking to transfer as a freshman, sophomore, junior, or senior, and the required averages for each category are listed elsewhere in this catalog.

A transfer student who has been dismissed from another college for academic deficiencies and whose grade point average is not sufficient to place the student in good standing at Morris College must delay transfer to the College for at least one semester. After a one-semester delay, the transfer student may be admitted to Morris College on academic probation. To remain enrolled after the initial semester, a transfer student must meet the same standards for scholastic eligibility as all other students in the same classification.

In evaluating professional military education and other non-credit course work, the College adheres to the guidelines established by the American Council on Education and published in The National Guide to Educational Credit for Training Programs. The College does not award credit for experiential learning.

Special Note to Foreign Students: Foreign students must meet all admissions requirements except submission of ACT or SAT scores. They should make application at least 90 days prior to the expected date of entrance. Except in countries where English is the official language, the applicant is required to show proficiency in oral and written expression as
evidenced by satisfactory performance on the Test of English as a Foreign Language (TOEFL). Probationary admission will be considered for applicants who lack proficiency in English. Such students will be given special instruction in English before admission as a degree-seeking student is granted. Foreign applicants are also required to provide evidence that adequate financial resources are available to defray the cost of their educational expenses while they are attending Morris College.

**Articulation with Other Institutions of Higher Education**

Morris College maintains articulation agreements with several two- and four-year institutions of higher education both within South Carolina and outside the state. These institutions include Greenville Technical College, Florence-Darlington Technical College, Central Carolina Technical College, the University of South Carolina, Clemson University, and North Carolina A & T State University. Detailed information regarding articulated courses, programs, and degrees may be obtained from the counseling office of the institutions with which Morris College maintains agreements or from the Morris College Office of Admissions and Records.

**ENROLLMENT OF NON-DEGREE-SEEKING STUDENTS**

Students in the non-degree-seeking category are persons who enroll at Morris College but who do not intend to pursue a degree. Students in the non-degree-seeking category include “special students” and “transient students.”

**Special Students**

Special students are individuals who wish to take college courses for their personal interest and enjoyment but do not intend to pursue a degree. These individuals will be listed as “special students” and will not be subject to the requirements for admission as degree-seeking students. Special students must, however, give evidence of preparation and ability to perform successfully in college-level courses. A student in this category may earn no more than 30 semester hours.

Special students wishing to change their status to degree seeking may do so by meeting all College admission requirements. Upon changing their status to degree seeking, students may apply credits earned as “special students” to the degree.

**Transient Students**

A student enrolled at another institution of higher learning may apply for admission to Morris College as a transient student provided such student is in good academic standing at his/her home institution and provided the program of study to be pursued at Morris College has been approved by the appropriate official of the home institution. Application fees must be paid prior to admission.

**ADMISSION PROCEDURES**

Every candidate for admission must make formal application to the Office of Admissions and Records, Morris College, 100 West College
Street, Sumter, South Carolina 29150. Application forms are available from the Office of Admissions and Records. These forms must be completed and returned to the college together with an application fee of $20.00, which is not refundable.

A. Freshman applicants who have not previously attended any college must follow these procedures:

1. Request application materials from the Office of Admissions and Records.
2. Have “Medical Examination” form completed by licensed medical personnel. In addition to the “Medical Examination” form, persons born after December 31, 1956, must also have “Immunizations” form completed by licensed medical personnel.
3. Request a transcript of secondary school records to be sent directly to the Office of Admissions and Records.
4. Send completed application, medical certificate, and application fee to the Office of Admissions and Records.
5. Complete the placement examination in English and mathematics prior to registration in order to be placed in appropriate English and mathematics courses.

B. Transfer applicants who have not previously attended Morris College should follow the same procedures outlined above for Freshman applicants. In addition they must:

1. Submit an official transcript from each college previously attended.
2. Submit evidence of honorable release from the college from which the applicant is transferring.

Any course in which a transfer student has made a grade below “C” will not be accepted for transfer credit.

C. Former students of Morris College whose attendance has been interrupted for one or more semester(s) must apply for readmission and should follow these procedures:

1. Have “Medical Examination” form completed by licensed medical personnel. In addition to the “Medical Examination” form, persons born after December 31, 1956, must also have “Immunizations” form completed by licensed medical personnel.
2. Submit an official transcript from any college attended since last attending Morris College.

Any student readmitted to the college after an interruption of two or more consecutive semesters must meet all graduation requirements in effect at the time of reentry in accordance with the catalog in effect at the time of reentry. Previous cumulative grade point average will determine readmission status.

D. Any student suspended from the college for any reason must apply for readmission.
E. Any student whose record shows a break in attendance from high school or college must complete a “Whereabouts Form.” Students should contact the Office of Admissions and Records for details.
FINANCIAL INFORMATION

FEE SCHEDULE FOR 2011-2012

Non-boarding student tuition and fees including insurance for
two semesters (not to exceed 18 hours per semester) .......... $10,530.00
Boarding student tuition and fees including insurance, room
and board for two semesters (not to exceed 18 hours per
semester) .................................................................................... $15,226.00

The above costs do not include books (normally $450.00 to $550.00 per
semester, depending on the student’s major) and personal expenses.
All tuition charges and fee charges are assigned at the time of registra-
tion, and the only acceptable forms of payment for these charges shall be
cash, cashier’s check, certified check, money order, or major credit card.

Students who are enrolled for more than eighteen hours per semester will
be assessed $426.00 for each hour over eighteen. Students who are en-
rolled for less than twelve hours (part-time students, including Cooperative
Education Work Experience) will be assessed on the basis of $426.00 per
credit hour.

*Rate may vary. A student who registers in the Fall Semester is assessed
the full annual premium. The premium will be assessed on a pro-rata
basis (2/3 of $165.00) for students registering in the Spring Semester who
were not registered for the Fall Semester.

Graduation Fee ................................................................. $80.00
This fee includes charges for academic attire, diploma, and expenses for
graduation.

Late Registration Fee ...................................................... $25.00
Must be paid by students registering after the beginning of classes.
Special or Delinquent Examination Fee ........................................... $10.00
Persons desiring to take a special examination or a delinquent final examination must pay this fee after which the cashier will validate and issue a special examination permit.

Transcript Fee .................................................................................... $4.00
Upon graduation, one certified transcript of an academic record is issued without charge after which each additional request requires payment of a transcript fee. Transcript fees that are sent to the college by mail should always be in the form of a cashier’s check, certified check, money order, or major credit card, and never in the form of cash.

Professional Organization Fee................................................................. $19.50
The Professional Organization Fee, which provides liability insurance as a benefit of membership, is an annual fee for each of the academic years during which a student is enrolled in one or more of the following courses:

Student Teaching Fee.................................................................$100.00
The Student Teaching Fee is charged for each of the following courses and is payable at the beginning of the semester during which the student enrolls in the following course or courses:

EDU 402: Observation and Directed Teaching (Early Childhood Education), EDU 403: Observation and Directed Teaching (Elementary Education), EDU 412: Observation and Directed Teaching (Secondary Education)

Room Reservation Fee .................................................................$100.00
(See “Residence Halls”)
Refund Policy

The Higher Education Amendments of 1998 (Public Law 105-244) changed substantially the way funds paid toward a student's education are to be handled when a recipient of Student Financial Aid (SFA) funds withdraws from school. Morris College, therefore, has changed its refund policy to coincide with the New Higher Education Return of Title IV Funds Policy.

A student who withdraws from the College after registration but before he/she has completed 60 percent of the period of enrollment is entitled to a credit of tuition, fees, room and board based on the following formula:

\[
\text{Percentage of the period of enrollment completed} = \frac{\text{The number of calendar days completed in the period as of the day the student withdrew}}{\text{The number of calendar days in the period of enrollment}} \times \text{Institutional charges} = \text{Adjusted charges after withdrawal}
\]

Students who move off campus during the semester for any reason other than withdrawal will not receive any refund of their room and board charges. The insurance fee also is non-refundable.

NOTE: The preceding formula is also used to determine how much SFA Program funds the student has earned at the time of withdrawal. After the 60 percent point in the period of enrollment, a student has earned 100 percent of the SFA Program funds. (See Consumer Information Bulletin.)

FINANCIAL AID

Morris College believes that no student should be denied a college education because of a lack of resources; and in support of this idea, the college maintains a number of financial aid programs designed to provide assistance to its needy students. This assistance is offered to the extent that funds are available in these programs, and the programs themselves are financed by the federal and state government as well as through various institutional and private sources. Among the kinds of financial aid awards that are available to students are the Federal Pell Grant, Federal Supplemental Educational Opportunity Grant, Federal Perkins Loan, William D. Ford Federal Direct Student Loan, Federal College Work-Study, South Carolina Tuition Grant, South Carolina Life Scholarship, South Carolina Hope Scholarship, Palmetto Fellows Scholarship, South Carolina National Guard Student Loan Repayment Program, South Carolina Teacher Loan, Federal Direct Parent Loan, and a number of scholarships and other benefits provided by the college, private agencies, and the federal government.

All students applying for admission to Morris College are eligible to apply for student financial aid and are encouraged to apply for such aid. Students seeking financial aid should complete the following:

1. Morris College Application for Aid
2. Free Application for Federal Student Aid (FAFSA) (on the web at
(3) Apply for the South Carolina Tuition Grant by listing Morris College in the college choice section of the FAFSA.

(4) Federal Parent Loan Application (optional)

**PRIORITY DEADLINES FOR FINANCIAL AID**

Fall Semester ................................................................. April 30
Spring Semester ............................................................. October 30
Summer Session ............................................................ March 30

For additional information, contact the Office of Financial Aid at (803) 934-3238 or (803) 934-3245. The Office is located in the Mabel K. Howard Building.

Students who are residents of South Carolina should apply for a South Carolina Tuition Grant. Applications should be submitted after January 1 the year the student is planning to attend college. All eligible applications received through June 30 will be funded.

Application for a South Carolina Tuition Grant is made by completing the Free Application for Federal Student Aid (FAFSA). By submitting the FAFSA to the federal processor and by listing Morris College in the college choice section, the Tuition Grants Commission will be able to electronically draw down the application.

Students who need additional information about financial aid programs or who need direct assistance in completing financial aid applications should either come to the Financial Aid Office at the college or write or telephone:

Office of Financial Aid
Morris College
100 West College Street
Sumter, South Carolina 29150
Telephone: (803) 934-3238 or (803) 934-3245

The office is located in the Mabel K. Howard Building and is open Monday through Friday, 8:00 A.M. to 5:00 P.M.

**POLICY ON SATISFACTORY ACADEMIC PROGRESS FOR ELIGIBILITY TO RECEIVE FEDERAL FINANCIAL AID FUNDS**

**PURPOSE**

Morris College’s Policy on Satisfactory Academic Progress has been developed in accordance with the Federal Regulations that are defined in Public Law 94-482 (U.S. Department of Education), which require each student receiving federally funded student financial aid to make satisfactory academic progress as a condition for continuing to receive federally funded student financial aid. Accordingly, each student who receives federally funded student financial assistance at Morris College must adhere to this policy in order to continue receiving any type of federal financial assistance.

**ELIGIBILITY**

To be eligible for the federally funded financial aid at Morris College, a student must meet the following standards:
1. The student must be admitted and enrolled in an academic program.

2. The student must meet the College’s academic standards that are specified in the Morris College Catalog.

3. A student who is required to take developmental courses will be eligible to receive financial aid to cover developmental courses for only the first academic year.

A student who is seeking admission to the College to pursue another Bachelor’s degree will not be eligible for financial aid unless he/she has been accepted into the Teacher Education Program. These students will be classified as fifth-year undergraduates. For financial aid purposes, all courses taken must be for teacher certification.

The Higher Education Act requires that in order to receive any Title IV Aid (Federal Pell Grant, Federal Supplemental Educational Opportunity Grant (FSEOG), Federal Work-Study (FWS), Federal TEACH Grant, Federal Perkins Loan, Federal Direct Loan, Federal Direct Parent Loan for Undergraduate Students (PLUS), a student must maintain satisfactory academic progress towards a degree. The satisfactory academic progress applies to all terms regardless of whether financial aid was received.

**UNDERGRADUATE ELIGIBILITY**

To be considered maintaining Satisfactory Academic Progress, a student must meet the following minimum requirements:

<table>
<thead>
<tr>
<th>Total Hours Attempted</th>
<th>Cumulative GPA</th>
<th>Earned % of Cumulative Hours Attempted</th>
</tr>
</thead>
<tbody>
<tr>
<td>Up to 24</td>
<td>1.50</td>
<td>65%</td>
</tr>
<tr>
<td>25 to 55</td>
<td>1.70</td>
<td>70%</td>
</tr>
<tr>
<td>56 to 89</td>
<td>1.90</td>
<td>75%</td>
</tr>
<tr>
<td>90 and above</td>
<td>2.00</td>
<td>80%</td>
</tr>
</tbody>
</table>

*This standard is consistent with the College’s academic standards required for graduation.

For state funds the student must earn a minimum of twenty-four (24) semester hours each academic year, or twelve hours for one semester of enrollment.

**TIME FRAME**

The average length of an undergraduate program at Morris College is 126 credit hours. An undergraduate student is eligible to receive financial aid for a maximum of 150% of the hours required for the degree. The Student Financial Aid Office will allow students 189 attempted hours including summer school for completion of a 126 semester hour degree. All attempted hours are counted in determining the 189 hours limit, including transfer hours, whether or not financial aid was received, or the course work was successfully completed. A student will be considered to have reached the maximum number of hours after the semester in which the 189 attempted hours is reached or exceeded.

Satisfactory progress will be evaluated for all students (full or part-time) at the end of each academic year (end of spring semester). Students who
enroll at the mid-point (January) of an academic year or attend one semester only will be evaluated at the end of the spring semester.

Failure to earn the required grade point average and cumulative hours will place the student on financial aid suspension. Students who are suspended from financial aid must remove their academic deficiencies or have an appeal granted before reinstatement of aid. All students are encouraged to attend summer school to remove their deficiencies or to get ahead. A student who does not enroll for a semester and re-enrolls will be evaluated at the time of re-admission.

Determination of academic load is made at the end of the add/drop period each semester. Withdrawing from class(es) after the add/drop period may affect the student's ability to earn the required hours.

LESS THAN FULL-TIME
A part-time undergraduate student is enrolled in less than twelve (12) semester hours. Part-time students must meet the same grade point average requirement for eligibility as a full-time student and must earn the same percent of the part-time hours enrolled. Students who attend with mixed enrollment (e.g. full-time-first semester and part-time-second semester) must earn 12 hours for the full-time semester and 75 percent of the part-time hours.

Failure to meet the minimum standards outlined above will result in immediate financial aid suspension.

A student who has not received financial assistance in previous award years and subsequently applies for financial aid will be evaluated based on the policy listed above.

Transfer students will be evaluated based on the above policy. Transfer credits include hours earned at institutions other than Morris College and will be used to determine the student’s classification. Transfer hours will be included in “total hours attempted” in determining the 189 hours requirement and to determine the cumulative grade point average required. Transfer students are required to earn the required number of hours depending upon enrollment status (full or part-time). Hours transferred in anytime after the student enrollment (at least 1 semester) will be used to assist the student in regaining financial aid eligibility.

Withdrawals (W, WF, and WP grades) that are recorded on the student’s transcript will be included as credits attempted and will have an adverse effect on the student’s ability to maintain satisfactory academic progress. Students who officially withdraw from the College are considered not to be maintaining satisfactory academic progress and must make up the deficit hours. These students are encouraged to attend summer school.

The successful completion of a course is defined as receiving one of the following grades: A, B, C or D. Courses with grades of F, I, W, WF, and WP will not qualify in meeting the minimum standard.

An Incomplete (I) grade indicates that a student has not finished all course work required for a grade and is included in the cumulative credits
attempted. An incomplete will not count as hours passed until a final grade is posted in the Office of Admissions and Records.

Repeated courses will be counted as determined by the Office of Admissions and Records. A repeat of a course with a passing grade (A – D) may adversely affect the student’s academic standing. A student on financial aid may repeat a course once without penalty under the rules for Satisfactory Academic Progress. If a student repeats the same course more than once, the repeated course will not be counted in determining the number of hours of enrollment.

Change of major - A student may change from one degree to another during attendance at the College. Students who change from one major to another are still expected to maintain satisfactory academic progress and complete the course work within the time frame or hours limitation.

Audited courses do not count as either attempted or earned hours.

Financial Aid students whose cumulative grade point average falls below a 2.0 after the Fall semester will receive a warning letter from the Office Of Admissions and Records.

The number of credit hours in which the student is enrolled on the day following the published last day to add/drop a class will be used as official enrollment for financial assistance purposes; full-time status is 12 or more hours. If a student withdraws from classes after the date cited above and reduces his/her enrollment below the awarded status, (the number of hours recorded as of the add/drop date) the student will not meet the minimum number of hours to be earned in one academic year.

* NOTE: Hours earned by Advanced Placement, International Baccalaureate and College Level Examination Program (CLEP) are considered towards meeting the semester hours requirement only for a student’s first academic year.

Re-admitted Students will be reviewed on their previous academic records in order to determine eligibility for assistance, whether or not financial aid was received. Suspended Students who are allowed to return to the College must attend one semester and earn a minimum of 12 credit hours and a 2.0 semester grade point average. After that semester, the student may appeal for financial aid reinstatement. If the appeal is granted, the student must meet the specified eligibility requirements for continued receipt of financial aid. Financial aid will be canceled for any student who is suspended or dismissed from the College.

Removal from financial aid does not prevent students from attending the College, if they are otherwise eligible to continue their enrollment. Students who enroll at the College without benefit of financial aid may request a review of their academic record after any term in which they are enrolled without the receipt of financial aid to determine whether satisfactory academic progress has been met. If the standards are met, eligibility is regained for subsequent terms of enrollment in the academic year.

It is the student’s responsibility to be aware of his or her academic stand-
ing each semester. Although the Student Financial Aid Office will make every effort to promptly notify students of the cancellation of their awards, students are responsible for obtaining their grades and determining if they meet the criteria for continuation of their award.

**RE-ESTABLISHING SATISFACTORY ACADEMIC PROGRESS**

Any student whose financial aid has been terminated may reestablish satisfactory progress by any of the following methods:

- taking courses during the Summer Session(s)
- repeating failed courses
- removing incomplete grades

Cumulative grade point average can only be increased by attendance at Morris College. Deficient hours may be made up by successfully completing course work at Morris College or at another institution. Before enrolling at another institution, the student must gain the appropriate approval from the Academic Dean.

**SUMMER SCHOOL**

Satisfactory Academic Progress for Summer School will be based on the student's current eligibility status. Students who are suspended from financial aid are encouraged to attend summer school to remove their academic deficiencies. Federal or state financial assistance is not available to students not maintaining satisfactory academic progress for summer school.

At the completion of summer school, student’s academic standing is reviewed. If the deficiencies are removed after summer school attendance, the student is awarded and will not be reviewed again until the end of the Spring Semester. A student who fails to meet or maintain satisfactory academic progress is placed on financial aid suspension.

**APPEAL PROCESS**

Students denied federal and/or state financial aid for failure to meet the satisfactory academic progress standards are advised of their right to appeal the decision. A student may request reinstatement of their financial aid based on extenuating circumstances by submitting a completed Financial Aid Probation Request Form accompanied by supporting documentation to the Office of Financial Aid, 100 W. College Street, Sumter, SC 29150. The student MUST indicate in writing (a) reasons why he/she did not achieve minimum academic requirements, and (b) reasons why his/her aid should not be terminated. Waivers for satisfactory academic progress will be considered if the student has suffered undue hardship such as death of an immediate family member, injury or illness of the student, change of major, or other special circumstances that may have prevented the student from performing his/her academic best. Students should submit documentation to support the request for a waiver.

The initial appeal should be addressed to the Director of Financial Aid and on file in the Financial Aid Office no later than (3) days before the census date for the semester. All appeals will be reviewed on a case-by-case basis. A probationary period may be granted at the discretion of the Finan-
cial Aid Director. Conditions under which a student may receive a probationary period may include but are not limited to sickness, death in the student’s family, and unusual circumstances. If the appeal is approved, the student will be placed on financial aid probation and their Satisfactory Academic Progress will be reviewed again at the end of the spring semester.

Students who disagree with the Financial Aid Director’s decision may request an appeal before the Committee on Admissions and Financial Aid, Morris College, 100 West College Street, Sumter, SC 29150. The appeal request should be submitted within five (5) days after the Director’s decision.

If an appeal is approved, the student must do the following:

Sign a Satisfactory Academic Progress Action Plan with the Student Financial Aid Office, which indicates the stipulation of the appeal. Students must schedule an appointment with their Academic Advisor or Division Chair to develop an academic plan of action. Students will be notified, in writing, of the Financial Aid Administrator’s decision within three weeks of the request.

UNSATISFACTORY PROGRESS NOTIFICATION

Students who do not meet the requirements of the satisfactory academic progress policy will be notified by mail of their suspension from financial aid at the end of the academic year. The letter will be mailed to the student’s permanent home address.

Students who are granted an appeal and do not meet the requirements of the action plan will be notified at the end of the semester in which the appeal was approved that their financial aid probation is suspended the following semester.

THE EFFECT OF INCOMPLETE GRADES ON SATISFACTORY ACADEMIC PROGRESS

If a student enrolls for courses and does not withdraw officially from these courses, grades will be assigned in accordance with the institution’s grading system. The grade of I represents incomplete work. A student who receives a grade of I (Incomplete) is expected to complete whatever remains to be completed and to remove the Incomplete grade by the end of the semester following the term during which the Incomplete grade was assigned. For each grade of Incomplete that is not removed within the established time limit, a grade of F will be recorded on the student’s permanent record. Should this occur, it may have a negative effect on the student’s academic status in terms of the Policy on Satisfactory Academic Progress.

THE EFFECT OF REPEATED COURSES ON SATISFACTORY ACADEMIC PROGRESS

A student on financial aid may repeat a course once without penalty under the rules for Satisfactory Academic Progress. If a student repeats the same course more than once, the repeated course will not be counted in determining the number of hours of enrollment.
STUDENT AFFAIRS

The Division of Student Affairs at Morris College provides staff, facilities, methods, and activities for understanding and meeting the needs of students so that each will be provided the maximum opportunity for deriving full benefit from the College experience.

The development as well as the administration of this program is the responsibility of the Dean of Student Affairs and the staff; however, initiative in developing student programs and activities appropriate to the educational purpose of the College as well as implementing such activities is shared with student organizations.

The Student Government Association is one of the principal organizations through which students share in the administration of the College. Some of the objectives of the Student Government Association are as follows:

1. To serve as a medium for the expression of student opinion in the formulation of College policies and regulations.
2. To provide experience in the skills of democratic leadership.
3. To assist the College’s student affairs staff in the coordination of student organizations and activities.
4. To help the administration in planning and directing recreational, religious, and cultural activities.

Students further assist in the determination of institutional policy through service on standing committees. One student is also elected annually to serve on the Board of Trustees.

CO-CURRICULAR ACTIVITIES

ACADEMIC CLUBS

Health Science Club provides meaningful public health experiences for health science students, facilitates school-community interaction regarding health matters, promotes healthy lifestyles among the students and faculty, showcases the benefits of a student-faculty health promotion program, and provides enrichment to the comprehensive Health Science degree program.

STEM Club is open to all students interested in Science, Technology, Engineering, and Mathematics (STEM). Tutorial sessions, lecture series, and research projects are vital parts of the program, with many opportunities for students to participate in these activities.

Morris College INMM (Institute of Nuclear Materials Management) Student Chapter is open to any full-time Morris College student. This organization is designed to foster, promote, and further the purpose and objectives of the INMM: to advance nuclear materials management, promote research in this field, establish standards, improve the qualifications and usefulness of those employed in this field, and increase and disseminate information of nuclear materials management.

Sociology Club is designed to familiarize and further prepare Sociology students with all aspects of the career field and to give them an opportunity to network with professionals in the community.

The Co-op Club assists students in developing marketable skills that will enable them to enter the world of work successfully.

The S-SCEA (The Student-South Carolina Education Association) is a professional organization for college students preparing to teach. It is an integral part of both the National Education Association and the South Carolina
Education Association. It provides its members an opportunity for personal growth and the development of professional competence. Candidates enrolled in the Teacher Education Program are required to hold membership in a student educational professional association.

The Art Club provides opportunities for students to enhance their creative skills; promotes awareness of visual arts and provides hands-on experiences in producing art. Students are assisted in developing marketable visual skills that will enable them to enter the visual arts world successfully.

Social Studies Club is devoted to the study and discussion of current affairs and topics related to the social sciences. Membership is open to all students and is strongly encouraged for students majoring in any social science area.

French Club is open to full-time Morris College students who are interested in learning French and/or enhancing their cultural understanding of France and francophone countries.

Morris College Chapter of the National Broadcasting Society is open to all Mass Communications majors who have an interest in professions that involve over-the-air, cable, and other electronic media outlets.

The Recreation Club promotes an awareness of recreation at Morris College by active participation of the Recreation Administration majors in club projects.

Phi Beta Lambda, a business club, complements classroom work in business administration, develops student leadership, develops and strengthens student-teacher rapport, and instills proper attitudes and social responsibility. Open to all members of the Morris College family.

The Library Club enhances student library relations and aids students in understanding regulations relative to student use of the Learning Resources Center (LRC). Club members make recommendations for improving LRC services. Membership is open to interested students.

Investment Club is open to all students who are interested in learning the principles and mechanics of all aspects of financial management and investing.

The Literary Society is designed to promote growth through readings, lectures and literary programs. Membership in the organization is open to all students. Students with major or minor programs in English are strongly encouraged to become members.

Poetry Club is an organization dedicated to the promotion of poetic and cultural enrichment for its members. The understanding of poetry enhances student relations and emphasizes creativity through written and verbal expression.

Morris College Players is open to all students interested in any phase of dramatic endeavors.

Morris College Dance Team is open to students interested in demonstrating and displaying their talents and skills through dancing to enhance the educational, social, and cultural atmosphere of the campus.

South Carolina Chapter of the National Association of Blacks in Criminal Justice (NABCJ) is a network of criminal justice professionals and criminal justice majors enrolled at accredited colleges and universities who address the needs, concerns, and contributions of African-Americans and other minorities as they relate to the administration of equal justice in the United States.

Pre-Law Club consists of students who are interested in attending law school and preparing for the Law School Admission Test (LSAT).
HONOR SOCIETIES

Alpha Kappa Mu National Honor Society (Mu Lambda Chapter) promotes high levels of scholarship and achievement in all fields of knowledge and service. It is open to junior and senior students with a cumulative grade point average of not less than 3.3.

RARE Reinforcers, Achievers and Representatives of Excellence (RARE-Honors). The purpose of the organization is to implement the objectives of the Morris College Honors Program through accepting leadership roles to further promote the positive image of the College; promoting academic excellence, self-discipline, initiative, self-esteem and creativity; publishing and presenting scholarly papers; participating in national and regional conferences and symposia; and supporting and encouraging an environment conducive to effective teaching, study, and learning at Morris College.

Alpha Lambda Delta Honor Society (Freshman Honor Society) encourages superior scholastic achievement among students in their first year in institutions of higher education, promotes intelligent living and a high standard of learning, and assists men and women in recognizing and developing meaningful goals for their roles in society.

Sigma Tau Delta (Alpha Gamma Pi Chapter) is open to English majors with a "B" average in English. Members must have completed at least three semesters of college work.

Pinnacle is open to all adult (generally defined as 25 years and older) and other non-traditional students who have achieved at least junior status, have a cumulative grade point average of at least 3.0, and are involved in at least three campus or community activities.

Arthur & Iris McLaughlin (AIM) Endowed Scholarship Fund. Awarded to a student specializing in education, music, or another social science or humanities discipline. Student must demonstrate a financial need and maintain a grade point average of B+ or above. Established by Arthuree McLaughlin Wright to memorialize her parents, Arthur Spigel and Iris Ladson McLaughlin, who were proud and loyal alumni.

Alexander and Shatirah Rhodes Memorial Endowed Scholarship. Awarded to any descendant of Alexander and Shatirah Rhodes who is a full-time student at Morris College. Student must maintain a minimum “C” average in any area of study. Established by the Alexander and Shatirah Rhodes Family Reunion Committee.

The Dr. John E. Bell Science Scholarship Award. Award is provided each year to a junior or a senior majoring in Biology or Mathematics with a 3.6 grade point average or above. Applicants must write a 500-word essay on how to improve health care in urban communities. Established by Dr. John Bell.

Chaplain (LTC) Elijah Harris Gardner Memorial Scholarship. (Criteria currently being established).

Gwendolyn E. Anderson Endowed Scholarship. Awarded to a student majoring in Teacher Education. Student must have passed Praxis I, maintain at least a 2.5 grade point average, and agree to teach elementary education in South Carolina for at least one year. Established by the estate of Gwendolyn E. Anderson.

Callie Clark Seales Scholarship Fund. Awarded to a student who demonstrates a financial need. Student must be a member of First Baptist Missionary Church of Sumter, South Carolina for at least two years and involved in various activities. Student must also be involved in community service. Established by Vivian L. Smith in memory of her mother, Callie Clark Seales, who was an active member of First Baptist Missionary Church.

Willie Bogan Zimmerman, Jr. Scholarship Fund. Awarded to a member of Epsilon Lambda Chapter of Omega Psi Phi Fraternity, Incorporated who exemplifies high scholastic ability, leadership, strong moral character, and has distinguished himself above others in outreach toward the great
Sumter community as well as making a selfless commitment to making the college experience at Morris College more manageable for peers. Recipient must be a full-time student with a declared concentration, have a 2.7 overall grade point average, and demonstrate sufficient need for financial support. Student must not have any disciplinary or legal actions pending and not be the recipient of the Gamma Iota Scholarship during the same year. Established by alumni brothers and the family and friends of Willie Bogan Zimmerman, Jr.

**The Louis Fleming Memorial Scholarship.** Awarded to a first generation, non-traditional male student who is head of household with child(ren), who has demonstrated a commitment to excellence in education by maintaining a 3.0 GPA. Scholarship is renewable for up to three years. Established by the family.

**RELIgIOUS LIFE**

Religious activities at Morris College are designed to enrich the moral and spiritual atmosphere of the campus and the spiritual growth of each student.

To carry out this purpose, the following programs are provided during the regular school year:

1) College Assemblies are held each Thursday at 10:00 a.m. During the week of Thanksgiving, the assembly is held on Tuesday.
2) Sunday School is held each Sunday at 9:00 a.m.
3) Midweek Worship services are held on Wednesdays at 6:00 p.m.
4) Religious Emphasis Week services are held twice a day during the fourth week of February.

Activities provided by the Baptist Student Union and the Gospel Choir also enhance the religious life of the College community. The highlight of religious activities is Religious Emphasis Week which gives the College community an opportunity to place special emphasis on worship and religious ideals.

**RESIDENCE HALLS**

Morris College has five residence halls: two for female residents, two for male residents, and one assigned as needed. A student desiring to reserve a room in the residence hall for the regular academic year (fall and spring semesters) must pay a one-time refundable room deposit that allows that student to reserve a room for each session, summers included. The one-time payment of the $100 deposit will give the student the right to reserve a room by completing the housing agreement for each session. The deposit will be refunded upon the student’s graduation or separation from Morris College, pending payment of all outstanding debts to the College.

To be admitted to the residence halls, students must submit a housing permit from the Office of Business Affairs, verifying that they have cleared all previous financial and other obligations to the College. New students are admitted to the residence halls beginning at 8:00 a.m. on the day of Parent/New Student Orientation. Returning students are admitted beginning at 1:00 p.m. on the day designated for returning students to occupy residence halls or at 1:00 p.m. on the day prior to resuming classes after a holiday. Room reservations are made by current students between February 1 and May 1 in the Office of the Director of Residential Life for the approaching summer session, fall semester, or spring semester.
COUNSELING AND TESTING SERVICES

Counseling services at Morris are designed to help the student grow in understanding of his/her feelings, attitudes, and behavior, and in understanding others who are involved with the student. These services include counseling to deal with problems that are personal, social, academic, religious, financial, marital, premarital or health-related.

Students desiring to enter graduate school should know that Morris College has been established as a controlled testing center for the MAT (Miller Analogies Test). Students may come to the Counseling and Testing Center to obtain information about the MAT as well as a testing schedule. The MAT may only be taken at Morris College twice within a twelve-month period.

HEALTH SERVICES

The Health Services Program includes an on-campus part-time physician and full-time nurse who direct the program.

Insurance: All full-time students are covered by a medical insurance plan that is effective twenty-four hours a day for twelve months. The fee for this insurance is paid at the time of registration.

Benefits cover accidental death and dismemberment, medical expenses for an accident, sickness involving hospital confinement, surgical charges, doctor’s visit in hospital and outpatient prescription charges. Information concerning specific exclusions and limitations is available on request. The health program is coordinated by the Director of Health Services, who can provide information about the program.

CULTURAL ENRICHMENT

The Cultural Enrichment Services Program brings to the campus outstanding artists and speakers from a variety of fields. Faculty, staff, and students share in the planning of the series which provide the student a wide range of culturally enriching experiences.

The President’s Lecture Series brings to the campus people who have excelled in various disciplines.

RESIDENCE HALLS PROGRAMS AND ACTIVITIES

Residence halls programs and activities are designed to promote the living learning concept in residential living. Educational film series and seminar-lecture activities are major residence halls program thrusts.

The activities, planned by residents, faculty and staff, are coordinated by the Director of Residential Life.

STUDENT CONDUCT

Students remain at Morris College on the condition of maintaining satisfactory moral character as well as scholarship. The College reserves the right to dismiss from the institution any student whose conduct is not in harmony with the ideals or standards of the institution. To insure the safety and security of the campus, the College has the right to deal immediately with any student who is a threat to himself or to others and can take necessary action pending formal proceedings.

Each student is obligated to help maintain discipline and order. Minor student violations are handled through residence hall senates or the Student Government Association Senate. Other disciplinary problems are handled by the Dean of Student Affairs or a designated Conduct Administrator in an administrative hearing or the Faculty-Student Judiciary Committee. For further information about the student grievance procedure, please see the current *Morris College Student Handbook*.
VEHICLE REGISTRATION

Each student must register the motor vehicle he/she owns or operates and pay the necessary registration fee. Freshman resident students are not permitted initially to bring automobiles or other motor vehicles to campus. After mid-semester examinations in the fall term, all freshmen will be able to register vehicles on campus. Every vehicle must meet all stipulations for on-campus registration such as being registered to a parent, guardian, spouse, or the student, as well as meeting the other guidelines as outlined on the Vehicle Registration forms.

If a freshman is seeking to register a vehicle prior to the end of the mid-semester examination period, he or she must first obtain a letter of permission from the Office of Student Affairs.
Records which show the progress of each veteran or eligible person.*

Records which show the progress of each veteran or eligible person are kept and maintained by the College:

All courses which a veteran or eligible person takes in a program of study are recorded by numbers and descriptive titles on an official registration form. A grade report for each course is submitted at the end of each semester.

When a veteran or eligible person withdraws or is dropped, the date of withdrawal or termination is recorded in his folder.

When a veteran re-enrolls after having withdrawn or dropped from the college, the date of re-enrollment is recorded in the student’s folder.

Veterans are generally subject to the same standards of academic performance and class attendance that apply to all other students at Morris College. However, DVB Circular 22-80-38 will not allow a veteran or eligible person to remain on academic probation beyond two semesters without an improvement in his/her academic standing. Therefore, a veteran or eligible person is subject to suspension if he/she does not remove the probationary status after two semesters.

Procedures for determining the point in time the eligible person ceases to maintain attendance in a course.

1. Official withdrawal from a course.

   Official withdrawal application must be made by the eligible person in triplicate, signed by the officials listed on the form, and delivered to the Office of Admissions and Records. Reports are then sent to the Veterans Counselor by the Office of Admissions and Records. Attendance reports will reflect unofficial withdrawal.

2. Unofficial withdrawal or unscheduled interruption in course enrollment and/or attendance.

3. Unsatisfactory conduct of students is determined on the basis of due process involving formal hearings and/or official written notification to the student concerned. Any change made in the enrollment status of a veteran or eligible person shall be made to the Veterans Administration within the month occurring or immediately thereafter.

4. See “Students Called to Military Service” (Page 54).

Procedures for awarding appropriate credit for previous education and training of the veteran or eligible person.

College credits earned at another institution of higher education are evaluated by the Director of Admissions and Records and the advisor in the academic program to which the eligible person is seeking admission. Transcripts must be sent from the institution where credit was earned.

*The term “eligible person” is used to include veterans and other V.A.-related eligible persons.
directly to the Morris College Office of Admissions and Records. Morris College will not accept any course completed in another college for which the grade received is below “C.” Courses will be accepted for graduation requirements on the basis of their relevance to the requirements established by Morris College for the respective degree programs offered by the institution.

Credit for educational experiences in the Armed Services will be awarded on the following basis: (1) an evaluation made upon presentation of valid credentials certifying such educational experiences, (2) guidelines set forth in the Guide to the Evaluation of Educational Experiences in the Armed Services published by the Commission on Educational Credit of the American Council on Education, and (3) the relevance of such educational experiences to the requirements of Morris College for the respective degree programs offered by the institution.

Notification of the award of credit for previous education and training shall be made to the eligible person, to the Veteran’s Counselor and to the Veterans Administration prior to admission.

Veterans and eligible persons are expected to request evaluation of previous educational experiences at the time of application for admission to the College.
GENERAL ACADEMIC INFORMATION

ORGANIZATION

To carry out effectively the purpose and philosophy of Morris College, the academic program of the College is organized under six divisions:

- Division of General Studies
- Division of Business Administration
- Division of Education
- Division of Religion and Humanities
- Division of Natural Sciences and Mathematics
- Division of Social Sciences

DEGREES

The College offers the following degrees:

- **Bachelor of Arts** with majors in Christian Education, Criminal Justice, English, History, Liberal Studies, Pastoral Ministry, Political Science, Sociology, English/Secondary Education and Social Studies/Secondary Education.

- **Bachelor of Fine Arts** with a major in Mass Communications.

- **Bachelor of Science** with majors in Biology, Business Administration, Health Science, Mathematics, Organizational Management, Recreation Administration, Biology/Secondary Education and Mathematics/Secondary Education.

- **Bachelor of Science in Education** with majors in Early Childhood Education and Elementary Education.

MAJOR AND MINOR

A major is defined as the primary academic area of specialization within the student’s curriculum. For most majors the hours required for completion vary from a minimum of 30 to a maximum of 36. A minor is defined as a secondary academic area of specialization. The hours required for the completion of a minor vary from a minimum of 18 to a maximum of 24.

Students are **required to declare a major and are encouraged to select a minor**. Additionally, each program provides for at least six semester hours of elective credit. Requirements for each major and minor offered at the College are found in the “Academic Divisions and Programs” section of the Catalog.

The information for each major includes a semester-by-semester curriculum exhibit, which outlines the courses that a student pursuing a major in that discipline should take during each semester of his or her four years at the College. Since students in a given major will select different minors and electives, the curriculum exhibit indicates only the semester during which a minor course or an elective is to be taken. The faculty advisor will help the student select the appropriate minor course or elective during academic advisement.
GENERAL EDUCATION

The general education program is designed to develop knowledge, understanding, skills and attitudes which should be the common possession of all educated persons in a free society. There are two General Education “tracks.” The General Education track for students majoring in biology requires 55 semester hours. The General Education track for students majoring in mathematics and nonscience disciplines requires 61 semester hours.

GENERAL EDUCATION REQUIREMENTS

SCIENCE (BIOLOGY) TRACK

English ................................................................................................................ 12 Hours
ENG 103 Fundamentals of Composition ............................................. 3

*Students who plan to major in Sociology are advised to take SOC 101.
**Required for mathematics majors only.
***Three credit hours of Military Science may be substituted for EDU 210.
Developmental Studies
New students who score below a certain level on the placement test will be required to complete one or more developmental courses before beginning their freshman courses. Transfer students with 24 or more semester hours and no grade below “C” will not be required to take developmental courses.

ACADEMIC REGULATIONS

Registration
Registration is open to all persons admitted to Morris College by the Office of Admissions and Records. Students may register in the fall, spring or summer according to dates listed in the official academic calendar. All faculty and staff members assist in the registration process during the designated periods.

Registration is normally held for two days. New freshmen are registered on the first day. Continuing and transfer students are registered on the second day. Students are directed through the following process:

1. Fee payment/permit to register
2. Academic clearance
3. Advisement
4. Registration approval
5. Fee assessment
6. Financial aid
7. Terminal control
8. I.D. cards
9. Library
10. Placement and Cooperative Education

The Student Statistical Information/Official Registration Form must be properly filled out, signed by the student, the faculty advisor, the Academic Dean, and the Director of Admissions and Records. The form must be turned in at the Admissions and Records station in order for the student to be officially registered at Morris College for a designated period.

Credit Hour Load
The normal load for a full-time student ranges from 12 to 18 credit hours a semester. However, a student on academic probation may not enroll for more than 13 credit hours a semester. A student with a grade point average of 3.0 or higher for 15 or more credit hours in non-developmental courses for the preceding semester may enroll for 19 to 21 hours with the approval of his/her academic advisor and the Academic Dean.

Limitation of Courses Offered
The College reserves the right to cancel any course for which the enrollment is not sufficient. The listing of available courses in this catalog does not imply a contractual obligation on the part of the College to offer these courses each year. A student who needs only one upper-division course to meet graduation requirements may be permitted to take the course by di-
rected study during either the first or the second summer session if the course does not appear on the summer school schedule. Directed studies are not permitted during the fall or the spring semesters.

Repeated Courses
A student may repeat a course in order to raise a “D” or “F” grade that appears on the record of courses at Morris College. A repeated course is counted only once in computing the grade point average. Courses in which the grade earned is “C” or above may not be repeated for credit.

Grade Reports
Student grade reports are prepared and distributed at the mid-semester and the end of each semester. Grades are mailed to students on designated days. Grades are withheld if the student is delinquent in his or her account or indebted to the College in any way. Students should review grade reports carefully and notify the Office of Admissions and Records of any grading errors. If no error is reported within a month of the term ending date, it is assumed that the report is correct; and all entries become a part of the student’s permanent record.

Classification of Students Serving Internships
Before serving an internship, a student must be classified as a senior (as defined by the current edition of the Morris College Catalog).

Description of Courses
All courses offered at Morris College are listed under the subject areas in which they belong. These areas are listed in alphabetical order beginning with Art and ending with Speech and Theater.

When a student has scheduling difficulties and has to enroll in a course that is numbered higher than his own rank, the student may do so upon the approval of the major advisor and the Academic Dean.

In general, the level of a course is indicated by the first digit as follows:

1 ................................................................. Freshman level
2 ................................................................. Sophomore level
3 ................................................................. Junior level
4 ................................................................. Senior level

Grading System
Academic achievement at Morris is indicated by the following letter grades, numerical grades and grade points used in calculating grade-point averages:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Numerical</th>
<th>Points</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>(90-100)</td>
<td>4</td>
<td>Excellent</td>
</tr>
<tr>
<td>B</td>
<td>(80-89)</td>
<td>3</td>
<td>Good, above average</td>
</tr>
<tr>
<td>C</td>
<td>(70-79)</td>
<td>2</td>
<td>Satisfactory, average</td>
</tr>
<tr>
<td>D</td>
<td>(60-69)</td>
<td>1</td>
<td>Poor, but passing</td>
</tr>
<tr>
<td>F</td>
<td>(Below 60)</td>
<td>0</td>
<td>Failure</td>
</tr>
<tr>
<td>U</td>
<td>(Below 70)</td>
<td>0</td>
<td>Unsatisfactory</td>
</tr>
<tr>
<td>S</td>
<td>(Above 69)</td>
<td>0</td>
<td>Satisfactory</td>
</tr>
</tbody>
</table>
“U” and “S” grades are used in all noncredit courses.

“I” (incomplete) denotes that the student failed to complete all requirements for a course.

“X” denotes that the student was absent from the final examination.

“X” and “I” grades incurred during the academic year must be removed by the end of the succeeding semester (whether or not the student is enrolled); otherwise the grade of “F” will be recorded on the permanent record.

Similarly, “X” and “I” grades incurred during the summer sessions must be removed by the end of the succeeding semester (whether or not the student is enrolled); otherwise the grade of “F” will be recorded on the permanent record.

“WP” denotes withdrew passing from a course, if the student is performing satisfactorily at the time of withdrawal.

“WF” denotes withdrew failing from a course after the deadline for dropping a course, or because of excessive absences.

“AU” denotes “audit” and is listed in the computer module only.

The following grade symbol is also used but is not included in computing the grade-point average:

“W” denotes withdrawal from the College.

Grade Point Average
The grade point average is determined by dividing the total number of quality points earned by the total number of credit hours attempted. In order to receive a degree, a student must attain an overall average of “C” (2.00) and no grade less than “C” in his major and minor areas which are offered to meet graduation requirements. “Major and minor areas” include courses listed in the “Other Required Courses” section of each program outline, with the exception of JRS 300.

Class Attendance
Students are required to attend regularly all classes for which they are officially registered; and faculty members are required to keep complete and accurate attendance records for all students officially registered in their classes. A student who compiles a record of absences that exceeds twice the number of weekly class meetings will be dropped from the course with a grade of WP or WF. The maximum number of absences permitted for a class that meets four times a week is eight; for a class that meets three times a week, six; for a class that meets twice a week, four; and for a class that meets once a week, two. A student who receives a WP or a WF because of documented extended personal illness or natural disaster such as tornado, hurricane, earthquake, or blizzard may appeal for reinstatement in the class. Students will be excused from class to participate in official activities of the College such as choir engagements, intercollegiate athletic contests, and field trips.

Transient Enrollment
If a student is enrolled at Morris, he may not enroll for additional credit at any other institution without getting prior written permission from the Academic Dean. Otherwise, the credit so earned may not be accepted by Morris.
Permission for transient enrollment will be granted only for summer school.

Students requesting permission to take courses at another institution must have attained a cumulative average of at least “C,” must have a good financial standing and must be currently enrolled before approval is granted. All courses must be taken at an accredited institution. Upper level courses may not be taken at a two-year institution.

**Dropping Courses**

A student desiring to drop a course must obtain the required forms from his/her academic advisor. The forms, when completed, must be presented to the Office of Admissions and Records for certification of the record.

Withdrawal from a course by the end of the drop/add period will not be recorded on the student’s permanent record and, therefore, will not be counted in the computation of hours attempted. If a student drops a course after the prescribed deadline for dropping a course, the hours are counted in computing the grade point average.

**Voluntary Withdrawal from the College**

A student desiring to withdraw from the College should secure an Application for Withdrawal Form from the Office of Admissions and Records. The form must be completed and returned to the issuing office with all designated signatures affixed. Students must depart the campus upon withdrawal. A student who withdraws from the College contrary to this policy will receive a grade of “F” in all courses in which he/she is enrolled. All students who officially withdraw from the College MUST be formally readmitted. Information about readmission can be obtained from the Office of Admissions and Records.

**Involuntary Withdrawal from the College**

Students who receive WF grades at midterm which total 75 percent of their credit hour load during any semester will be administratively withdrawn from the College and must depart the campus within 24 hours. Students who have been administratively withdrawn from the College are subject to the provisions of the academic probation, suspension, and dismissal policy.

**Students Called to Military Service**

The following policy applies only to students who are required to withdraw from ongoing classes because of being called to active military service either as a member of the Armed Forces Reserve or a National Guard Unit or through actions of a Selective Service Board. In all cases where such actions occur, the student should first seek an extension of the required reporting date in order to complete the work of the semester or summer session without the loss of any academic credit. If such an extension cannot be granted, the College will apply the following special regulations:

1) A student who has completed fewer than 75 percent of the calendar days prescribed for the semester or summer session shall receive a grade of “W” for all courses from which the student is required to withdraw and shall receive a full refund of all tuition, fees, and room and board charges that have been assessed for the term during which the military withdrawal occurs.
2) A student who has completed 75 percent or more of the calendar days prescribed for the semester or summer session may (1) request a grade of “I” or “X” as deemed appropriate by the faculty member teaching the course or (2) request to withdraw with a grade of “W.” Students receiving a grade of “I” or “X” under these special regulations shall be allowed a period of thirty-six months from the date of withdrawal to convert the “I” or “X” grade to a completed passing grade or else receive a grade of “F.” Students receiving a grade of “I” or “X” under these special regulations shall receive no refund of any tuition or fees but shall receive a pro rata refund of unused room and board charges. Students withdrawing with a grade of “W” shall receive no refund.

If a student does not maintain Satisfactory Academic Progress as a result of being called to active military service, the student will be granted a waiver for the period that he or she did not earn the required grade point average and/or credit hours. Students who are required to withdraw from ongoing classes due to active duty military service are exempt from readmit policies.

Academic Probation, Suspension, and Dismissal

Students must maintain a minimum grade point average based on the number of semester hours attempted. The minimum grade point average is as follows:

<table>
<thead>
<tr>
<th>Total Semester Hours Attempted</th>
<th>Cumulative Grade Point Average</th>
</tr>
</thead>
<tbody>
<tr>
<td>up to 24</td>
<td>1.50</td>
</tr>
<tr>
<td>25 to 55</td>
<td>1.70</td>
</tr>
<tr>
<td>56 to 89</td>
<td>1.90</td>
</tr>
<tr>
<td>90 and above</td>
<td>2.00</td>
</tr>
</tbody>
</table>

Academic Probation

The record of each student is reviewed at the end of each semester. For each semester following the semester in which the student fails to achieve the minimum grade point average, he/she is placed on academic probation. A student on academic probation may enroll for no more than 13 semester credit hours and may participate only in academic and academic-related activities.

Academic Suspension

After three consecutive semesters of failure to achieve the minimum grade point average, the student will be suspended. A student suspended for academic reasons can not reenroll at the College for one full semester; however, he/she may seek approval from the Academic Dean to attend summer school in order to improve his/her cumulative grade point average. The student must present written confirmation of the Academic Dean’s approval before he/she will be permitted to register for the summer session.

Academic Dismissal

A student who has been previously suspended and who fails to achieve the minimum grade point ratio after being readmitted will be dismissed from the College and will not be eligible to reenroll.
Academic Classification

Academic classification is based on the number of credit hours earned:

Freshmen—less than 24 hours
Sophomore—24 semester hours
Junior—56 semester hours
Senior—90 semester hours

Declaration of a Major and Minor

A student pursuing courses leading to a baccalaureate degree must select a major. This selection should be made as early as possible but not later than the beginning of the junior year. The requirements for majors and minors are stated in the academic programs given under each division. No credits toward graduation will be granted for any course in the major or minor field in which the grade earned is below “C.”

Change of Major

A student who desires to change his/her major should do so at least two semesters prior to graduation. The student should complete the following procedures:

(1) Obtain a Change in Major Form from the Office of Admissions and Records.
(2) Complete the form and have it approved by the former advisor, the new advisor and the Academic Dean.
(3) Submit a copy of the completed and approved form to the former advisor, the new advisor, the Academic Dean, and the Director of Admissions and Records.

Final Examinations

Final examinations are scheduled by the Office of the Academic Dean during the last week of each semester. The College requires that a final examination be given for every course that carries credit and that final examinations begin at the time scheduled. Conflicts and changes concerning examinations are to be resolved only by the Academic Dean. An examination taken at any time other than that officially scheduled by the designated office will be considered a special examination and must receive the approval of the Academic Dean.

Credit by Examination

Morris College awards course credit on the basis of examinations administered under the College Level Examination Program (CLEP), Dantes Program Standardized Tests, and ACT Proficiency Examinations Program (PEP). Students may not take a CLEP, Dantes, or PEP examination to receive credit for a course which they have audited, failed, or passed. Credit may not be earned for 300- or 400-level courses or for one sequential or two-semester courses if students have already taken one of the courses. Students who wish to take CLEP, Dantes, or PEP examinations must do so prior to the completion of 90 semester hours. Any student who wishes to obtain credit by examination through the CLEP, Dantes, and PEP Programs
must complete an application and secure signatures of approval from the professor in the subject area, the Division Chair, and the Academic Dean prior to taking the examination. A passing score will result in a grade of “P” (Pass) being posted to the student’s academic record. Credit will be awarded but will not be used to compute the semester or the cumulative grade point average.

Morris College also awards credit for high school courses in which College Entrance Examination Board (CEEB) Advanced Placement (AP) examinations have been given and appropriate levels of competence demonstrated. Students may not take for credit a course or courses for which they have earned advanced placement credit.

A maximum of 30 credits may be earned through credit by examination. Degree credit will be awarded to students who make a score of “C” or better or the numeric equivalent on all examinations. Grades, credit hours, and quality points will be recorded on the transcripts of students who receive credit by examination. Students who have taken CEEB AP examinations in high school should have their scores sent directly to the Office of Admissions and Records.

Students may confer with their respective advisors for additional information about earning credit by taking the CLEP, Dantes, and PEP examinations. Prospective students may confer with the Director of Admissions and Records regarding CEEB AP credit.

Auditing

Any student may be granted the privilege of noncredit enrollment in a credit course upon approval of the student’s advisor and the Academic Dean. This “auditing” privilege carries full rights to class participation but it does not carry academic credit. The auditing privilege is subject to the same fees as credit courses.

Determination of Degree Requirements

In the determination of degree requirements, a student must follow the catalog in effect at the time of his/her initial enrollment, provided he/she has been continuously enrolled. However, a student who interrupts his/her studies at Morris College for two or more consecutive semesters must meet all requirements according to the catalog in effect at the time of reentry.

Transcripts

Official transcripts from the College are obtained upon written request to the Office of Admissions and Records. All accounts, library fines, fees, and any other obligations to the College must be cleared before a transcript is released. Once a student graduates, one transcript is issued free of charge. A fee of $4.00 is required for all additional transcripts.

ACADEMIC HONORS

President’s List and Dean’s List

The President’s List contains the names of all students who attained a semester grade-point average of 4.0, provided the student has completed a minimum of 15 credit hours with no developmental studies courses.
The Dean’s List contains the names of all students who attained a semester grade-point average of 3.0 or above. The student must have completed a minimum of 15 credit hours, with no developmental studies courses. Although 12 semester hours is defined as “full time,” a higher level of achievement is expected for academic honors, hence the requirement for the semester credit hour load of 15 hours.

Morris College Scholars
Students who are named to the President’s List and/or the Dean’s List for six consecutive semesters and who complete at least 15 credit hours each semester with no developmental courses are designated as “Morris College Scholars.” This is the highest academic honor students can attain prior to graduation. Scholarship emblems bearing the seal of the College are awarded to each “Morris College Scholar.” A grade-point average of 3.0 is required for each semester following the initial listing for continued designation as a Morris College Scholar.

O. R. Reuben Scholars
Students who have been listed on the Dean’s or President’s List for both semesters of their freshman year are designated O. R. Reuben Scholars. This academic honor is named for the late Odell R. Reuben, a former President of the College.

Graduation Honors
The following honors are awarded at graduation to students who have maintained a high level of scholarship during their college careers. A student must be enrolled at the College for at least one year (30 credit hours) in order to receive graduation honors.

Cum Laude—grade point cumulative average of 3.0 or higher.
Magna Cum Laude—grade point cumulative average of 3.50 or higher.
Summa Cum Laude—grade point cumulative average of 3.85 or higher.

Graduation Requirements
1. A candidate for graduation must have earned at least 25 percent of the required hours in residence at Morris College.
2. A candidate for graduation must have earned a minimum of 124 credit hours and a grade point average of not less than 2.0. Certain major programs require a higher number of credit hours as the minimum for graduation.
3. A written application for graduation that is available in the Office of Admissions and Records must be filed with that office no later than the end of a student’s junior year. An applicant for graduation will be notified by the Office of Admissions and Records of his or her status prior to the next registration period.
4. A graduation fee of $80.00 must be paid to the Financial Services Office at the time the application is made.
5. Graduation exercises are held annually in May following the close of the spring semester. All candidates are expected to participate in the exercis-
es at this time. If compliance with this regulation is not possible, requests for graduation in absentia must be made in writing to the Academic Dean.

6. All candidates for graduation must be certified by the Director or Admissions and Records.

7. A final written examination is required of all candidates for graduation.

8. Students seeking to graduate in four years may require more than four years if:
   (1) they had academic deficiencies in English and/or mathematics;
   (2) they were on academic probation one or more times;
   (3) they enrolled in teacher preparation programs; or
   (4) they changed their major academic program.

Change of Name and/or Address

It is the obligation of every student to notify the Office of Admissions and Records of any change in name or permanent address. Failure to do so can cause serious delay in handling of student records and important correspondence.

Textbook Policy

Textbooks are required. All students must adhere to the textbook copyright law. Textbooks must be obtained at least one month prior to midterm or final grades will be affected.

Classroom Disruption

All students are expected to behave in a mature and orderly manner. Disruptive and/or disorderly conduct will not be tolerated in the classrooms or laboratories at Morris College. After the initial warning, faculty may dismiss from class or laboratory a student whose conduct is, in his/her opinion, disruptive. This includes, but is not limited to, verbal abuse, any kind of harassment, profanity, fighting, disruption of property, chronic tardiness, or any other interference with classroom activities. Such students will not be permitted re-entry into the class until clearance is obtained from the faculty member, the appropriate division chair, and/or the Academic Dean. Absences incurred during a dismissal from class will be recorded as unexcused. The length of absence from class shall not exceed two class days (48 hours) from the date of the incident.

In a case involving extremely disruptive behavior, the college reserves the right to take additional disciplinary action through its established judicial process. If a student is found responsible for such violation, the minimum disciplinary action may be dismissal from the class in question with a semester grade of F, while the maximum disciplinary action may be expulsion from the college, dependent upon the gravity of the violation.

Academic Honesty

Academic honesty is expected in all situations at Morris College. Morris College students are expected to have the self-confidence, the self-respect, and the good judgment to recognize that a sound education requires doing one’s own work. Thus plagiarism and other forms of academic
dishonesty are the basis for failure, according to the college’s policy as follows:

Dishonest work of the following kinds will result in students being penalized:

- Use of any unauthorized assistance in taking quizzes, tests, or examinations;
- Use of any portion of books, papers, or notes copied from any source (including electronic transmission) without acknowledgment;
- Use of bribery, threats, or any other means of coercion to influence any college official, faculty member, or employee responsible for processing grades, evaluating grades or for maintaining academic records;
- Use of forgery, alteration, unauthorized possession, or misuse of College documents pertaining to academic records, including, but not limited to, late or retroactive change to schedule forms and late or retroactive withdrawal of application forms;
- Use of any other misleading or dishonest practice.

A report must be initiated and executed within 48 hours by the instructor on the prescribed form, Report of Academic Dishonesty. In a case of dishonesty, an instructor may decide to give the student no credit for the assignment in question or for the course as a whole. Depending on the severity of the case, the instructor must submit a written statement to the Office of Student Affairs and the Office of Academic Affairs for further action to be taken. A student may appeal the action by written statement to the Office of Academic Affairs.

Academic Grievance Procedure

For information about the academic grievance procedure, please see the current Morris College Student Handbook.
SPECIAL PROGRAMS AND SERVICES

Freshman Orientation Program
Intensive orientation activities are offered to new students during entry weeks of the fall and spring semesters. Students then continue their orientation within a comprehensive course, FRS 100 Freshman Seminar. The pivotal concern is that students will be provided with a sound, successful, entry level academic growth experience.

Student Support Services
Student Support Services is a federally funded program which provides opportunities for academic development for 200 freshmen and sophomores annually. First-generation, low-income students and students with disabilities are eligible to participate. The program assists student in their transition from high school to college, helps with basic college requirements, and serves to motivate students toward the successful completion of their post-secondary education.

Career Services Center
This service is provided for students by the College to offer information about careers, to assist in securing employment during summers and after graduation, and to assist in gaining entry into graduate and professional schools.

Service Learning Program
In keeping with the College’s motto of “Enter to learn; Depart to serve,” the Service Learning Program offers students the opportunity to transfer content knowledge from academic courses to practical application through related community service. Students provide meaningful service to various agencies throughout Sumter County at the same time that they are satisfying course objectives, thereby preparing to serve their communities and the larger society after graduation.

Summer School
Morris College conducts a Summer School consisting of two four-week sessions, and students may earn up to seven credit hours each session. Summer School is designed primarily to help students who wish to make up needed credits, lighten their course load during the regular semester, or reduce the time required for graduation. Summer School also offers special benefits to in-service teachers, persons wishing to pursue academic work for personal advancement, and recent high school graduates who desire an early start in college.

Entering first-time students must apply to the Office of Admissions and Records, and admission to the summer school is determined on the same basis as admission to the fall or spring semesters. Transient students may be admitted by letter of approval from their respective schools.
For details about the summer session, see the current *Morris College Summer School Bulletin*.

**Learning Resources Center**

The Richardson-Johnson Learning Resources Center, opened to the Morris College Community early in 1980, is a three-level, air-conditioned building with seating accommodations for 350 users.

On the first floor of the Learning Resources Center are the Cataloging Department, the Circulation Department, the Reference Department, administrative offices, and an archives room. The reading, conference, seminar, typing and private study rooms are located on the second floor, as are expanded facilities for art shows and book reviews. The third floor houses the Media Center which includes a film-lecture hall, academic computer books and related curriculum material representing subject areas and grade levels taught in the public schools of South Carolina. Non-cataloged educational material, videotapes, equipment, supplies and other learning aids are available. The College offers exceptionally fine computing facilities, and special efforts are made to help students acquire competitive skills in the use of computers and instructional technology.

**Information Technology Resources**

Recognizing the importance of computers in modern society, Morris College provides information technology resources so that every student is afforded the opportunity to acquire basic computer competencies. There are eight computer laboratories with Internet access to support instructional and research applications in the major academic areas. Typical applications include desktop publishing, statistics, database management, spreadsheet analysis, graphics, and communications. The College also provides wireless Internet access in the dormitories.

Morris College’s use of technology enhances student learning, is appropriate for meeting the objectives of its programs, and ensures that students have access to and training in the use of technology. Hours of operation for each laboratory are posted.

**Upward Bound**

Upward Bound is a federally funded pre-college program for high school students. It is designed to help low-income potentially first-generation college students successfully graduate from high school and pursue post-secondary education. Upward Bound is funded by the United States Department of Education (Title IV), and Morris College serves as the host institution. The program is funded to serve 65 local high school students.

The Morris College Upward Bound Program provides the following support services for its participants:

1. Individual and small group counseling
2. Classes in math, science, reading, English, foreign language, and computer literacy
3. Cultural enrichment activities
4. Educational materials and supplies
5. Academic, career, personal, and social counseling
6. Transportation
7. Six-weeks residence on campus
8. Visits to postsecondary institutions
9. Individualized tutoring
10. A small stipend

The program operates with centralized and decentralized sessions during the academic year. During the summer all participants reside on the campus for six (6) weeks. All centralized sessions are held on campus twice monthly on Saturdays.
ACADEMIC DIVISIONS AND PROGRAMS

THE DIVISION OF GENERAL STUDIES

The Division of General Studies at Morris College offers students, through its core curriculum of liberal arts courses, an opportunity to improve their skills and learn the content necessary for success in major courses. Furthermore, the Division of General Studies administers programs for first- and second-year students entering the college, and the Division provides an academic program and academic support services to meet the diverse needs of freshmen, sophomores and transfer students. The programs sponsored by this division are designed to promote relationships among faculty, advisors, and students in an effort to provide students with the collegiate environment necessary for academic success. Courses and programs offered by the Division of General Studies provide a rigorous academic foundation for students through success-oriented experiences which promote excellence, scholarship and retention. The Division also sponsors a variety of activities to enhance and display the talents of freshmen and sophomores. Each year the Division publishes The Bell Ringer, a literary magazine for freshmen, and Dear Bess, a literary magazine and newsletter for sophomores, and sponsors the Freshman Extravaganza, the Sophomore Parade of Stars, Scholars’ Bowl, and the Freshman Oratorical Contest.

DIVISION OBJECTIVES, LEARNING OUTCOMES, AND EXIT REQUIREMENTS

The primary goal of the Division of General Studies is to provide students with a solid foundation in the liberal arts. In order to achieve this goal, the Division has the following objectives:

1. To provide a stimulating success-oriented academic environment that will promote student retention.

2. To provide students a core curriculum of course work in oral and written communication, the humanities, mathematics, and the natural and social sciences.

3. To help students develop adequate competencies in reading, writing and mathematics.

4. To improve the students’ abilities to analyze, synthesize, and evaluate intellectual ideas and principles.

5. To ensure that students are placed in appropriate courses and follow a specific course of study.

6. To instruct the students in the fundamentals of computer literacy.

7. To provide strong academic support services through tutorials, supplemental instruction, advisement, and facilities for assisted learning in English, history, mathematics, reading, science and speech.
General Education Learning Outcomes

It is the aim of the Morris College General Education Curriculum to ensure that each student

1. Is empowered with the fundamentals of writing from basic level sentence structure through the composing of a multi-page research paper with accompanying skills that such a project would demand
2. Is offered a general appreciation of the various genres of literature, to include poetry, drama, and short stories as well as a specific appreciation for the literature of the African American
3. Is exposed to the major epochs and periods and events of world history in general and of African American history in particular, and to the geographical and diverse patterns of social interaction that help shape the planet
4. Is introduced to the elements of natural science in all its complexities and categories
5. Is exposed to the study of the mind and how it works and interacts both alone and with others
6. Is introduced to mathematical reasoning and the gathering and utilization of quantitative data
7. Is informed of the various ways to maintain good health
8. Is introduced to the history, religious texts, and doctrinal teachings of Christianity
9. Is exposed to art, music, and other forms of cultural expression
10. Is afforded the opportunity to be inculcated into college life
11. Is computer literate
12. Is introduced to appropriate and effective oral communication
13. Is empowered with basic proficiency in speaking, comprehending, reading, writing (the four basic language skills), and cultural awareness of a foreign language

In order for students to move from the Division of General studies to the major divisions, students must meet the following exit requirements:

1. Enroll in required courses in English, mathematics, and reading (if required) each semester until these courses are satisfactorily completed.
2. Receive a grade of “C” or better in all developmental courses and in ENG 103, ENG 104, and MAT 103.
3. Adhere to prerequisites for specified courses.
4. Receive approval for all schedule and program changes from faculty advisors.
5. Attend a meeting with General Studies advisor and prospective major advisors prior to completion of General Education requirements.
Upon completion of all General Education requirements, student files are transferred to the major divisions. Students wishing to enter the Teacher Education Program must have a 2.5 grade point average and must have passed all parts (reading, writing, and mathematics) of the Praxis I Examination.

PLACEMENT TESTING AND DEVELOPMENTAL STUDIES

Students who plan to enroll at Morris College must take the ASSET placement examination which tests skills in English, mathematics and reading. Based on the results of the tests, students may be placed in developmental courses. They must receive a grade of “C” or above in each developmental course in order to proceed to the next developmental or general education course in the sequence. Credit for developmental courses does not count toward graduation or the 15 hours required for academic honors. Developmental courses are as follows:

- DEG 101 Developmental English I
- DEG 102 Developmental English II
- DMA 101 Developmental Mathematics I
- DMA 102 Developmental Mathematics II
- DRD 101 Developmental Reading I
- DRD 102 Developmental Reading II

FOREIGN LANGUAGE

Students who have successfully completed two years of French or two years of Spanish in high school will be placed in the first intermediate French course or the first intermediate Spanish course. Students who have less than two years of high school French or Spanish have the option of taking a standardized placement examination in the appropriate language. If they do not wish to take the placement examination, they will be placed in the first elementary French course or the first elementary Spanish course. Elementary language courses may be used as electives.
ACADEMIC PROBATION

Students who are admitted on academic probation may not enroll in more than 13 credit hours during each of the first two semesters of enrollment. The students and their parents must sign a contract which stipulates adherence to a structured program of study, scheduled tutorial sessions and regular class attendance. Each student’s progress will be monitored.

ACADEMIC ADVISEMENT

An interdisciplinary faculty provide academic advising to students in the Division. Each advisor is assigned a number of advisees who receive assistance in registering in appropriate general education courses and whose academic progress is monitored to ensure completion of general education requirements prior to exiting the Division of General Studies.

BRAWLEY-STARKS ACADEMIC SUCCESS CENTER

The Brawley-Starks Academic Success Center offers students access to computer workstations and educational software programs geared toward improving their skills in English, mathematics, biology, reading, history and speech. The Academic Success Center provides test preparation for standardized instruments including the GRE, GMAT, and LSAT, and the Center is available to Learners’ Assistance Program faculty and students as a setting for tutorial/instructional sessions. This facility is available to all students.

LEARNERS’ ASSISTANCE PROGRAM

The Learners’ Assistance Program (LAP) is an activity of the federally funded Title III program. LAP supports the Division of General Studies in its effort to ensure the academic success and retention of freshmen and sophomores. Select faculty tutor students one-on-one and in small groups in the areas of English, mathematics, biology, reading, history and speech. LAP faculty make use of up-to-date materials and technology in order to provide students with the best tutorial services available. Students in need of tutoring are encouraged to attend sessions each week, and tutorial services are available Monday through Friday in the morning, afternoon and some evenings.

HONORS PROGRAM

The Division of General Studies houses the Morris College Honors Program. This program provides an environment conducive to intellectual stimulation and growth through honors seminars and cocurricular experiences. Consistent with the institution’s goal of promoting the intellectual and personal growth of all students, the Honors Program is designed to encourage leadership, to promote critical thinking, and to meet the needs of scholars who are academically capable, intellectually curious, and highly motivated. The program is implemented through special Honors seminars and other projects and activities coordinated by the program
director. HON 310, HON 320, HON 410, and HON 420 are required for a student to graduate as a member of the Honors Program.

GENERAL EDUCATION CURRICULUM EXHIBITS
The General Education Curriculum Exhibits on the following page are generic in nature, and actual courses taken during the freshman and sophomore years may vary slightly from major to major. The actual courses to be taken are determined during academic advisement.

THE DIVISION OF BUSINESS ADMINISTRATION

Students completing the course requirements for majors offered by the Division will earn a Bachelor of Science degree with a major in Business Administration or Organizational Management. The mission of the Division of Business Administration is the development of individual abilities and the development of marketable skills necessary to secure employment in business, industry, government, and other selected areas. The Division is aware of society’s need for persons in responsible positions to display professional, moral, and ethical behavior. Thus, the Division endeavors to provide competent instruction, leadership, and guidance toward these ends.

PROGRAM REQUIREMENTS

Bachelor of Science Degree with a Major in Business Administration*

In addition to the 61 hours of General Education requirements, all business students complete 45 hours in the Business Administration major, six hours of Economics, one hour of Junior Seminar and 15 hours of electives.

National Nuclear Security Administration (NNSA) Program

The NNSA program is coordinated jointly between the Division of Business Administration and the Division of Natural Sciences and Mathematics. The Program prepares students for entry-level administrative positions within the NNSA organization. To qualify as a candidate for the program, students must meet the following requirements:

• be an entering freshman or a rising junior;
• have a 3.25 GPA to enter and maintain a minimum 3.00 GPA to remain in the program;
• be willing to participate in internship, assistantship, and lab coop programs and summer employment opportunities offered by the NNSA; and
• have a strong desire to pursue a career in nuclear security and safety.

Along with meeting the requirements for their majors, qualified students admitted into the NNSA program complete an appropriate NNSA minor. Business Administration participants must complete the minor in Environmental Science, and Natural Sciences and Mathematics majors must complete the minor in Business Information Technology.

Bachelor of Science Degree with a Major in Organizational Management*

In addition to the 60 hours of credits transferred, all students in the Organizational Management major complete 50 hours of organizational management core requirements. Students may select a minimum of 13 hours of additional courses to complete degree requirements.

Student Responsibility

Students are responsible for knowing and completing their major

*The degree programs in Business Administration and Organizational Management are accredited by the Accreditation Council for Business Schools and Programs.
requirements as stated in this catalog. Advisors will provide every possible assistance to enable students to complete their requirements.

**The Objectives of the Business Administration major are as follows:**

1. To provide experiences that will assist students in developing an understanding of the free enterprise system.
2. To assist students in developing an understanding of business functions, operations, technology, and interrelationships.
3. To provide experiences that will enable students to become intelligent consumers and to execute their personal business transactions.
4. To develop in students leadership traits that will assist them in assuming responsible positions in community betterment, business, industry, government, and related areas.
5. To reinforce and encourage continual development of communication and decision-making skills.
6. To provide opportunities for career awareness and explorations in the areas of business, industry, government, and related areas.
7. To promote continuing education in business.

**Business Administration Program Learning Objectives**

Graduates successfully completing the Business Administration degree program will

1. Demonstrate and apply significant facts, concepts, theories, methodologies, and knowledge in the core business areas.
2. Explain the business and management concepts from a global perspective.
3. Communicate a readable sequence of rational ideas effectively, both orally (presentation building and delivery) and in writing (reports, e-mails, and business correspondence).
4. Employ various methods and processes from diverse areas of business to formulate analytical/quantitative solutions to business problems.
5. Apply critical thinking skills to formulate solutions to problematic scenarios and cases involving diverse areas of business.
6. Identify the appropriate behavioral responses to exhibit in personal, social, and professional environments to promote ethical decision making and corporate social responsibility.
7. Produce business reports that incorporate critiqued documentation, database analysis, and statistically sound research methodologies.
8. Establish and improve personal and professional leadership and team-building skills.
9. Explain how contemporary events and issues are affecting the world of business.

The Objectives of the Organizational Management Major are as follows:

1. To provide the non-traditional student with a central body of knowledge, experience, and attitude that is unique to the discipline of management.

2. To develop non-traditional students’ research skills as a means for analyzing, defining, synthesizing, and solving organizational problems.

3. To promote cohort or group style learning as a vehicle for academic exchange, professional networking, and peer support.

4. To reinforce personal and individual capabilities to build leadership skills and technological skills.

5. To develop non-traditional students’ oral and written communication skills for a variety of professional settings.

6. To promote lifelong learning and professional development in management and business.

7. To enhance individual capabilities for critical thinking and independent learning.

Learning Outcomes for Organizational Management

Upon completion of the Organizational Management degree program, graduates will

1. Apply management principles, concepts, theories, and critical thinking skills to work-related situations.

2. Understand management processes and leadership styles that influence organizational effectiveness.

3. Evaluate and analyze financial statements and make managerial decisions based on the use of accounting information.

5. Compare goals, objectives, strategies, global opportunities, and ethical issues related to wholesaling, retailing, and direct marketing.

6. Demonstrate effective oral, written, and nonverbal communication skills.

7. Conduct empirical research synthesizing key business concepts, utilizing quantitative and/or qualitative analysis, and identifying solutions to business problems.

8. Apply ethical principles and approaches in analyzing domestic and global issues, problems, and case studies.

9. Demonstrate proficient technology usage to enhance critical thinking and professional development skills.

10. Utilize a variety of information resources to explain how contemporary events and issues are affecting the global economy and the world of business.
REQUIREMENTS FOR THE BACHELOR OF SCIENCE DEGREE
WITH A MAJOR IN ORGANIZATIONAL MANAGEMENT

The Organizational Management major is a unique alternative to the traditional degree program. It offers working adults who are at least 25 years old the opportunity to earn a baccalaureate degree in as short a time as eighteen months. (The actual time will vary according to the number of credits by discipline transferred.) Classes meet for four hours, and many classes meet only one evening each week.

Minimum credits transferred from previous college work ......................... 60

Transfer credits should include:

- English Grammar and Composition ........................................ 3
- Literature .............................................................................. 3
- Speech ................................................................................. 3
- Natural Science ..................................................................... 4
- College Algebra .................................................................... 3

**†Courses must be taken concurrently.**
THE DIVISION OF EDUCATION

The Division of Education offers majors in Early Childhood Education, Elementary Education, Health Science, and Recreation Administration and secondary education specializations in biology, mathematics, English, and social studies. The Division also administers three special programs: (1) the Army Reserve Officer Training Corps (ROTC), which is a professional program designed to produce future officers for the United States Army; (2) the Cooperative Education program, which enables students to acquire work experience while they are still in College; and (3) the “Call Me Mister” program, which seeks to attract more minorities as teachers in the state’s public elementary schools. The Division operates within the framework of the institution’s philosophy of preparing students for professional service in the public schools, in health science and recreation programs, and in the armed forces.

Overall Design of the Teacher Education Unit

The Teacher Education Unit is administered within the Division of Education. The unit has six programs: Early Childhood Education, Elementary Education, Biology/Secondary Education, English/Secondary Education, Mathematics/Secondary Education, and Social Studies/Secondary Education. Candidates preparing to teach on the secondary level are majors in their chosen disciplines. They must, however, enroll in the Teacher Education Program. The program of instruction for all teacher education majors consists of four main segments: general education, professional education, the specialized requirements of the major area, and electives.

The Candidate Proficiencies

The Teacher Education Unit has identified four (4) candidate outcomes (Competent, Critical Thinker, Reflective Practitioner, and Caring) and twenty (20) proficiencies that must be demonstrated by all candidates. These proficiencies are aligned with the institutional standards, the unit’s conceptual framework, the state’s 10 ADEPT (Assisting, Developing, and Evaluating Professional Teaching) Performance Standards; the National Council for the Accreditation of Teacher Education (NCATE) standards, as well as the standards of specialized associations for which the unit has programs: National Council for the Social Studies (NCSS); National Council of Teachers of English (NCTE); National Council of Teachers of Mathematics (NCTM); the National Science Teachers Association (NSTA); Association for Childhood Education International (ACEI); and the National Association for the Education of Young Children (NAEYC). The alignment includes the principles of the Interstate New Teacher Assessment and Support Consortium (INTASC).

Acquisition of these proficiencies will ensure that all unit completers will possess the knowledge, skills, and dispositions required to become teachers who are Competent, Critical Thinkers, Reflective Practitioners, and Caring. Moreover, the candidates will be prepared to facilitate learning that will have a positive impact on P-12 student achievement. The proficiencies are aligned with the unit’s conceptual framework and appear below.
Teachers as Competent Educators
1. understand the major concepts and processes of inquiry central to the subject area(s) of preparation;
2. understand verbal, nonverbal, and media/technology strategies for effective communication with all students;
3. understand how diverse cultural, ethnic, socio-economic, gender, and exceptionality issues affect student learning;
4. understand the relationship between human development and teaching and learning;
5. understand the interrelationship of curriculum, instruction, and assessment within and across the disciplines;
6. understand the concepts related to technology;
7. understand the principles of effective classroom management to promote positive social, democratic, and mutually respectful behavior and purposeful learning; and
8. understand the philosophical, historical, and sociological foundations of education and implications for teaching in a diverse society.

Teachers as Critical Thinkers
9. research and use theories, current information, resources, best practices, and technologies to design and facilitate effective learning environments to enhance teaching and learning;
10. select and use a variety of instructional strategies to enhance teaching and learning;
11. plan and deliver culturally responsive lessons through differentiated instruction, by monitoring student learning and adjusting practice based on knowledge of student interests, abilities, skills, experiences, and peer relationships;
12. use effectively appropriate classroom management strategies that promote student learning; and
13. select, design, administer, analyze, and interpret a variety of appropriate assessments, and use the results to enhance teaching and learning.

Teachers as Reflective Practitioners
14. use critical and systematic reflection on effects of discussions and actions on others to improve teaching practices;
15. engage in inquiry, reflection, and self-assessment to improve practice; and
16. value reflection as a part of professional growth.

Teachers as Caring Educators
17. respect and value all students and their diverse talents and abilities;
18. demonstrate sensitivity to community and cultural norms;
19. establish and maintain high expectations for all students; and
20. value collaborative efforts to enhance practice and problem solving.

Morris College has implemented grade span designations which are
approved by the South Carolina State Board of Education in the preparation of teaching majors. The grade span designations are as follows:

- Early Childhood Pre-Kindergarten-Grade 3
- Elementary Education Grades 2-6
- Secondary Grades 9-12

**Early Childhood Education Major**

Students interested in teaching pre-kindergarten through third grade should declare a major in Early Childhood Education. Early Childhood Education majors should complete the general education program, major subject matter requirements, professional education courses and all requirements for certification. The objectives of the Early Childhood Education major are designed to produce effective teachers who are able

1. to develop an understanding of and an appreciation for both the function and the beauty of language and how it develops.
2. to build the foundations of mathematics understanding to include counting, recognition of numerals, problem solving, and reasoning, using manipulatives and technology.
3. to develop an understanding of and an appreciation for the various areas of science, to include life science, earth science and physical science and to encourage a spirit of inquiry.
4. to help students understand who they are and how they relate to family, school, community, and the larger society; how the past, the present, and the future are interconnected; and how cultures are similar and different.
5. to develop an understanding of the importance of personal hygiene, health, and physical fitness and to promote good health habits and appropriate physical activity.
6. to build a foundation for understanding, appreciating, and participating in the visual and performing arts.

**Elementary Education Major**

Students who plan to become elementary teachers should declare a major in Elementary Education and must complete the general education program, professional courses, and additional subject matter preparation as required for certification.

The elementary education program places emphasis on the development of skills and their application to the content area in programs for grades two through six. The objectives of the Elementary Education major are as follows:

1. To develop an understanding of the influence of communication on individual development, and an understanding of the processes involved in learning to listen, speak, read, and write the English language clearly and effectively.
2. To develop an understanding of the language of mathematics, mathematical skills, and problem solving skills.
3. To provide an understanding of the scope, content, skills and methods of social studies.
4. To provide an appropriate program for science, health, physical and safety needs of children.
5. To provide study in the fine arts so that the teacher may develop the skills needed to work creatively with children in the aesthetic experiences in music, visual arts, dramatics and creative dance.

6. To provide for the study of human growth of young pupils in the elementary grades with diverse backgrounds.

7. To provide for study of principles of learning and the learning environment for elementary children.

Learning Outcomes for Early Childhood and Elementary Education

Upon completion of the Elementary Education or the Early Childhood Education degree program, graduates will

1. Recognize differences in the ways students learn and perform

2. Identify areas of exceptionality in students’ learning

3. Be aware of the legislation and institutional responsibilities related to exceptional students

4. Develop approaches for accommodating various learning styles, intelligences, or exceptionalities

5. Employ the process of second-language acquisition and strategies to support the learning of students for whom English is not a first language

6. Understand the influence of individual experiences, talents, and prior learning, as well as language, culture, family, and community values, on students’ learning

7. Identify theoretical foundations of human motivation and behavior

8. Determine how knowledge of human motivation and behavior should influence strategies for organizing and supporting individual and group work in the classroom

9. Communicate theoretical foundations about how learning occurs: how students construct knowledge, acquire skills, and develop habits of mind

10. Explain human development in the physical, social, emotional, moral, speech/language, and cognitive domains

11. Recognize factors and situations that are likely to promote or diminish student’s motivation to learn, and how to help students to become self-motivated

12. Plan and implement principles of effective classroom management and strategies to promote positive relationships, cooperation, and purposeful learning

13. Demonstrate knowledge of major cognitive processes associated with student learning

14. Apply major categories, advantages, and appropriate uses of instructional strategies

15. Extend principles, techniques, and methods associated with major instructional strategies to the classroom

16. Cultivate methods for enhancing student learning through the use of a variety of resources and materials

17. Utilize techniques for planning instruction, including addressing curriculum goals, selecting content topics, incorporating learning theory,
subject matter, curriculum development, and student development and interests

19. Elaborate on techniques for creating effective bridges between curriculum goals and students’ experiences
20. Acquire knowledge of types of assessments
21. Acquire knowledge of characteristics of assessments
22. Acquire knowledge of scoring assessments
23. Acquire knowledge of uses of assessments
24. Acquire knowledge of understanding of measurement theory and assessment-related issues
25. Acquire knowledge of interpreting and communicating results of assessments
26. Utilize basic, effective verbal and nonverbal communication techniques
27. Understand the effect of cultural and gender differences on communications in the classroom
28. Demonstrate the types of communications and interactions that can stimulate discussion in different ways for particular purposes
29. Be aware of the types of resources available for professional development and learning
30. Demonstrate the ability to read, understand, and apply articles and books about current research, views, ideas, and debates regarding best teaching practices
31. Practice ongoing personal reflection on teaching and learning practices as a basis for making professional decisions
32. Identify the role of the school as a resource to the larger community
33. Comprehend the factors in the students’ environment outside of school (family circumstances, community environments, health and economic conditions) that may influence students’ life and learning
34. Develop and utilize active partnerships among teachers, parents/guardians, and leaders in the community to support the educational process
35. Have knowledge of major laws related to students’ rights and teacher responsibilities

Criteria for Admission to the Teacher Education Program

Pre-candidates who desire to enter the teaching profession are to take Praxis I during the freshman year. Application for formal admission to the Teacher Education Program is completed during the sophomore year. Criteria for formal admission to the Teacher Education Program appear below:

a. passing scores on all parts of Praxis I;
b. completion of sixty (60) hours of college credit;
c. a grade point average of 2.50 on a 4.0 scale;
d. completion of EDU 200: Introduction to Education, with a grade of “C" or better;
e. demonstrated personal and social fitness (as evidenced through the Office of Student Affairs);
f. demonstrated physical and mental wellness for the tasks to be performed (no evidence to the contrary);

g. a word-processed one-page essay explaining why you believe you will become an effective teacher, submitted two weeks before the Admissions-to-Teacher-Education Interview;

h. a word-processed philosophy of education, written in third person, submitted two weeks before the Admission-to-Teacher-Education Interview;

i. submission of faculty recommendation forms from two faculty members: one (1) from general studies and one (1) from the Teacher Education Unit;

j. presentation of the pre-professional portfolio, receive an “acceptable” rating on the portfolio from the Teacher Education Review Committee; submit the pre-professional portfolio to the Director of Teacher Education two weeks before the scheduled interview.

k. completion of a successful Admission-to-Teacher-Education Interview, a rating of “acceptable” with the Teacher Education Review Committee; and

l. a letter of approval from the Director of Teacher Education.

Pre-candidates capable of sound scholarship and possessing the characteristics necessary to work well with others are encouraged to apply for admission to the Teacher Education Program. All interested pre-candidates are welcome to apply for admission to this program, but only those candidates who maintain satisfactory performance will be permitted to remain in it.

Membership and Participation in a Professional Organization

Prospective teachers are required to become active members of a recognized professional association at the local, state, or national level. The Association for Childhood Education International (ACEI), the Student-South Carolina Education Association (The S-SCEA), and the Palmetto State Teachers Association (PSTA), the National Council of Social Studies (NCSS), the National Council for Teachers of English (NCTE), the South Carolina Science Council (SC2), and the National Association for the Education of Young Children (NAEYC) are examples of such associations. Teacher education students enrolled in major and professional education courses that require a field experience must join a professional organization. The fee to join a professional organization becomes a part of the student’s tuition and fees.

FIELD EXPERIENCES

To ensure that candidates have opportunities for practical experiences as they develop into teachers who are competent, critical thinkers, reflective practitioners, and caring, the teacher education program requires a minimum of 100 hours of field experiences prior to internship. Candidates are to complete their pre-directed teaching practicum hours during the following four field experiences: Type I Practicum: Observation (20 hours); Type II Practicum: Service Learning (10 hours); Type III Practicum: Strategies and Activities (20 hours); and Type IV Practicum: Methods and Materials (20 hours).
The directed teaching internship is the Type V Practicum: Observation and Directed Teaching Internship. Candidates spend a minimum of 480 hours in a public classroom setting under the supervision of a cooperating teacher. Transportation for all field experiences is the responsibility of the teacher education pre-candidate.

Criteria for Admission to the Observation and Directed Teaching Internship
Preparation in the Type V Practicum: Observation and Directed Teaching Internship occurs after candidates have completed all their course requirements with a grade point average of 2.50 or better, have passed all of the Praxis II Examinations to include Principles of Learning and Teaching, and have received at least an “acceptable” rating from the Teacher Education Review Committee on their pre-directed teaching portfolio and interview.

The directed teaching internship is the part of the pre-service program, which bridges the gap between educational theory and classroom practice. During the directed teaching internship, the candidates complete a minimum of 480 hours in a classroom with a cooperating teacher. The candidates plan and supervise typical classroom activities under the close guidance of the cooperating teacher and a college supervisor. The candidates will learn more about the expectations during student teaching from the College Supervisor for Student Teachers and the Observation and Directed Teaching Handbook.

Acceptable Criminal Background Check
The South Carolina State Board of Education, as authorized by State law, requires that a teacher education candidate have an acceptable criminal background check before he or she is allowed to student teach and to receive the initial teaching certificate. If there is a delay in student teaching and the candidate does not complete the initial certification process within eighteen months from the original date of the fingerprinting application, the FBI process must be repeated.

Procedures for Obtaining a Criminal Background Check
Processing centers have been established in major population areas throughout the state to do a live scan of applicant fingerprints and receive identifying information for electronic submission to SLED for processing. All processing will be performed by SLED personnel after submission by L-1 staff; no criminal history information will be available to L-1. SLED personnel will forward the fingerprints to the FBI, which will cause a criminal background report to be sent to the Office of Educator Certification to be used solely for the determination of eligibility for educator certification. Turn around time for the criminal background report is anticipated to be one to two weeks. There is a processing fee.

A candidate expecting to student teach during the fall semester must submit the paperwork for fingerprints by February 15 prior to the semester of student teaching. A candidate expecting to student teach during the spring semester of the forthcoming year must complete Items A and B by June 15 of the prior year.
Complete online registration to schedule an appointment with L-1 Enrollment Services by registering online at www.L1enrollment.com. Applicants without internet access may register by calling the L-1 toll-free number, 866-254-2366. A processing form is provided outlining the required information that the candidate must provide.

In addition to completing the fingerprinting process, the candidate must complete the pre-student teaching application form (secure the form from the South Carolina Department of Education at www.scteachers.org) and submit it along with the $95 non-refundable application fee to the South Carolina Department of Education, Office of Educator Certification; 3700 Forest Drive, Suite 500; Columbia, SC 29204. Before mailing the pre-student teaching application and fee, candidates must secure the signature of the Director of Teacher Education.

Requirements for a Recommendation for Certification

1. A candidate must maintain a cumulative 2.5 grade point average.
2. A candidate must achieve a grade of “C” or better in each professional education course.
3. A candidate must achieve a grade of “C” or better in each course offered to meet graduation requirements in the major field.
4. A candidate must pass three Assisting, Developing, and Evaluating Professional Teaching (ADEPT) observations.
5. A candidate must apply to the South Carolina Department of Education for certification.
6. No application for certification can be sent without passing scores on:
   a. Praxis I
   b. Praxis II *(Morris College teacher education graduates have 100 percent pass rate on the Praxis II Examination. Title II requires a minimum pass rate of 80 percent.)*
   c. ADEPT
   d. Principles of Learning and Teaching (PLT)
7. The candidate must have received an acceptable criminal background check from the South Carolina State Law Enforcement Agency (SLED). This criminal check is conducted prior to the Observation and Directed Teaching Internship.
8. Most current transcript must be included.
9. Proper fee must be enclosed.

Health Science Major

The Health Science degree program is designed for students interested in seeking careers that provide vital assistance to individuals and communities in a variety of settings. Health Science graduates develop, implement, and evaluate health programs; administer health-related services; or promote hazard-free environments. Career opportunities also include conducting research, teaching, consulting or working in the growing field of substance abuse prevention and treatment. Health Science graduates can pursue graduate degree programs in public health, medicine or other health related fields.
Most courses in the Health Science major incorporate the seven Areas of Responsibility for a Health Educator as delineated by the National Commission for Health Education Credentialing, Inc. (NCHEC), and are identified (*) in the list of required courses. Completion of a minimum of twenty-five (25) credit hours of these health science courses prepares the students to sit for Certified Health Education Specialist (CHES) certification examinations. Students with a minimum of a 2.0 and approval by the faculty of the Division of Education must take an internship in health science in order to attain professional hands-on experience before entering the job market. The internship will consist of 120 clock hours of activity under the supervision of a professional in the field and the college internship supervisor. Health Science majors on internship must join a professional organization (The S-SCEA or a health science association with liability coverage). The fee to join a professional organization becomes a part of the student's tuition and fees.

The goal of the Health Science major is tailored to reflect the goals of Healthy People 2010, a national health promotion and disease prevention initiative, which are as follows:

1. To increase the span of healthy years for all Americans.
2. To reduce health disparities among Americans

In order to achieve this goal, the Health Science major has the following objectives:

1. To develop an understanding of the influence of individual and community's lifestyle chronic and communicable development
2. To develop and understand the importance of preventive health care, health education, and health promotion interventions
3. To reinforce and encourage communication and decision-making skills in health promotion interventions
4. To improve opportunity for career enhancement through NCHEC credentialing and certification
5. To improve student's abilities to plan, implement, evaluate health education programs
6. To help students develop adequate competencies in assessing individual, and community needs for health education
7. To develop in students leadership potentials required of a resource person in health education
8. To provide opportunity for students to acquire a hands-on experience through a structured internship in the health science field.

**Learning Outcomes for Health Science**

Upon completion of the Health Science degree programs, graduates will

1. Assess individual and community needs for health education
2. Plan health education strategies, interventions, and programs
3. Implement health education strategies, interventions, and programs
4. Evaluate the effectiveness of health education programs
5. Administer health education intervention programs
6. Serve as a resource person in Health Education
7. Communicate and advocate health, health education needs, and health concerns and resources.

**Recreation Administration Major**

Students who desire to work as leisure specialists in a variety of settings such as parks, camps, cruise ships, playgrounds, rehabilitation centers, condominium complexes, rest homes, and recreation centers should enroll in the recreation administration major. Students with a minimum 2.0 grade point average and approval by the faculty of the Division of Education must take an internship in Recreation Administration. The internship will consist of 120 clock hours over a period of ten weeks.

Recreation majors on internship must join a professional organization (The S-SCEA or a recreation association with liability coverage). The fee to join a professional organization becomes a part of the student’s tuition and fees. The objectives for the Recreation Administration major are as follows:

1. Enable students to apply an understanding of the role of recreation in a changing society.
2. Develop a measurable understanding of community needs and interests in recreation.
3. Arrange experiences to develop an understanding of the skills needed in the field.
4. Prepare the graduate to provide leadership by encouraging a student to have knowledge of a wide variety of activities within the overall program.
5. Encourage graduates to motivate self and others to recognize the relationship of recreation and leisure to overall health.
6. Demonstrate an ability to be a professional in the recreation field.
7. Support and promote scholarly research and graduate study.

**Learning Outcomes for Recreation Administration**

Upon completion of the Recreation Administration degree program, graduates will

1. Comprehend major concepts, principles, and theories associated with recreation administration.
2. Demonstrate clear competence in written and verbal communication and presentation.
3. Develop basic programming skills in general recreation administration in the following areas: recreation for special populations, programming for recreation, camp counseling and Management, and safety and legal issues in sports and recreation.
4. Demonstrate professional and ethical behavior in recreational administration.
5. Demonstrate application and integration of theoretical knowledge through 120 hours of internship.

REQUIREMENTS FOR A MINOR IN HEALTH SCIENCE

Students majoring in other disciplines who wish to minor in Health Science are required to complete the following courses:

HSC 301 Introduction to Nutrition 3
HSC 303 Stress Management 3
HSC 304 Family Life/Sex Education 3
HSC 320 Foundations of Health Education 3
HSC 427 Community Development for Health 3
HSC 450 Environmental Health and Safety 3

TOTAL 18

A student who minors in Health Science is encouraged to enroll in seven additional credit hours in Health Science, one of which must be the one-credit hour Research Methods course. When added to the eighteen credit hours listed above, these seven credit hours will allow the student to complete the minimum 25 credit hours required to take the NCHEC examination.

*Courses that address the NCHEC Areas of Responsibility

ARMY RESERVE OFFICER TRAINING CORPS (ROTC) PROGRAMS

Military Science

Army ROTC is a coeducational program dedicated to producing college-educated men and women to serve as Army Officers in positions requiring a sense of responsibility and managerial skills. The program embodies the “citizen-soldier” concept, whereby individuals may serve most of their military obligation in reserve in their home community.

Objective

Army ROTC is a professional program designed to produce future officers through

1) developing a sense of responsibility and leadership skills,
2) providing professional military education, and
3) providing commissioned officers for the United States Army.

General Information

Army ROTC requires two to four years to complete, depending on student qualifications. This time is normally broken into a two-year no-obligation Basic Program and a two-year contractual Advanced Program. Students with prior active duty service, Junior ROTC or National Guard or United States Army Reserve service may qualify for direct placement in the Advanced Program. At the beginning of their junior year, students with at least two years remaining before graduation can also qualify for the Advanced Program by attending a five-week Basic Camp offered each summer at Fort Knox, Kentucky. All ROTC students participate in a regular program of physical fitness and field training.

PROFESSIONAL MILITARY SCIENCE PROGRAM

The United States Army Reserve Officers Training Corps Professional Military Education (PME) Program exists to enhance the career development and performance of cadets as future Army officers.

The Professional Military Education guidelines for Army ROTC cadets are as follows:

1. All cadets must successfully complete a course in each of the following areas prior to commissioning:
   a. written communications
   b. military history
   c. computer literacy
2. All cadets are encouraged to take a course from each of the following two areas prior to commissioning:
   a. management
   b. national security studies

Students will meet with the Professor of Military Science/Class Advisor to select these courses.
The Scholarship Program
The Army ROTC Scholarship Program awards four-, three-, and two-year scholarships to eligible students on a competitive basis. The ROTC Office accepts applications for two- and three-year ROTC scholarships throughout the year. Students do not have to be enrolled in ROTC to apply for two- and three-year scholarships.

Each scholarship pays for full tuition and provides $450 for books, and an allowance for laboratory fees and other educational expenses. The student also receives $200 per month for up to ten months of each school year and half the base pay of a second lieutenant while attending the five-week Advanced Camp at Fort Lewis, Washington, after the junior year.

Simultaneous Membership Program (SMP)
The Simultaneous Membership Program allows an individual to be both a member of the Army ROTC and the Army National Guard (ARNG) or the United States Army Reserve (USAR). The student may then receive entitlements from both the ROTC and the ARNG or USAR, including the New GI Bill for Reservists.

The SMP is a voluntary program that requires acceptance by the ARNG or USAR. If a student is accepted into the SMP by the ARNG/USAR, he/she will become an officer trainee and be paid as a sergeant (E5), while performing duties commensurate with the rank of second lieutenant.

SMP participation is limited to students in the ROTC Advanced Program. ROTC entitlements equal $2,500 total during the Advanced Program and approximately $1,900 a year from the ARNG or USAR.

COOPERATIVE EDUCATION PROGRAM
The Cooperative Education Program provides career guidance to students and relates academic study to practical work situations by coordinating full-time college studies with employment in business, industry, government, or service organizations.

Students spend a portion of their time in the classroom and another portion in off-campus positions usually related to their major course of study. This program enables students to “earn while they learn” and offers them an opportunity to gain experience in the world of work.

Types of Co-op Work Assignments

Alternating Plan
1. Students are matched to Co-op positions according to their academic majors. Students work full-time or 40 hours per week in alternating semesters.

Parallel Plan
2. The student works twenty hours or less per week (half-day working and half-day attending classes) based on the expressed needs of the employer.

One Semester or Summer Plan
3. The student works on a Co-op work assignment for one full semester or one summer period to complete credits needed for his/her academic studies.
Criteria for Student Participation in Co-op Ed

1. Completion of at least one semester of full-time study.
2. Acceptable academic standing with at least a 2.0 grade point average.
3. Completion of a Co-op application and/or agency application.
4. Authorization to acquire a copy of student’s transcript.

Policies Governing Co-op Students

1. All Co-op students must be officially registered during the semester of their work experience.
2. For this Co-op experience students may receive up to 6 credit hours for summer Co-op work and up to 6 credit hours for semester Co-op work. No more than a total of 15 hours of Co-op work experience credit may be applied towards graduation requirements.
3. Full-time students will be permitted to enroll for no more than three credit hours (course work) in addition to the Co-op hours, provided they have a cumulative grade point average of not less than 3.0. Students enrolled in the Co-op Ed program may not take any additional credit hours (course work) during the summer session.
4. Veterans are ineligible to receive financial compensation from the Veterans Administration while enrolled in the Cooperative Education Program.
5. Students must have completed Cooperative Education 199 (Seminar in Cooperative Education) before enrolling in the Cooperative Education work experience.
6. A fee of $315.00 per credit hour (of Co-op Education) will be charged to each student. Eligible students may receive financial assistance to defray registration fee.
7. At the end of each work experience, each Co-op student is required to submit a written report to the Director of the Co-op Program and the Chairman of his Division before any credit is assigned. This “Cooperative Education Experience” credit will be applied toward fulfilling general elective requirements. For details about this credit, see courses numbered 298, 299, 398, 399, 498, and 499 listed under “Description of Courses, Co-op Education.”
8. Based on the performance evaluation by the work supervisor, the written report and the nature of the work experience, the Director and the Division Chairperson will file a final grade report for each student with the Office of Admissions and Records and the Academic Dean.

“CALL ME MISTER” PROGRAM

The “Call Me Mister” Program is a national initiative designed to increase the pool of available teachers from diverse cultures and backgrounds to serve in economically disadvantaged and educationally at-risk communities. Applicants must first meet the admission requirements of Morris College before seeking admission to the “Call Me Mister” program. Program activities are designed to allow “Misters” to work and study together; to at-
tend motivational sessions; and to discuss topics of mutual interest. The amount of tuition and other monetary support for participants in the “Call Me Mister” Program varies from year to year, depending on the funds available for that particular year.

THE DIVISION OF NATURAL SCIENCES AND MATHEMATICS

Objectives
The Division of Natural Sciences and Mathematics offers majors in biology and mathematics. The chief objectives of the Division are as follows:

1. To offer basic courses which will help prepare students to become professional biologists and mathematicians and to encourage additional preparation in physics, chemistry, and computer science.
2. To prepare students to become teachers of biology and mathematics.
3. To prepare students to study engineering, medicine, dentistry, nursing, pharmacy, and other health-related areas.
4. To provide the general education course requirements in the natural sciences and mathematics.
5. To develop and encourage appreciation, understanding, and skillful application of science to everyday life.
6. To nurture and encourage the mastery of logical reasoning necessary for the analytical approach utilized in the scientific method of investigation.
7. To provide opportunities for instruction-related research, pure and applied, by faculty and students.

Students seeking a major in biology must complete a minimum of 35 hours of major courses, 34 hours of other requirements, 6 hours of electives, and 55 hours of general education. They may also select a minor in another discipline. Students seeking a major in mathematics must complete a minimum of 42 hours of major courses, 12 hours of other requirements, 14 hours of electives, and 61 hours of general education. They may also select a minor in another discipline. Students who are interested in teaching high school biology or high school mathematics must complete 40 hours of professional education in addition to the other requirements.

Students seeking minors in Biology, Environmental Science, or Mathematics must complete 20 hours in biology, 20 hours in environmental science, or 18 hours in mathematics respectively.

Students are responsible for completing the requirements as stated in this catalog. Advisors will provide every possible assistance to enable students to meet these requirements.
THE BIOLOGY AND BIOLOGY/SECONDARY EDUCATION MAJORS
THE BIOLOGY PROGRAM

Objectives
The Objectives of the Biology Program are as follows:

1. To present an integrated concept of life as manifested in animals, plants, and microorganisms. Such a concept reveals characteristics common to all these forms of life and accentuates their dependence on one another, directly or indirectly.

2. To demonstrate the interrelationships of living organisms with their abiotic environment.

3. To demonstrate that organization and coordination at different levels are so vital that any disruption of these processes may result in disturbance or even “death”.

4. To provoke thought and inquiry concerning the evolution and metamorphosis of living beings prior to acquiring their present form.

5. To provide the necessary background for advanced study and the preparation required for studying medicine, dentistry, nursing, or any other related health profession.

6. To study biology and other sciences in light of recent technological advances and recognize the impact of these at the human, ethical, and environmental levels.

7. To enable students to recognize the contributions of biologists from diverse cultures and different eras of human history.

8. To prepare interested students for research, governmental, and industrial-technological leadership roles.

Learning Outcomes for the Biology Program
Upon completion of the Biology degree program, graduates will

1. Summarize fundamental concepts in biology spanning the three domains of organisms

2. Analyze data and interpret them graphically

3. Interpret and solve problems in content and concept

4. Integrate laboratory methodology and technology

5. Demonstrate the relationship of the history and processes of science

6. Use scientific communication in discursive practices, writing and oral/poster presentations

7. Be prepared for graduate and professional careers, research, and governmental and industrial technological leadership roles
THE BIOLOGY/SECONDARY EDUCATION PROGRAM

Objectives
The objectives of the Biology/Secondary Education Program are as follows:

1. Present an integrated concept of life as manifested in animals, plants, and microorganisms. Such a concept reveals characteristics common to all these forms of life and accentuates their dependence on one another, directly or indirectly.

2. Demonstrate the interrelationships of living organisms with their abiotic environment.

3. Demonstrate that organization and coordination at different levels are so vital that any disruption of these processes may result in disturbance or even “death”.

4. Provoke thought and inquiry concerning the evolution and metamorphosis of living beings prior to acquiring their present form.

5. Study biology and other sciences in light of recent technological advances and recognize the impact of these at the human, ethical, and environmental levels.

6. Enable the candidate to recognize the contributions of biologists from diverse cultures and different eras of human history.

7. Prepare the candidate to teach biology at the secondary level by meeting the NCATE (NSTA) standards.

8. Make the candidate aware of new developments in research and technology and use them to enhance their future students’ learning and performance.

Learning Outcomes for the Biology/Secondary Education Program
Upon completion of the Biology/Secondary degree program, graduates will

1. Know fundamental concepts in biology spanning the three domains of organisms

2. Analyze data and interpret them graphically

3. Interpret and solve problems in content and concept

4. Integrate laboratory methodology and technology

5. Demonstrate the relationship of the history and processes of science

6. Use scientific communication in discursive practices, writing and oral/poster presentations

7. Be prepared for the PRAXIS II Examination

8. Be prepared to teach biology at the secondary school level by meeting the NCATE (NSTA) standards

*Pre-medical and pre-nursing students may take BIO 208: Human Physiology and Anatomy II in lieu of BIO 403: Human Physiology after completing BIO 207: Human Physiology and Anatomy I or BIO 200: Anatomy and Physiology for Health Sciences.

**Students who are planning to attend graduate school or to pursue a research career are advised to take MAT 201: Calculus I.
## REQUIREMENTS FOR THE BACHELOR OF SCIENCE DEGREE WITH A MAJOR IN BIOLOGY/SECONDARY EDUCATION

### General Education
- 55 credits

### Major Courses
- 24 credits
  - BIO 203 Introduction to Research Methods: 4 credits
  - BIO 204 General Botany: 4 credits
  - BIO 300 Cell and Molecular Biology: 4 credits
  - BIO 301 General Genetics: 4 credits
  - BIO 305 General Ecology: 4 credits
  - BIO 403 Human Physiology: 4 credits

### Other Required Courses
- 11 credits
  - HIS 304 American History I: 3 credits
  - HIS 305 American History II: 3 credits
  - JRS 300 Junior Seminar: 1 credit
  - MAT 104 Trigonometry: 3 credits
  - MAT 206 Introductory Probability and Statistics: 3 credits
  - SSC 100 Contemporary Affairs: 1 credit

### Professional Education Courses
- 40 credits
  - EDU 200 Introduction to Education: 3 credits
  - EDU 215 Human Development: 3 credits
  - EDU 220 Issues in Diversity: 1 credit
  - EDU 302 Educational Psychology: 3 credits
  - EDU 303 Principles and Philosophy of Education: 3 credits
  - EDU 304 Educational Tests/Measurements: 3 credits
  - EDU 305 Instructional Media: 3 credits
  - EDU 400 Methods of Teaching Reading: 3 credits
  - EDU 405 Educational Seminar: 3 credits
  - EDU 406 Methods of Teaching Natural Sciences in the Secondary School: 3 credits
  - EDU 411 Methods and Materials of Teaching in Secondary Schools: 3 credits
  - EDU 412 Observation and Directed Teaching: 9 credits

### Electives
- 6 credits

**TOTAL**
- 136 credits

---

1. Some courses in Teacher Education programs require practicum, laboratory, or service learning hours. The specific requirements for each course are found in the Course Descriptions section of this Catalog.

2. To achieve the objectives of professional education, the following courses should be taken in the sequence outlined by the Division if possible.

### Notes:
- Electives must be chosen to meet specific requirements.
- Courses listed in bold are mandatory.
- All courses are offered during specified semesters.
- Cr. indicates the number of credit hours for each course.
Department of Energy Environmental Management Project

The newly instituted Department of Energy Environmental Management (DOE-EM) Project provides to qualified students cost-of-education scholarships ($15,000), a summer research or training internship stipend ($5,600 per year), a summer housing allowance during the research or training internship ($3,000), and travel expenses to and from the internship site ($870 per year).

To be eligible for these allowances, students must maintain a 3.00 grade point average or higher each year. A grade point average lower than 3.00 will disqualify students from the program.

The primary objectives of the DOE-EM Project are as follows:

To prepare students to become health inspectors and professionals capable of protecting the health and safety of the public against emerging and growing environmental hazards

To prepare science, technology, engineering, and mathematics (STEM) students for scientific and research careers, thus enabling them to assume professional and leadership positions at DOE-EM or at any other national environmental health facilities

THE MORRIS COLLEGE-USC NURSING PROGRAM

Morris College and the University of South Carolina College of Nursing have entered into an articulation agreement that enables Morris College students to transfer to the University of South Carolina after completing a number of pre-nursing courses at Morris College and to earn a Bachelor of Science Degree in Nursing at USC after completing the upper division nursing courses there.

In order to be eligible for admission to the Nursing Program at USC, Morris College students

1. Must maintain a cumulative grade point average (GPA) of 2.75 or higher.
2. Must earn a grade of no less than “C” on any Morris College pre-nursing courses to be transferred to USC.
3. Can not repeat more than one science or nursing course more than one time in order to earn a grade of “C.”

The following stipulations also apply:

1. The cumulative grade point average will be computed based on all attempts in all courses. A “Withdraw Failing” grade (WF) and an “Incomplete” grade (I) will each be considered the same as a grade of “F” for the purpose of calculating a student’s grade point average.
2. Morris College students desiring to transfer to USC’s College of Nursing must apply for admission according to the following schedule:
   a. Students desiring admission to the University for the spring term must apply no later than December 1.
   b. Students desiring admission to the University for the fall term must apply no later than August 1.
   c. Students desiring admission to the University for the summer terms must apply no later than two weeks prior to registration for the term.
3. **Foreign Language**: Students transferring to the USC-Nursing Program who have not successfully completed two foreign language courses must take the University’s Foreign Language Placement Test and complete foreign language courses required by the test results.

The required pre-nursing courses to be completed at Morris are the following:

**English**: ENG 103, 104 ................................................................. 6

**History**: One of the following courses: HIS 104 or 106; or HIS 304 or 305 or any other higher-level history course .............. 3

**Fine Arts**: One of the following courses: ART 101 or higher, MUS 101 or higher, or SPH 210, 310, or 320 .............................. 2-3

**Mathematics**: MAT 201 and MAT 206 ........................................ 6

**Education and Social Sciences**: ................................................. 6

To be selected with advisement at USC

**Sciences**: ................................................................................. 28
CHM 201-202 Organic Chemistry I and II ................. 8 Hrs.*
BIO 200 or BIO 207, BIO 205, BIO 403 or BIO 208 ......12 Hrs.

**Electives**: .................................................................................. 9
66-67

**THE MATHEMATICS AND MATHEMATICS/SECONDARY EDUCATION MAJORS**

**THE MATHEMATICS PROGRAM**

**Objectives**
The objectives of the Mathematics program are as follows:
1. Develop proficiency in computational mathematics and in the use of the symbolic language of mathematics.

2. Enable the student to apply mathematics to a wide range of problems in everyday life and in related academic disciplines.

3. Develop in the student an appreciation of the role of mathematics in the culture of the past as well as the present.

4. Prepare the student for continued study of mathematics at an advanced level.

5. Prepare interested students for research, governmental, and industrial-technological leadership roles.

**Learning Outcomes for the Mathematics Program**

Upon completion of the Mathematics degree program, graduates will

1. Analyze and solve problems in sets, logic and algebraic structures

2. Solve mathematical functions (polynomial, exponential and logarithmic, trigonometric and multivariable)

*Note: CHM 101-102 are pre-requisites for CHM 201.
3. Solve algebraic, and trigonometric equations
4. Construct proofs in sets, integers, groups, geometric and inductive and deductive proofs
5. Recognize patterns in formulas, mathematical rules and geometric figures
6. Develop mathematical models in probability, differential equations and physics
7. Comprehend history, diversity, vocabulary and mathematic symbols
8. Be prepared for graduate, research and governmental and industrial-technological leadership roles

THE MATHEMATICS/SECONDARY EDUCATION PROGRAM

Objectives of the Mathematics/Secondary Education Program

The objectives of the Mathematics/Secondary Education program are as follows:

1. To develop a sound understanding of the basic concepts and methods of mathematics and how to teach the 9-12 South Carolina Curriculum standards
2. To develop proficiency in computational mathematics and in the use of the symbolic language of mathematics.
3. To enable the candidate to apply mathematics to a wide range of problems in everyday life and in related academic disciplines.
4. To develop in the candidate an appreciation of the role of mathematics in the culture of the past as well as the present.
5. To prepare the candidate for continued study of mathematics at an advanced level.
6. To prepare the candidate to teach mathematics at the secondary level by meeting the following standards: National Council for the Accreditation of Teacher Education (NCATE) and the National Council of Teachers of Mathematics (NCTM).
7. To make the candidate aware of new developments and technology in mathematics in order to foster in them the desire for continuous learning through research and experimentation.

Learning Outcomes for the Mathematics/Secondary Education Program

Upon completion of the Mathematics Secondary Education degree program, graduates will

1. Analyze and solve problems in sets, logic and algebraic structures
2. Solve mathematical functions (polynomial, exponential and logarithmic, trigonometric and multivariable)
3. Solve algebraic, and trigonometric equations
4. Construct proofs in sets, integers, groups, geometric and inductive and deductive proofs
5. Recognize patterns in formulas, mathematical rules and geometric figures
6. Develop mathematical models in probability and physics
7. Comprehend history, diversity, vocabulary and mathematic symbols
8. Be prepared for the PRAXIS II Examination
9. Be prepared to teach mathematics at the secondary school level by meeting the NCATE (NCTM) standards
ACADEMIC DIVISIONS AND PROGRAMS

REQUIREMENTS FOR THE BACHELOR OF SCIENCE DEGREE WITH A MAJOR IN MATHEMATICS

General Education ........................................................................................................... 61

Major Courses .................................................................................................................. 42
MAT 201 Calculus I ......................................................... 3
MAT 203 Set Theory and Logic ........................................ 3
MAT 206 Introductory Probability and Statistics ............. 3
MAT 210 Calculus II ..................................................... 3
MAT 303 Linear Algebra ................................................ 3
MAT 304 Abstract Algebra ............................................. 3
MAT 310 Calculus III .................................................... 3
MAT 320 Calculus IV ..................................................... 3
MAT 401 College Geometry ........................................... 3
MAT 402 Advanced Probability and Statistics .............. 3
MAT 403 Differential Equations ..................................... 3
MAT 404 Elementary Number Theory .......................... 3
MAT 405 Advanced Calculus ....................................... 3
MAT 412 Mathematics Seminar ................................... 3

Other Required Courses ................................................................................... 12
CIS 310 Introduction to Computer Programming ............ 3
JRS 300 Junior Seminar .................................................. 1
PHY 201 General Physics I ........................................... 4
PHY 202 General Physics II .......................................... 4

Electives ....................................................................................................................... 14

TOTAL ......................................................................................................................... 129

REQUIREMENTS FOR A MINOR IN MATHEMATICS

Students majoring in other disciplines who want to minor in mathematics are required to complete the following courses:

MAT 104 Trigonometry ...................................................... 3
MAT 105 Elementary Functions ....................................... 3
MAT 201 Calculus I ......................................................... 3
MAT 203 Set Theory and Logic ........................................ 3
MAT 206 Introductory Probability and Statistics ............. 3
MAT 210 Calculus II ...................................................... 3

TOTAL .................................................................................................................. 18

NOTE:
There are other courses in this category required by various engineering programs at USC that vary by department.

History (3 hours): any history course

TOTAL hours of the courses listed above
without pre-requisites

NOTES:
1. Students begin their studies at Morris College to complete the above pre-engineering requirements and then transfer to the University of South Carolina to complete their engineering degree requirements.
2. Dependent on their high school record in mathematics and the college placement score in mathematics, students may have to complete more hours in mathematics (e.g., DMA 101-102, MAT 103, 104 and 105) before enrolling in Calculus I.

3. PHY 201 and 202 are pre-requisites for PHY 203 and 204.

4. All Pre-engineering students must complete CHM 101 and CHM 102.

5. Chemical Engineering students must complete CHM 101-102 and CHM 201-202.

6. The courses listed above are transferable to USC if completed with grades of C or higher and a GPA of at least 2.75.

7. Students seeking admission into the Engineering Program at USC must have completed at least 30 credit hours (and up to 51 credit hours) of pre-engineering courses (listed above) at Morris College with at least a 2.75 GPA.

8. Engineering programs covered in this agreement are:
   - Biochemical Engineering
   - Chemical Engineering
   - Civil Engineering
   - Computer Engineering
   - Electrical Engineering
   - Mechanical Engineering
Morris College - Clemson

NOTES:
1. Depending on his/her placement score in mathematics, the student may have to complete more hours in mathematics (e.g. DMA 101, 102, MAT 103, 104 and 105) than those shown above.
2. The hours listed above are transferable to Clemson University if completed with grades of “C” or higher.
3. A student with grades no lower than “C” in all courses required for this program and a GPA of at least 2.5/4.0 is assured of admission into the Clemson engineering program of his/her choice.
4. The total number of hours required by Clemson University ranges from 139 to 145 depending on the field of engineering the student will follow. Areas of engineering covered in this program are: Agricultural Engineering (AgE, 139 hrs.), Chemical Engineering (ChE 144 hrs.) Electrical Engineering (EcE, 139 hrs.), Medical Engineering (ME, 143 hrs.), Engineering Analysis (EA 139 hrs.) and Ceramic Engineering (CrE, 139 hrs.) [Clemson Prefixes]
5. On the average, Clemson Engineering students take 4.5 years to complete the requirements for graduation.
6. Pre-engineering students are encouraged (but not required) to attend summer school at Clemson following the completion of their work at Morris and take certain basic engineering courses in order to ease the transition into engineering coursework and facilitate timely completion of the program.
7. Students should apply to the Clemson University Office of Admission for admission after completing three semesters of the above courses.

Dual Degree Program in Mathematics and Engineering Between Morris College and North Carolina A & T State University

The Dual Degree Program in mathematics and engineering between Morris College and North Carolina A & T State University (NCAT) makes it possible for students to attend Morris College for approximately three academic years and then to transfer to North Carolina A & T State University for approximately two academic years. After completing the academic requirements of the two institutions, the students will be awarded a Bachelor of Science degree in mathematics from Morris College and a Bachelor of Science degree in engineering from NCAT. Students pursuing the Dual Degree Program may be jointly enrolled at both institutions.

Dual Degree Program students will be eligible to pursue a B.S. degree at NCAT in any of the following areas of engineering:

- Architectural Engineering
- Biological Engineering
- Chemical Engineering
- Civil Engineering
- Computer Engineering
- Electrical Engineering
- Industrial Engineering
- Interdisciplinary General Engineering
- Mechanical Engineering

Dual Degree Program Admission Requirements at Morris College

To be accepted into the Dual Degree Program, a student: must have a “B” average in mathematics and a 3.0 GPA at the end of his / her first year at Morris College.

A Dual Degree Program student must complete the following requirements at Morris College:

1) 60 hours of general education courses
2) 44 hours of major and other courses required for a major in mathematics
3) 12 hours of electives (If a student wishes to start his/her engineering courses at NCAT after completing the general education and major requirements at Morris College, he/she may take the twelve hours of electives at NCAT and transfer them back to Morris.)

Admission to the NCAT Engineering Program will be granted to a Dual Degree Program student who:

1) has completed Morris College course requirements
2) has maintained a minimum of 3.0 GPA
3) is not on social or academic probation at the time of the transfer
4) has not been suspended or dropped from another institution (if he / she has attended another institution)
5) has submitted to NCAT the following documents:
   A) NCAT’s standard undergraduate application
   B) Recommendation letter from Morris College official
   C) Official transcript from Morris College
   D) Application fee

Individuals interested in further information about the Morris College/North Carolina A&T Dual Degree Program may contact the Division of Natural Sciences and Mathematics at Morris College.
THE DIVISION OF RELIGION AND HUMANITIES

The Division of Religion and Humanities offers six majors: English, English/Secondary Education, Mass Communications, Pastoral Ministry, Christian Education, and Liberal Studies, as well as courses in art, English, French, humanities, Spanish, music, philosophy, religion, speech, theater, and broadcast and print media which support all majors. The six majors in the Division emphasize liberal education as a preparation for careers in public relations, teaching, the ministry, broadcasting, and journalism.

Divisional Mission

The mission of the Division of Religion and Humanities is to embrace the college's mission and to incorporate into the institution's liberal arts education perceptions of the human condition, experience, and predicament as treated in such humanistic disciplines as literature, religion, philosophy, art, music, drama, and communications. The Division emphasizes an integrated approach to human culture without ignoring the diverse aspects underlying its unity. It involves students and faculty in the humanistic approach to knowledge that makes human thought and creativity an object of study; explores the human instinct for form, order, and harmony; and reinforces the persistent human quest for aesthetic, social, and ethical values.

Objectives

Consistent with the liberal arts tradition of the College and with specific institutional goals, the Division of Religion and Humanities directs its efforts toward achieving the following objectives:

1. To explore a major area of knowledge by studying its facts, structure, concepts, principles, and applications.
2. To help students improve their basic communication skills (listening, speaking, reading, writing, and viewing).
3. To develop study skills essential to learning.
4. To develop critical thinking and cultivate the spirit of inquiry.
5. To cultivate an awareness of enduring values through the study of the humanities.
6. To develop appreciation of masterpieces of art, literature, and music.
7. To realize the importance of creative ideas and expression in human civilization.
8. To stimulate the perennial enterprise of unifying beliefs into a workable philosophy of life.
9. To help students prepare for graduate studies and for specific careers of their choice on the basis of their interests and aptitudes.
10. To involve students and faculty in the exploration and discussion of humanistic concerns and the relating of these concerns to contemporary life.
11. To provide practical experiences through internships for application of theories and skills.
CHRISTIAN EDUCATION MAJOR

Objectives
1. To prepare graduates for careers as directors of Christian education programs in churches, camps, retreats, and conventions.
2. To prepare graduates for graduate and professional schools.
3. To provide meaningful internships for practical application and skill development.
4. To enhance communication skills in the areas of reading, writing, speaking and critical thinking.
5. To provide a wide range of courses that would give students a panoramic and in-depth view of the discipline.

Learning Outcomes for Christian Education

Upon completion of the Christian Education degree program, graduates will
1. Demonstrate a knowledge of basic concepts in the various theologies of the Old and the New Testament.
2. Illustrate an understanding of various administrative functions and duties as well as the elements of effective leadership within the Baptist Church.
3. Define church polity with a special emphasis on the principles governing the Baptist Church.
4. Identify the prophets of Israel and articulate the impact of their prophetic principles.
5. Research and compose critical and analytical writings on various topics, themes, and motifs.
6. Demonstrate a knowledge of the history, theories, and basic principles of Christianity, the Christian Church, and Christian education.
7. Demonstrate an understanding of the practical application of the major course content.

ENGLISH MAJOR

Objectives

1. To produce proficiency in three components—language, literature, and composition—that will assure success in graduate study or a career.

2. To encourage enthusiasm for reading great works of literature from all time periods and places.

3. To cultivate the ability to apply basic principles of language, literature, and composition to contemporary life.

4. To orient students to the influences, ideas, and movements that have affected writers from a wide variety of cultures.

5. To encourage study of the language and literature of other cultures.

6. To arrange experiences, both curricular and co-curricular, that afford enrichment in areas related to language, literature, and composition—art, music, history, oratory, philosophy, psychology, and theatre.

7. To foster techniques of associating the past and the present in language, literature, and composition.

8. To recognize through broad reading the universal nature of the human experience.

9. To show students how to motivate themselves and others to pursue advanced levels of learning and scholarship.

10. To support and promote related literary activities such as dramatic performances, participation in discussions, and scholarly exchange.

Learning Outcomes for English

Upon completion of the English degree program, graduates will

1. Demonstrate a knowledge of diverse literature and genres from the Ancient World to the 21st Century.

2. Analyze literary works; summarize and evaluate literary content, periods, language, and locations; compare and contrast literature with similar works from various times and locations.

3. Evaluate a work of literature within the framework of the author's intent without making moral judgments.
4. Utilize basic library skills in the composition of essays, research papers, and other written assignments.

5. Articulate orally and clearly factual information, ideas, and opinions regarding literature and the English language.

ENGLISH/SECONDARY EDUCATION

Objectives

1. To prepare secondary school candidates to teach effectively the three components of the secondary English curriculum and the South Carolina 9-12 English Language Arts Curriculum Standards.

2. To prepare candidates who can effectively teach writing skills and demonstrate acquisition of the National Council of Teachers of English (NCTE) Standards 9-12.

3. To introduce candidates to the experiences, ideas, and attitudes of writers and thinkers of various cultural backgrounds and help them learn to appreciate these writers through discussions, lectures, individual and group projects and research.

4. To emphasize the relevance of linguistic and literary study in understanding contemporary life by relating linguistic and communication theory to practical life situations.

5. To show candidates the unity and diversity of human experience portrayed in various works of literature.

6. To acquaint candidates with the roles and responsibilities of the teaching profession.

7. To acquaint teacher candidates with research trends consistent with current practices and which promote school effectiveness.

Learning Outcomes for English Secondary Education

Upon completion of the English Secondary Education degree program, graduates will

1. Recognize differences in the ways students learn and perform
2. Identify areas of exceptionality in students’ learning
3. Be aware of the legislation and institutional responsibilities related to exceptional students
4. Develop approaches for accommodating various learning styles, intelligences, or exceptionalities
5. Employ process of second-language acquisition and strategies to support the learning of students for whom English is not a first language
6. Understand the influence of individual experiences, talents, and prior learning, as well as language, culture, family, and community values on students’ learning
7. Identify theoretical foundations of human motivation and behavior
8. Determine how knowledge of human motivation and behavior should influence strategies for organizing and supporting individual and group work in the classroom
9. Communicate theoretical foundations about how learning occurs: how students construct knowledge, acquire skills, and develop habits of mind
10. Explain human development in the physical, social, emotional, moral, speech/language, and cognitive domains
11. Recognize factors and situations that are likely to promote or diminish student’s motivation to learn, and how to help students to become self-motivated

12. Plan and implement principles of effective classroom management and strategies to promote positive relationships, cooperation, and purposeful learning

13. Demonstrate knowledge of major cognitive processes associated with student learning

14. Apply major categories, advantages, and appropriate uses of instructional strategies

15. Extend principles, techniques, and methods associated with major instructional strategies to the classroom

16. Cultivate methods for enhancing student learning through the use of a variety of resources and materials

17. Utilize techniques for planning instruction, including addressing curriculum goals, selecting content topics, incorporating learning theory, subject matter, curriculum development, and student development and interests

18. Elaborate on techniques for creating effective bridges between curriculum goals and students’ experiences

19. Acquire knowledge of types of assessments

20. Acquire knowledge of characteristics of assessments

21. Acquire knowledge of scoring assessments

22. Acquire knowledge of uses of assessments

23. Acquire knowledge of understanding of measurement theory and assessment-related issues

24. Acquire knowledge of interpreting and communicating results of assessments

25. Utilize basic, effective verbal and nonverbal communication techniques

26. Understand the effect of cultural and gender differences on communications in the classroom

27. Demonstrate the types of communications and interactions that can stimulate discussion in different ways for particular purposes

28. Be aware of the types of resources available for professional development and learning

29. Demonstrate the ability to read, understand, and apply articles and books about current research, views, ideas, and debates regarding best teaching practices

30. Practice ongoing personal reflection on teaching and learning practices as a basis for making professional decisions

31. Identify the role of the school as a resource to the larger community

32. Comprehend the factors in the students’ environment outside of school (family circumstances, community environments, health and economic conditions) that may influence students’ life and learning
33. Develop and utilize active partnerships among teachers, parents/guardians, and leaders in the community to support the educational process.

34. Have knowledge of major laws related to students’ rights and teacher responsibilities.

35. Recognize and identify various instructional approaches to and elements of teaching reading and textual interpretation; e.g., cueing systems, activating prior knowledge, constructing meaning through context, and meta-cognitive strategies.

36. Understand and apply the elements of teaching writing.

37. Understand and be able to evaluate rhetorical features in writing.

The Mass Communications Major

The major in Mass Communication attempts to fill a definite need in our present communications-conscious society. Students in the major prepare for professional work or graduate study through in-depth course work and hands-on experience.

Objectives

1. To give students an understanding in their field of endeavor.
2. To prepare students for professional experiences by giving them a thorough grounding in their field of endeavor.
3. To prepare students for graduate study in the area of their choice.
4. To help students speak and write effectively.
5. To promote students’ professional growth through internships and exposure to professional organizations.
6. To help students to appreciate the various uses of visual and verbal media.
7. To help students better understand the processes of human communication.

Learning Outcomes for Mass Communications

Upon completion of the Mass Communications degree program, graduates will

1. Demonstrate an understanding of mass communications theories, functions, and influences on individuals and the public.
2. Illustrate the various research methods in mass media and apply those methods in the preparation of media research studies.
3. Prepare newspaper advertisements, radio and television commercials, newsletters, and promotional packages.
4. Describe techniques and principles of effective announcing.
5. Proofread, edit, and design layouts for publications.
7. Articulate ethical considerations in mass media.
8. Demonstrate an understanding of the practical application of the major course content.

TOTAL........................................................................... 18
THE MAJOR IN PASTORAL MINISTRY

Objectives
1. To prepare students for careers in ministry and to develop them as effective ministers.
2. To prepare students with the proper foundation for graduate and professional study.
3. To help accelerate professional growth for practicing ministers and chaplains.
4. To provide meaningful internships for practical application and skill development.
5. To enhance communication skills in the areas of reading, writing, speaking and critical thinking.
6. To provide a wide range of courses that offers students a panoramic and in-depth view of the discipline.

Learning Outcomes for Pastoral Ministry
Upon completion of the Pastoral Ministry degree program, graduates will
1. Demonstrate a knowledge of basic concepts in the various theologies of the Old and New Testament.
2. Describe church polity, the various administrative functions and duties, and the elements of effective leadership within the Church.
3. Articulate the social teachings of Jesus and the principles and practices of worship within the Protestant tradition.
4. Research and compose critical and analytical writings on various topics, themes, and motifs.
5. Demonstrate an understanding of Christian ethics, the evolution of ethics in Christian history, and the application of moral standards that should be applied when engaged in making Christian ethical decisions.
6. Explain the need for intense spiritual and cognitive preparation for effective preaching, the expectations of a pastor in regard to a congregation, and the basic principles undergirding pastoral care and counseling.
7. Sketch the history, theories, and basic principles of Christianity, the Christian Church, and Christian education.
8. Demonstrate understanding of the practical application of major course content.

THE DIVISION OF SOCIAL SCIENCES

Goals and Objectives

Majors and experiences in the Division of Social Sciences are designed to prepare students for professional studies and careers in education, criminal justice, law, social and public service, international relations as well as areas in the private sector.

The Division of Social Sciences promotes intellectual discipline, ideas, and cultural and career experiences as guided by the following objectives:

1. To develop critical thinking and logical reasoning.
2. To encourage inquiry and the appreciation of problem-solving techniques that are necessary in the scientific method of inquiry.
3. To cultivate competence in developing concepts and ideas as well as interpreting ideas and concepts that are expressed by historians and social scientists.
4. To cultivate competence in the research process.
5. To stimulate an awareness and clarification of values.
6. To strengthen communication and decision-making skills.
7. To enrich offerings through interdisciplinary and multidisciplinary arrangements.
8. To promote career opportunities through internships and scholarships.
9. To prepare interested students to teach social studies at the secondary level.
10. To involve students and faculty in study and discussion of academic and social concerns on the campus and in the community.
11. To encourage continuing formal and informal study.
12. To acquaint students with major works in the social sciences.
Learning Outcomes for Criminal Justice

Upon completion of the Criminal Justice degree program, graduates will

1. Demonstrate knowledge of major terms and definitions used in the study of crime and the criminal justice system.

2. Identify the principal theories on the causes of crime and the major concepts used in the study of the criminal justice system.

3. Identify the various parts of the criminal justice system and the function of each part.

4. Apply concepts, theory and specific practices used in criminal justice within a workplace environment.

5. Be able to relate theory, concepts and practices to current issues in the field of criminal justice through conducting computer-based and quantitative research.

6. Demonstrate sufficient levels of academic preparation and related skills to successfully pursue professional employment

SOCIAL STUDIES/SECONDARY EDUCATION

Objectives
1. To prepare interested students to teach social studies at the secondary level to a diverse group.
2. To integrate the study of anthropology, economics, geography, government/political science, history, philosophy, psychology, religion and sociology in a systematic way to help students understand what it means to be human and how, as human beings, we are members of society.
3. To prepare an educated citizenry to live successfully in a democratic society.
4. To help candidates analyze who they are and how they relate to their communities, the nation, and the global community.
5. To study how the past, present, and future are interconnected.
6. To help candidates understand cultural diversity and meet the challenges of the work world and communities.
7. To outline the kinds of professional development to improve the teaching and learning of social studies.
8. To help candidates develop technological and research skills to think critically and make decisions about related social issues.
9. To prepare candidates to meet the needs of their students who learn in different ways and who come from diverse backgrounds.
10. To teach candidates to use a variety of assessment strategies to measure student progress.

Learning Outcomes for Social Studies/Secondary Education
Upon completion of the Social Studies/Secondary Education degree program, graduates will
1. Demonstrate knowledge of basic terms and concepts used in the study of anthropology, economics, geography, government and politics, history, philosophy, psychology, religion and sociology at the introductory level.
2. Explain basic elements of the formal education process and its place in society.
3. Demonstrate knowledge of basic methods for the teaching of Social Studies in a secondary school setting.
4. Identify and explain various methods designed to measure and assess student learning.
5. Use computer-based and quantitative methods to conduct research on topics in the Social Sciences.
6. Demonstrate sufficient academic knowledge and related skills to successfully pursue professional employment or graduate study.

Learning Outcomes for Sociology
Upon completion of the Sociology degree program, graduates will
1. Define major terms and concepts used in sociological inquiry.
2. Explain the structure and primary functions of human social institutions.
3. Identify significant similarities and differences among human social institutions in various cultures around the world.
4. Identify the major types of social problems that exist among human societies.
5. Distinguish among the major sociological theories related to how human societies are organized, function and experience change.
6. Use computer-based and quantitative techniques in conducting research on sociological issues.
7. Demonstrate sufficient levels of academic and related skills to successfully pursue professional employment or graduate study.

Total Cr. 157
REQUIREMENTS FOR A MINOR IN GERONTOLOGY

Students majoring in other disciplines who want to minor in Gerontology are required to complete the following courses:

SOC 300 Introduction to Gerontology .....................3
SOC 303 Societal Responses to Aging .....................3
SOC 315 Gerontological Development and Social Policy .................................................................3
SOC 340 Social Work Methods in Human Services .................................................................3
SOC 405 Techniques of Management in Aging Agencies .................................................................3
SOC 406 Practicum .................................................................3

TOTAL ................................................................................ 18

REQUIREMENTS FOR A MINOR IN INTERNATIONAL RELATIONS

Students majoring in other disciplines who want to minor in International Relations are required to complete the following courses:

PSC 300 Introduction to Political Science .....................3
PSC 304 American National Government .....................3
PSC 351 Comparative Government .................................................................3
PSC 361 American Foreign Policy .................................................................3
PSC 401 International Relations .................................................................3
PSC 403 Political Theory .................................................................3

TOTAL ................................................................................ 18

REQUIREMENTS FOR A MINOR IN MINORITY STUDIES

Students majoring in other disciplines who want to minor in Minority Studies are required to complete the following courses:

HIS 401 Modern Sub-Saharan Africa .................................................................3
PSC 302 Ethnic Minority Group Politics .................................................................3
SOC 310 Cultural Anthropology .................................................................3
SOC 403 Ethnic Minority Groups in American Society .................................................................3
SOC 404 Urban Sociology .................................................................3
SSC 301 Women’s Role in a Changing Society .................................................................3

TOTAL ................................................................................ 18

REQUIREMENTS FOR A MINOR IN PSYCHOLOGY

Students majoring in other disciplines who want to minor in Psychology are required to complete the following courses:

PSY 301 Abnormal Psychology .................................................................3
PSY 302 Theories of Personality .................................................................3
PSY 305 Tests and Measurements .................................................................3
PSY 306 Psychology of the African American Experience .................................................................3
PSY 401 Applied Psychology .................................................................3
PSY 402 Organizational Psychology .................................................................3

TOTAL ................................................................................ 18
ART 101  Art Appreciation  (2)
Art Appreciation is designed to expand awareness and appreciation of art through exploration of media, theory, and history of art.

ART 110  Ceramics  (1)
Ceramics deals with basic issues of aesthetics and techniques developed through the direct manipulation of clay. A variety of forming techniques is explored and demonstrated: pinch, coiling, slab, and hand-building construction and decorating, glazing, and firing techniques.

ART 201  Fundamentals of Art  (3)
Fundamentals of Art is a study of the art process through the exploration of the elements, concepts, media materials, and methods used to produce art.

ART 210  Basic Design  (3)
Basic Design is a course designed to develop comprehension and manual dexterity in two- and three-dimensional media.

ART 211  Basic Drawing  (3)
Basic Drawing is an introduction to materials and basic techniques of drawing. Emphasis is placed on observation, organization, and development of manual control.

BIOLOGY

BIO 100  Biological Sciences  (4)
Biological Sciences is a survey of the fundamentals of life sciences which focuses on biological principles as they appear in animals, plants, and microorganisms ranging from the subcellular to the organismic level. Major topics include introductions to cell biology, evolution, ecology, and genetics. Special emphasis is placed on human reproduction, nutrition, and current human biological concerns. Three lecture hours and one two-hour laboratory per week.

BIO 103  General Zoology  (4)
General Zoology treats basic principles of living things and surveys the lower and higher forms of the animal kingdom with reference to their morphology, classification, evolution, methods of reproduction, inheritance, and relationship to man. The historical aspects of zoology are studied, especially with reference to evolution. Three lecture hours and one two-hour laboratory per week.

BIO 200  Anatomy and Physiology for Health Sciences  (4)
Anatomy and Physiology for Health Sciences is designed to provide basic information on the structure and function of the human body: the skeletal, articular, nervous, muscular, circulatory, respiratory, digestive, urinary, endocrine, and reproductive systems. Three lecture hours and one two-hour laboratory per week.
Prerequisite: BIO 100 or BIO 103

BIO 201  Vertebrate Anatomy and Embryology  (4)
Vertebrate Anatomy and Embryology covers basic principles of sex cell maturation, fertilization, and embryonic cell differentiation leading to the formation of the vertebrate embryo and its development to a highly complex form. The course also presents a study of adult vertebrates: their organ-systems, anatomy, evolution, specialization, behavior, and reproductive activities. Three hours of lecture and two-hour laboratory per week.
Prerequisite: BIO 103
BIO 203 Introduction to Research Methods (4)
Introduction to Research Methods is an introduction to methods of investigation that prepare students to participate in meaningful undergraduate research. Included in these methods are microscopy, measurements, centrifugation, electrophoresis, spectrophotometry, and chromatography. In addition, experimental design, statistical treatment of data, literature search, technical writing, and preparation of manuscripts, posters, grant proposals, and oral presentations are covered. Three lecture hours and one two-hour laboratory per week.
Prerequisites: MAT 103 and one of the following: BIO 103, BIO 204, CHM 101 or PHY 201

BIO 204 General Botany (4)
General Botany is a functional introductory survey of microorganisms and lower and higher plants including their morphology, histology, physiology, reproduction, inheritance, and relationship to man. The history of botany is covered, with special reference to contributions of early civilizations. Three lecture hours and one two-hour laboratory per week.

BIO 205 General Microbiology (4)
General Microbiology emphasizes the fundamental concepts of microbiology, including morphology, ultra structure, reproduction, cultivation, and metabolism of microorganisms and their role in nature in relation to man. The history of the development of microbiology and the contributions of microbiologists from diverse cultures are studied. Three lecture hours and one two-hour laboratory per week.
Prerequisites: BIO 103 and BIO 204

BIO 206 Biostatistics (3)
Biostatistics will cover the basic principles, methods, logic, and language of statistics from a health perspective. The following topics will be covered: basic probability, discrete and continuous random variables, sample size determination, distributions (normal, Poisson, binomial, and hypergeometric), estimation and hypothesis testing and confidence intervals. In addition, t-test, analysis of variance (ANOVA) and simple and multiple linear regression and correlation will be covered. Three lecture hours per week.
Pre-requisites: MAT 103, BIO 303

BIO 207 Human Anatomy and Physiology I (4)
Human Anatomy and Physiology I is the first component of a two-semester sequence that examines the structure and function of the human body. It covers human cells and tissues and their embryonic origins as well as a study of the integumentary, skeletal, muscular and nervous systems. Three lecture hours and one, two-hour laboratory per week.
Recommended for pre-nursing and other pre-health professions students. BIO 200 may be taken in lieu of BIO 207.
Prerequisites: BIO 100 or BIO 103, CHM 101 and MAT 103

BIO 208 Human Anatomy and Physiology II (4)
Human Anatomy and Physiology II is a continuation of Human Anatomy and Physiology I. It covers the study of the endocrine, cardiovascular, lymphatic, immune, respiratory, digestive, excretory and reproductive systems. Special emphasis is placed on the mechanisms of action of the integrated human organ systems. Three lecture hours and one, two-hour laboratory per week.
Recommended for pre-nursing and other pre-health professions students. BIO 403 may be taken in lieu of BIO 208
Prerequisites: BIO 207
BIO 300  Cell and Molecular Biology (4)
Cell Biology and Molecular Biology involves the study of the structure and function of cells, emphasizing their physiology and biochemistry. Topics include energy production and utilization; membrane structure and transport; physiological responses to external signals such as hormones or other cells; genome organization, replication, transcription, and translation; and cell growth, division, and differentiation. Ethical, human, and technological implications of biotechnology are studied in light of advances in the field. Three lecture hours and one two-hour laboratory per week.
Prerequisite: BIO 205, CHM 102

BIO 301  General Genetics (4)
General Genetics deals with the general principles of heredity in animals, plants, and microorganisms and the interrelationships between heredity and the environment concerning the phenotypic expression of traits. It covers Mendelian, molecular, and population genetics. The history of genetics is studied. Three lecture hours and one two-hour laboratory per week.
Prerequisites: BIO 103

BIO 302  Hazardous Waste Management (3)
Hazardous Waste Management covers the study of solid and hazardous waste with emphasis on composting, incineration, landfills and recycling as safe methods of waste disposal. Topics include: methods of solid and hazardous waste management; the roles of legislative and governmental agencies; on-site handling, storage and processing; transfer and transport; processing techniques and equipment; recovery of resources, conversion products and energy, and safe disposal of solid and hazardous waste and residual materials. Three lecture hours per week.
Pre-requisites: BIO 100 or BIO 103, BIO 303

BIO 303  Environmental Science (4)
Environmental Science deals with the interaction between humans and the natural world. The course focuses on historical perspectives, economic and political realities, and the integration of these with the science that describes the natural world and man's impact on it. Three lecture hours and one two-hour laboratory per week.

BIO 305  General Ecology (4)
General Ecology provides the principles governing living organisms and their environment and the principles of interaction of these organisms with one another. Emphasis is placed on the human environment and ethical and technological problems related to various types of pollution and human populations. Three lecture hours and one two-hour laboratory per week.
Prerequisite: BIO 103, BIO 204

BIO 401  General Toxicology (4)
General Toxicology covers applications of the basic anatomical, biochemical and physiological principles and assessment of environmental pollutants that are potentially hazardous to health, and effective approaches that reduce their threats. Three lecture hours and one two-hour laboratory per week.
Pre-requisites: BIO 100 or BIO 103, BIO 303, CHM 102

BIO 402  Biology Seminar (3)
Biology Seminar is the capstone course for Biology majors and involves review of previously learned concepts, exploration of current topics and recent advances in biology, and preparation for standardized tests required for graduation (senior exit examination) and for graduate and professional schools (GRE, MCAT, PCAT, DAT, etc.). Current topics and advances in biology include biotechnology, genetic
engineering, genomics, proteomics, glycomics, stem cell research, cloning, behavioral and environmental sciences that affect the human condition and the study of the moral and ethical impact of these advances on society. Students are required to conduct independent literature research, review and summarize scientific articles, present oral reports, write a scholarly term paper, and engage in weekly standardized practice tests. A comprehensive senior exit examination covering subject matter in the field is incorporated into this course.

Prerequisites: BIO 205, BIO 300, BIO 301

**BIO 403 Human Physiology (4)**

Human Physiology introduces the functioning of the human body as a whole and the interrelationships among the various organs and systems. The interrelationships of physiology, physics, and chemistry in the various body systems are demonstrated. Ethical and technological aspects and the impact of technology are studied in light of advances in the field. Three lecture hours and one two-hour laboratory per week.

Prerequisites: BIO 201

Co-requisites: CHM 201 or 202 (May be taken concurrently with CHM 201 or 202)

**BIO 406 Special Topics in Biology (3)**

Special Topics in Biology may be taken as an independent research project or in conjunction with a faculty research project.

**BIO 407 Environmental Health Administration (3)**

Environmental Health Administration covers the structure and administration of environmental health organizations with emphasis on the legal and financial basis and the practices utilized in their current programs. A research paper is required.

Pre-requisites: BIO 100 or BIO 103, BIO 303

**BUSINESS ADMINISTRATION**

**BUS 200 Basic Money Management (3)**

Basic Money Management is a financial literacy course designed to provide students with practical guidance making wise money management decisions that affect their daily and long-term financial positions as consumers. Practical topics covered will include budgeting, savings, investing, credit card debt, loans, spending decisions, comparison shopping, credit problems and services, mortgage financing, and retirement planning. Student will develop money management skills thorough interactive financial planning exercises that deal with real-life scenarios.

**BUS 300 Introduction to Business (3)**

Introduction to Business provides basic background information related to the scope of business activities and methods for solving business problems. The topics cover management, marketing, finance, economics, accounting, production, insurance, transportation, and computer science.

**BUS 305 Keyboarding (3)**

Keyboarding is a study of the principles and practices of touch typing using computer software, with emphasis upon both personal and vocational use. Minimum speed requirement is 30 GWPM (Gross Words per Minute).

**BUS 370 PC Systems and Application Software (3)**

PC Systems and Application Software is an introduction to computer applications which covers the following areas: computers (components), disk operating system (DOS) commands, the Internet, word processing, and spreadsheets. Students use the various software packages to process information and generate different types of documents.
BUS 375  Principles of Management  (3)
Principles of Management looks at the functions of business organizations and the role management plays in all types of business enterprises. Emphasis is given to the various business structures, the levels of decision making, the fixing of responsibilities, and the synchronization of work by divisions, departments and individuals.

BUS 380  Principles of Marketing  (3)
Principles of Marketing is a study of various interacting business activities designed to plan, promote, and distribute products and services to consumers. Students evaluate and develop a practical marketing plan.

BUS 385  Financial Accounting  (3)
Financial Accounting covers the procedures and methodology used by the accountant to determine the net income and the financial position of a business enterprise, the single proprietorship, the partnership, and the corporation. Students complete practical exercises and application problems to demonstrate their accounting skills.

BUS 390  Business Communications  (3)
Business Communications is a study of the procedures and practices of written and oral communication in business professions. Students develop skills in writing business letters, preparing informal and formal reports, and making oral presentations. Prerequisite: ENG 104

BUS 395  Statistics  (3)
Statistics includes descriptive statistics, statistical inference, probability theory, and the fundamentals of modern statistical methods. Emphasis is on methods of data production and analysis. Tabular and graphical presentation of data relevant to practical business and social problem solving will be covered.

BUS 400  Business Law and Ethics  (3)
Business Law and Ethics involves a study of contracts, property rights, business transactions, negotiable instruments, credit transactions, sales, mergers, acquisitions, and insurance. Students use the case method to analyze legal and ethical issues in business.

BUS 405  Operations Management  (3)
Operations Management covers business strategies used to effectively produce goods and services. Students examine techniques for improving decision making in relation to job design, capacity, inventory, location, layout, and scheduling. Spreadsheet applications are used to solve practical application problems. Prerequisite: BUS 375, BUS 395

BUS 410  Managerial Accounting  (3)
Managerial Accounting is the analysis of accounting data used in the planning, control, and decision-making activities of business. Topics include but are not limited to financial statements, flow of funds, cost-value-profit relationship, budgetary planning and control, cost consideration in decision making, and the use of quantitative techniques as an instrument of control and proper planning. Prerequisite: BUS 385

BUS 435  Marketing Management  (3)
Marketing Management incorporates an analytical decision making approach to formulating solutions to marketing problems. Emphasis is placed on the following areas of marketing management: production, distribution, pricing, and promotional strategies. Students
enrolled in the course develop a total marketing plan for a product of their choice.
Prerequisite: BUS 380

BUS 450 Federal Income Tax (3)
Federal Income Tax reviews the laws and procedures incorporated in the current income tax structure. Students prepare individual income tax returns.

BUS 465 International Business Management (3)
International Business Management is a study of the various management practices of multinational corporations. Students analyze the dynamic, complex political environment that contributes to the success or the failure of international businesses. Prerequisite: BUS 375, BUS 380, ECO 302

BUS 470 Human Resource Management (3)
Human Resource Management deals with the process of integrating people into situations that motivate them to work together cooperatively and productively by developing proper psychological attitudes. The course helps students to understand and solve human relations problems in business. Prerequisites: BUS 375

BUS 475 Managerial Finance (3)
Managerial Finance is an introduction to financial management. Topics include analysis and uses of financial statements; cash flow management; time value of money; analysis of risks and expected rates of return; stocks, bonds and their valuation, yield to maturity, and financial ratios and their uses. Emphasis is on cash budgeting, retained earnings, dividend policy, capital budgeting, net present values and optimal capital structure. Students are required to examine financial statements, analyze financial ratios, and evaluate the capital budget of any Fortune 500 company of their choice. Prerequisite: BUS 410, ECO 302

BUS 480 Management Information Systems (3)
Management Information Systems deals with the planning, development, management, and use of information technology tools to help people perform tasks related to human resource management, marketing, finance, and management. Students work individually and in groups with hands-on information technology projects. Information technology project activities focus on careers, global business, and various industry settings. Prerequisites: BUS 375, CIS 101

BUS 485 Small Business Management (3)
Small Business Management emphasizes the procedures and the knowledge required to establish, finance, and successfully manage a small business enterprise. Students analyze the special problems confronted by small business owners in the day-to-day operation of their enterprises.

BUS 490 Organizational Behavior (3)
Organizational Behavior is a study of group behavior and the way in which group interaction affects organizational effectiveness. Students will focus on conflict management and group decision-making. Prerequisite: BUS 375

BUS 495 Business Policy (3)
Business Policy is designed to integrate and utilize the knowledge acquired in various courses in business and economics. Students formulate solutions to practical business problems through the use of case analysis. Prerequisites: BUS 465, BUS 475, and ECO 301
BUS 497  Business Research (3)
Business Research is a capstone course that provides students with a forum for discussion, reflection, and analysis of current business events and contemporary business issues. Students are required to conduct research, write scholarly business papers, and participate in personal and professional development activities. A review for the Senior Exit Examination covering subject matter in the various business disciplines is incorporated into this course.
Prerequisites: BUS 465, BUS 475, and ECO 301

CHEMISTRY

CHM 101  General Chemistry I (4)
General Chemistry I treats the modern aspects of quantitative and qualitative chemistry. Generally, the following topics are covered in this course: measurements, symbols, chemical equations, stoichiometry, atomic structure, periodic law and chemical bonding, gas, liquid, and solid states, solutions, acids, bases and salts. Topics relevant to environmental issues will be presented. The history of chemistry is also introduced. Three lecture hours and one two-hour laboratory per week.

CHM 102  General Chemistry II (4)
General Chemistry II is a continuation of Chemistry I. The following topics are covered in this course: properties of acids, bases and salts, pH and hydrogen ion concentration, properties of solutions of electrolytes and non electrolytes, rates of chemical reactions, solubility products, chemical equilibria, ionic equilibria, electrochemistry, oxidation-reduction reactions, and thermodynamics. Topics relevant to environmental issues will be presented. The history of chemistry is also introduced. Historical aspects of chemistry are also studied. Three lecture hours and one two-hour laboratory session per week.
Prerequisite: CHM 101

CHM 201  Organic Chemistry I (4)
Organic Chemistry I is designed to provide a broad treatment of carbon compounds. The emphasis is placed on nomenclature, structure, mechanisms, and the identification of various organic groups. The following groups are covered: alkanes, alkenes, alkynes, dienes, alicyclic and aromatic hydrocarbons, arenes, alcohols, aldehydes, ketones, and ethers. Spectroscopic methods as well as stereochemical properties are briefly discussed. History of the discovery of various compounds is included. Three lecture hours and one two-hour laboratory per week.
Prerequisite: CHM 102

CHM 202  Organic Chemistry II (4)
Organic Chemistry II is a continuation of Organic Chemistry I. Emphasis is placed on nomenclature, structure, mechanisms and the identification of various organic groups. The following groups are covered: carboxylic acids, esters, amides, anhydrides, acid halides, and amines. The organic chemistry of proteins, nucleic acids, and their constituents is briefly discussed. The laboratory provides experiments involving the identification, preparation, and characterization of organic compounds, with special reference to their discovery and their effects on living organisms. Three lecture hours and one two-hour laboratory per week.
Prerequisite: CHM 201.

CHM 400  Biochemistry (4)
Biochemistry provides an introduction to the biological chemistry and biological processes at the molecular level. Catabolism and biosynthesis of carbohydrates, lipids, proteins, and nucleic acids are studied. Metabolic processes such as glycolysis, citric
acid cycle, oxidative phosphorylation, and photosynthesis are also studied; and their relationship to the laws of thermodynamics are explored. Gene expression and gene manipulation constitute a portion of this course. Three lecture hours and one two-hour laboratory per week.
Prerequisites: CHM 202, BIO 205

COMPUTER INFORMATION SYSTEMS

CIS 101 Introduction to Computers (2)
Introduction to Computers covers the role, concepts, history, social-ethical issues, and applications of the computer. Hardware, software, file management, operating systems, and security will also be covered. Students will have extensive hands-on experience. Computer application preparation activities include word processing, spreadsheets, presentation packages, and Internet communications.

CIS 300 Systems Analysis and Design (3)
Systems Analysis and Design is the study of systems integration, the analysis of existing systems, and the design of new systems. Students review each stage of the System Development Life Cycle (SDLC) and solve practical SDLC data management problems. Projects are required.
Prerequisite: CIS 101

CIS 310 Introduction to Computer Programming (3)
Introduction to Computer Programming covers problem solving, program formulation, logic, and the development of good programming techniques. The course involves project and extensive hands-on experience with an appropriate computer language to write programs. Required for all Mathematics/Secondary Education majors.
Prerequisite: CIS 101

CIS 320 Business Telecommunications (3)
Business Telecommunications is the analysis of technical and management problems and issues associated with telecommunications systems using microcomputers. Included are telecommunication theory, infrastructure (including digital communication hardware and software), information services, and the Internet. Personal, business, social, and ethical implications are stressed. Projects are required.
Prerequisite: CIS 101

CIS 400 Database Design (3)
Database Design focuses on software design and programming in a data base environment. Among the topics covered are data models, query languages, and relational database design using normal forms. Problems will be assigned using relational database management systems and Structured Query Language. Projects are required.
Prerequisite: CIS 300

CIS 440 Information Resource Management (3)
Information Resource Management (IRM) is a seminar in information systems management, with emphasis on planning, organizing, and controlling user services and managing the recommended systems development process. Students apply IRM methodologies to manage realistic problems faced by business firms and computer-using organizations. Projects are required.
Prerequisite: CIS 101

CIS 460 Technology Management Trends and Issues (3)
Technology Management Trends and Issues covers topics on robotics, automation, computer-integrated manufacturing, and computer-aided design. Ethical, legal, and
social issues in new technology management are also examined.
Prerequisite: CIS 101

COOPERATIVE EDUCATION

COE 199 Cooperative Education Seminar (1)
Cooperative Education Seminar introduces students to cooperative education concepts and prepares them for paid field experiences within academic majors. Students are involved in career exploration.

COE 298 Part-Time Cooperative Education Experience I (3)
Part-Time Cooperative Education Experience I provides a semester of work/study experience in business, industry, government, or a social agency. The student is engaged in part-time employment in an area related to his academic program.
Prerequisite: COE 199

COE 299 Full-Time Cooperative Education Experience I (6)
Full-Time Cooperative Education Experience I provides a semester of work/study experience in business, industry, government, or a social agency. The student is engaged in full-time employment in an area related to his academic program.
Prerequisite: COE 199

COE 398 Part-Time Cooperative Education Experience II (3)
Part-Time Cooperative Education II is a second- or junior-level work/study experience in part-time employment related to the student's academic studies.
Prerequisite: COE 298

COE 399 Full-Time Cooperative Education Experience II (6)
Full-Time Cooperative Education Experience II is a second- or junior-level work/study experience in full-time employment related to the student’s academic studies.
Prerequisite: COE 299

COE 498 Part-Time Cooperative Education III (3)
Part-Time Cooperative Education III is a third- or senior-level work/study experience in part-time employment related to the student’s academic studies.
Prerequisite: COE 398

COE 499 Full-Time Cooperative Education Experience III (6)
Full-Time Cooperative Education Experience III is a third- or senior-level work/study experience in full-time employment related to the student’s academic studies.
Prerequisite: COE 399

CRIMINAL JUSTICE

CRJ 300 Introduction to Criminal Justice (3)
Introduction to Criminal Justice is an overview of the criminal justice system including personnel and agencies. The course also examines criminal behavior from cultural and political viewpoints.

CRJ 301 Law Enforcement Systems (3)
Law Enforcement Systems is a study of personnel, agencies, processes, and activities in law enforcement, with emphasis on enforcement responsibilities of the local and state police in the United States.

CRJ 302 Correction, Probation, Pardon and Parole Systems (3)
Correction, Probation, Pardon, and Parole Systems is a study of historical background, agencies, and facilities of corrections systems, with emphasis on contemporary
problems in administration. The course also addresses the way that the system coordinates activities with criminal justice components.

**CRJ 303 Judicial Systems (3)**
Judicial Systems is a study of the United States judicial system, including the federal, state and local courts and their personnel, procedures, policies, and decisions.
Prerequisite: CRJ 300

**CRJ 304 Criminal Law (3)**
Criminal Law is viewed as a means of influencing human behavior with intensive analysis made of various principles which apply to virtually every criminal case: justification, attempt, conspiracy, parties to crime, ignorance, mistake, immaturity, insanity, and intoxication. Some common law statutes of South Carolina are studied.
Prerequisite: CRJ 300

**CRJ 305 Criminology (3)**
Criminology is designed to introduce students to the basic concepts of crime causation and criminal behavior. Major attention is given to the biological, economic, sociological, and psychological causes of crime. The major schools of criminological thought are also studied.
Prerequisite: CRJ 300

**CRJ 400 Juvenile Delinquency (3)**
Juvenile Delinquency addresses biological, economic, psychological, and sociological factors related to the causes of juvenile delinquency. The course emphasizes theories and trends related to the prevention and treatment of juvenile delinquency.
Prerequisite: CRJ 300

**CRJ 401 Criminal Investigation (3)**
Criminal Investigation is a study and practical application of investigative methods, with emphasis on carrying out investigations and presenting and reporting on material discovered.
Prerequisite: CRJ 300

**CRJ 402 Special Problems in Administration of Justice (3)**
Special Problems in Administration of Justice is a study of the complex factors involved in the administration of justice and their impact on groups in American society.
Prerequisite: CRJ 300

**CRJ 403 Internship (3)**
This is the capstone course for students in the Criminal Justice major, and synthesizes theoretical, conceptual and factual knowledge with practical application of the same. Classroom lectures and discussions are combined with practical work experience through placements at judicial, law enforcement and correctional agencies. Interviewing, résumé writing and other professional development skills are covered, and a major research paper related to the internship placement is also required. A comprehensive senior exit examination covering subject matter in the field is incorporated into this course.
Prerequisite: CRJ 300, CRJ 301, CRJ 304 and CRJ 305

**DEVELOPMENTAL STUDIES**

Students must receive a grade of "C" or higher in each developmental course in order to proceed to the next level in the sequence. They earn institutional credit; however, this credit does not count toward academic honors or graduation. All developmental students (reading, English, and mathematics) are required to complete weekly
DESCRIPTION OF COURSES

computer lab assignments in addition to the classroom work, and the computer lab grade constitutes 25 percent of the final course grade.

**DEG 101 Developmental English I (3)**
Developmental English I emphasizes sentence-level skills and paragraph-length assignments based on personal experience. The course includes an extensive review of skills in grammar, sentence structure, word usage and punctuation, in addition to paragraph writing. Also, emphasis is placed on outlining drafting, revising, editing, and the writing process. Special attention will be given to the rules of Standard Written English.

**DEG 102 Developmental English II (3)**
Developmental English II emphasizes paragraphing skills and simple multi-paragraph assignments. Special attention is given to the rules of Standard Written English, patterns of paragraph development, and basic essay structure.

**DMA 101 Developmental Mathematics I (3)**
Developmental Mathematics I is a review of whole numbers, fractions, decimals, ratios and proportions, percents, and basic operations with integers.

**DMA 102 Developmental Mathematics II (3)**
Developmental Mathematics II is a continuation of Developmental Mathematics I. Topics include operations with integers, exponents, polynomials, linear equations and inequalities with applications, factoring trinomials, tables, charts, graphs, measurement and basic geometry, and basic statistics.

**DRD 101 Developmental Reading I (3)**
Developmental Reading I emphasizes the development of skills in word attack, vocabulary development, comprehension, reading-study, library usage, expressive oral reading, and listening.

**DRD 102 Developmental Reading II (3)**
Developmental Reading II is based on the needs and interests of individual students, with emphasis on vocabulary development, word attack skills, higher order comprehension skills, and reading rate.

**ECONOMICS**

**ECO 301 Macroeconomics (3)**
Macroeconomics topics include the basic function of an economic system, law of supply and demand, business cycles, consumption, savings, monetary and fiscal policy, and money and the banking system. Emphasis is on production, employment, and the estimation of inflation and unemployment rates.

**ECO 302 Microeconomics (3)**
Microeconomics includes application of supply and demand elasticity, the market structure under American capitalism, price and output determination of the individual firm under varying competitive market structures, and pricing of factors of production. Students evaluate the comparative advantage among nations as it relates to global competition and international trade.

**EDUCATION**

**EDU 200 Introduction to Education (3)**
Introduction to Education gives the student an introduction to the nature of education and its place in our society. An overview of the historical background of systems of
education in the United States, their aims, organizations, principles, and procedures is presented, with practical consideration for teachers. Career exploration is an essential part of the course. Diversity is also a major component of this course. This course is a prerequisite to all other teacher education courses. Students are also required to spend ten to twenty hours in the educational lab.

A twenty-hour practicum is required.

EDU 207 Methods of Teaching Mathematics for Early Childhood (3)
Methods of Teaching Mathematics for Early Childhood is a study of sets, counting numbers, numeration systems, properties of the fundamental operations, elementary number theory, the rational number systems, decimal representation, the set of real numbers, informal algebra, and plane and solid geometry. A twenty-hour practicum is required.
Prerequisite: MAT 103

EDU 208 Methods of Teaching Mathematics in the Elementary School (3)
Methods of Teaching Mathematics in the Elementary School is a study of the rational number system, decimal representation, the set of real numbers, informal algebra, and plane and solid geometry. A twenty-hour practicum is required.
Prerequisite: MAT 103

EDU 210 Health and Physical Education (3)
Health and Physical Education makes college students aware of major health and wellness issues confronting young adults as they enter society. Such topics as holistic health, nutrition, diet and weight control, drugs and alcohol, heredity and disease, birth control and sexually transmitted disease as well as aging and dying are discussed. Special emphasis is placed on the importance of exercise and physical fitness as they relate to lifestyles, stress, and cardiovascular disease. A physical activity lab is required.

EDU 215 Human Development (3)
Human Development includes a study of human growth and development covering the periods of conception, prenatal, neonatal, early childhood, childhood, adolescence, old age and death. Emphasis is placed on the interrelationship between actual growth, maturational processes, and environmental influences. The study of the relationship of teaching and learning to physical, social, intellectual, and emotional development is essential.

EDU 220 Issues in Diversity (1)
In Issues in Diversity pre-candidates and candidates learn strategies for effectively addressing the educational needs of all students, regardless of their differences; i.e. race, gender, social class, exceptionalities, religion, and so forth. By exploring diverse perspectives, enrollees learn about different people, ideas, cultures, religions, and ways of life. A service learning project is required. A ten-hour service learning project is required.

EDU 302 Educational Psychology (3)
Educational Psychology is designed to study the nature of educational processes based on psychological concepts, principles, and theories related to classroom teaching. Emphasis is given to the discussion of such important topics as learning styles, diversity, intelligence, motivation, personality, and career education. Required of all early childhood, elementary and secondary education majors. A ten-hour service learning project is required.

EDU 303 Principles and Philosophy of Education (3)
Principles and Philosophy of Education is designed to acquaint students with the philosophy of education in the United States in relation to the social traditions of both
past and present. An overview of educational issues and problems created by the philosophical trends in education is presented. Emphasis is given to western and some non-western philosophers of education, historical and contemporary. Laboratory experiences are included for acquainting students with goals, objectives and the philosophy of schools in the area. Studies in team decision making and strategies fostering collaboration are required. Required of early childhood, elementary, and secondary education majors.

**EDU 304   Educational Tests and Measurements   (3)**
Educational Tests and Measurements is concerned with the study of tests and measurements as they relate to classroom situations. Special emphasis is placed on the study, selection, and use of various standardized and teacher-made measuring devices and on simple methods of interpreting and presenting test results. The course is designed to help students improve their skills in taking standardized tests and to help them develop their critical thinking, problem solving, and performance skills.

**EDU 305   Instructional Media   (3)**
Instructional Media is a study of the preparation and use of visual materials and non-projected visuals and the operation of various audio-visual equipment. Students become acquainted with instructional technology that affords them the opportunity to develop an understanding of the importance of computers as productive and useful tools in education and in the workplace. Students must use collaborative skills with group projects.

**EDU 306   Behavior of the Preschool Child   (3)**
Behavior of the Preschool Child is a study of the physical, emotional, intellectual, and social components of the development of the child from birth through five years of age. The role of parents in understanding the course of child development is emphasized. Observation and participation in the preschool classroom are parts of the course requirements. A twenty-hour practicum is required.

**EDU 309   Principles of Guidance   (3)**
Principles of Guidance explores the philosophy and functions of guidance; the study of basic skills and techniques of guidance such as observation, case studies, projective techniques, records; and the study and evaluation of the role of the administrator, teacher, and counselor. Students are involved in career exploration and counseling initiatives.

**EDU 310   Language Development and Communication Skills   (3)**
Language Development and Communication Skills focuses on the development of language arts from birth through the elementary school years. Students are acquainted with activities which are appropriate in developing the language arts skills of listening, speaking, reading, and writing.

**EDU 311   Methods and Materials for the Early Childhood Curriculum   (3)**
Methods and Materials for the Early Childhood Curriculum acquaints students with methods and materials appropriate for the content areas that are a part of the curriculum for early childhood education. Basic concepts in curriculum development are emphasized, and several early childhood programs are examined. Career opportunities for Early Childhood majors are explored. A twenty-hour practicum is required.

**EDU 320   Methods of Teaching the Visual and Performing Arts in the Elementary School   (3)**
Methods of Teaching the Visual and Performing Arts in the Elementary School presents current curriculum models that permit candidates to gain insight into the role of the arts in our schools and in our lives. The course allows candidates the opportunity to create
and to maintain a network of community arts and cultural institutions that support all teachers and students in a standard-based arts curriculum. The course also addresses multiple intelligences, creative thinking, cultural diversity, and special needs as they relate to the arts. Emphasis is given to the integration of the arts into the content subject areas with special focus on music and visual arts. A twenty-hour practicum is required. Prerequisite: EDU 200 Introduction to Education

EDU 400 Methods of Teaching Reading (3)
Methods of Teaching Reading presents effective methods for teaching reading in grades kindergarten through twelve. Required of all teacher education majors. A twenty-hour practicum is required.

EDU 401 Methods and Materials for the Elementary School (3)
Methods and Materials for the Elementary School familiarizes the prospective elementary school teacher with current major programs and develops skills in the selection, organization, and use of materials and methods for elementary instruction. Major considerations include the changing elementary school, the teacher’s instructional and professional role, planning for learning, classroom management, community resources, conflict resolution skills, career exploration, parental involvement, nature of child growth and development, and orientation to instruments used in evaluating teaching (PRAXIS, ADEPT, PET, etc.). A twenty-hour practicum is required.

EDU 402 Observation and Directed Teaching (Early Childhood Education) (9)
Observation and Directed Teaching is a course required of all early childhood education majors preparing to teach in public schools with diverse learners. In addition to classroom work prior to and after the student teaching period, the prospective teacher is required to perform twelve weeks of observation and actual teaching in the area of his specialization in the public school.

EDU 403 Observation and Directed Teaching (Elementary Education) (9)
Observation and Directed Teaching is required of all elementary education majors preparing to teach in public schools with diverse learners. In addition to classroom work prior to and after the student teaching period, the prospective teacher is required to perform twelve weeks of observation and actual teaching in the area of his specialization in the public school.

EDU 405 Educational Seminar (3)
Educational Seminar is a capstone course designed to summarize and synthesize the knowledge accumulated in the early childhood, elementary, and senior high school curricula. Current innovations in methods, materials and procedures especially related to the conceptual framework of preparing competent, critical thinking, reflective, and caring teachers are explored. Directed participation in real classrooms is a part of the course. Classroom demonstrations, web-based instruction, guest lecturers, and research enable the candidate to gain a systematic view of the whole field of education. Candidates also become acquainted with various technologies and diversity related issues, assessment and instructional strategies, and equipment through the use of the Bobby Leroy Brisbon Curriculum Resource Room. Candidates also become involved in communication for the workplace, career development, and professional collegiality. This course is taken concurrently with EDU 412, EDU 402 or EDU 403 Observation and Directed Teaching.

EDU 406 Methods of Teaching Natural Sciences in the Secondary School (3)
Methods of Teaching Natural Sciences in the Secondary School focuses on the objectives of science teaching; the nature of science; the process of learning science; curriculum developments and trends in biology, physics, chemistry, physical science, earth science, and general science; the history of science; the psychology of learning
DESCRIPTION OF COURSES

and its implication for science teaching; the place of experiments, demonstrations, audio-visual aids, instructional media, lecture, and discussion and questioning techniques in science programs; facilities for science teaching; reading in science programs; providing for individual differences; planning science lessons and units; planning environmental studies; patterns in the use of laboratory techniques and procedures; and using science textbooks, notebooks, workbooks, excursions, science clubs, science projects, fairs, and congresses; and testing and evaluations in the science program. A thirty-hour practicum is required.

EDU 407  Methods of Teaching Social Studies in the Secondary School  (3)
Methods of Teaching Social Studies in the Secondary School acquaints students with a short history of the trends in social studies. Patterns of curriculum organization; instructional units and lesson planning; diagnosing and assessing students’ learning; utilizing various modalities and instructional techniques; decision making; cultural heritage studies and law-focused studies; moral education; utilizing the local community; integrating the social studies disciplines (history, geography, political science, economics, sociology and psychology); career exploration; and the characteristics of social studies teachers are analyzed in this course. A thirty-hour practicum is required.

EDU 408  Methods of Teaching Social Studies in the Elementary School  (3)
Methods of Teaching Social Studies in the Elementary School acquaints students with exploring the meaning of social studies; teaching and learning strategies for social studies; planning for instruction; content of social sciences (anthropology, economics, geography, history, sociology, and political science); values and human relationships; inquiry and problem solving; research methods; strategies for making and interpreting maps; current events; career exploration games and simulation for social studies; ideal social studies programs; and skill building in social studies. A twenty-hour practicum is required.

EDU 410  Methods of Teaching Health and Physical Education in the Elementary School  (3)
Methods of Teaching Health and Physical Education in Elementary School prepares elementary school teachers in the field of health. The three phases of the school health program, school health services, health instruction, and healthful school living, are treated. Special attention is given to the health status of school children, common health problems, and the role of the school in handling such problems. Exposing children to careers in health is very essential. A twenty-hour practicum is required.

EDU 411  Methods and Materials of Teaching in Secondary School  (3)
Methods and Materials of Teaching in the Secondary School acquaints students with the general principles, techniques, and materials generally applicable to high school instruction. Major considerations include the objectives of secondary education, classroom management, conflict resolution skills, development of American high schools, selecting and organizing subject matter, characteristics of an effective teacher, planning and presenting lessons, providing for individual differences, involving parents in student learning, career exploration, evaluating instruction, and orientation to instruments in evaluating teaching (Praxis II, ADEPT, PET, etc.). A thirty-hour practicum is required.

EDU 412  Observation and Directed Teaching (Secondary Education)  (9)
Observation and Directed Teaching is a course required of all secondary education specializations preparing to teach in public schools with diverse learners. In addition to classroom work prior to and after the student teaching period, the prospective teacher is required to perform twelve weeks of observation and actual teaching in the area of his specialization in the public school.
EDU 413  Methods of Teaching Mathematics in the Secondary School (3)
Methods of Teaching Mathematics in Secondary School deals with the history of mathematics, the principles for planning and directing effective learning experiences in mathematics, and the selection and utilization of appropriate materials for instruction in the secondary school. The course includes instruction in the use of the graphing calculator, the computer, and the Internet and the use of technology in mathematical problem solving and applications. Use of the tools of geometry, the compasses, the protractor, and the ruler, is emphasized. A thirty-hour practicum is required.

EDU 415  Methods of Teaching English in the Secondary School  (3)
Methods of Teaching English in the Secondary School concentrates on the roles and responsibilities of the English teacher; effective classroom techniques; and procedures in the teaching of literature, language, and composition. A thirty-hour practicum is required.

EDU 430  Diagnosis and Correction of Reading Difficulties  (3)
Diagnosis and Correction of Reading Difficulties involves the selection of suitable materials and desirable techniques. It also embodies practice in analyzing and diagnosing individual needs for corrective and remedial treatment.

EDU 440  Drug Abuse Education  (3)
Drug Abuse Education enhances the student’s knowledge of addictive agents such as alcohol, drugs, and other items associated with misuse in the population. Observation and interaction with professionals in the field will occur, and the latest research and data are available.

ENGLISH

ENG 103  Fundamentals of Composition  (3)
Fundamentals of Composition emphasizes writing in essay format. Classroom activities and assignments involve expository, critical, persuasive, and research-based writing.

ENG 104  Research and Composition  (3)
Research and Composition emphasizes research-based writing. Special attention is given to the acquisition and employment of research skills.
Prerequisite:  ENG 103

ENG 201  Creative Writing  (3)
Creative Writing emphasizes the principles of creative writing, with emphasis on essays, short fiction, and poetry.

ENG 202  Introduction to Literature  (3)
Introduction to Literature introduces literary and critical approaches to literature and reference tools. It develops understanding and appreciation of poetry, drama, fiction, and the essay.
Prerequisite:  ENG 104

ENG 205  African American Literature  (3)
African American Literature is a critical and historical survey of literary works by African American writers from the Colonial period to the modern period. Critical interpretation of the literature is related to socio-historical forces and African American literary traditions.
Prerequisite:  ENG 202

ENG 301  Critical Thinking and Reasoning  (3)
The goal of this course is to provide the student with skills necessary to read and think in an analytical manner. Topics to be reviewed include critical thinking, vocabulary, word
parts, and word origins, as well as drawing inferences and skimming and scanning. This course involves the learner in developing advanced reading and writing skills.

**ENG 303 Literature for Children and Adolescents (3)**
Literature for Children and Adolescents deals with literature for children and adolescents and with criteria for selecting and evaluating works of special interest to children and adolescents.

**ENG 305 American Literature I (3)**
American Literature I covers major writings in American Literature from the seventeenth century through the middle of the nineteenth century.

**ENG 306 American Literature II (3)**
American Literature II covers major writings in American Literature from the middle of the nineteenth century to the present.
Prerequisite: ENG 305

**ENG 307 World Literature I (3)**
World Literature I covers masterpieces of world literature in translation from the Ancient World to the French Neo-Classic period. It includes works by European, Asian, and African writers.

**ENG 308 World Literature II (3)**
World Literature II covers masterpieces of World Literature in translation from the Neo-Classic period to the Modern period. It consists of works by American, European, African, and Asian writers.
Prerequisite: ENG 307

**ENG 309 Major Novels (3)**
Major Novels emphasizes major developments in the novel, from its beginning to the present in the areas of style, theory, and philosophy.

**ENG 310 Advanced Composition and Rhetoric (3)**
Advanced Composition and Rhetoric stresses competency in the expression of ideas with organization, clarity, and effectiveness. It involves written analysis of classical and contemporary rhetorical devices and their effect on communication.

**ENG 311 History of the English Language (3)**
History of the English Language is a study of the sounds and structure of the English language in the various stages of its development and a survey of the external and internal influences that affect language. The course includes analyses of texts in Old, Middle, and Modern English.

**ENG 312 Modern English Grammar (3)**
Modern English Grammar is a study of the grammar of the language. It emphasizes syntactic analysis and applies the methods of traditional grammar, structural grammar, and transformational-generative grammar.

**ENG 313 African American Poets (3)**
African American Poets examines and critically analyzes major periods, key themes, and key works of African American poets from the early eighteenth century to the present.

**ENG 315 Technical Writing (3)**
Technical Writing introduces students to models of technical writing, ranging from memos and summaries to detailed formal reports and proposals. Attention is given to the strategies of research, design, and rhetoric necessary for effective communication.
ENG 321 History of the Theater (3)
History of the Theater is a study of dramatic theory and literature from the Greeks to the present day, with emphasis on the Greek theater; the English theater of the Renaissance period; the mid-eighteenth-century theater; and recent developments in realism, naturalism, and expressionism.

ENG 322 Twentieth Century Literature (3)
Twentieth Century Literature covers the major literary trends of the twentieth century. Attention is paid to the major genres of the period and includes Continental as well as English and American literature.

ENG 330 African American Drama (3)
African American Drama is a study of the development of African American drama, with emphasis on the Harlem Renaissance and contemporary periods.

ENG 360 Literature Studies (3)
Literature Studies is a study of one or more European, Asian, African, British, or American authors, genres, or literature periods.

ENG 405 Shakespeare (3)
Shakespeare is a study of selected comedies, tragedies, historical dramas, and poetry by Shakespeare. It covers his development as a dramatist and poet, with attention to each of these genres.

ENG 412 British Literature I (3)
British Literature I covers the works of major writers, genres, and movements from the medieval period to the Age of Johnson.

ENG 413 British Literature II (3)
British Literature II is a survey course from the Romantics to the present. Emphasis is on major writers, genres, and movements from the latter part of the eighteenth century to the present.
Prerequisite: English 412

ENG 414 Nineteenth Century British Literature (3)
Nineteenth Century British Literature is a study of British Literature from the beginning of the Romantic period through the Victorian period, with emphasis on writers, movements, and genres.

ENG 415 Literary Criticism (3)
Literary Criticism is an introduction to critical approaches to literature and the major critical theories from Aristotle to the present.

ENG 422 Contemporary Literature (3)
Contemporary Literature is a study of major trends, writers, and movements since 1945, including English, American, and world literatures.

ENG 490 English Seminar (3)
English Seminar is the capstone course for English majors. It offers a systematic review of major literary concepts, figures, and historical periods, as well as theories of language development and use. Students prepare a semester-long research project and professional career portfolio. A comprehensive senior exit examination covering subject matter in the field is incorporated into this course.
DESCRIPTION OF COURSES

FRENCH

FRE 101  Elementary French I (3)
Elementary French I provides an introduction to the four basic language skills: listening, speaking, reading, and writing. It includes a limited study of French history, culture, and national identity.

FRE 102  Elementary French II (3)
Elementary French II is a continuation of Elementary French I and the basic language skills. It includes a broader study of French history, culture, and national identity.
Prerequisite: FRE 101

FRE 201  Intermediate French I (3)
Intermediate French I is designed for students who have completed Elementary French I and II. It is designed to further develop skills in conversation and writing, with emphasis on grammar review, more complex structures, vocabulary expansion, and French culture.

FRE 202  Intermediate French II (3)
Intermediate French II is designed to enable students to further develop basic skills so that they can converse and write more effectively in the language. Continued emphasis will be placed on grammar; more complex structures; vocabulary expansion; and francophone cultures, histories, and national identity.
Prerequisite: FRE 201

FRESHMAN SEMINAR

FRS 100  Freshman Seminar (1)
Freshman Seminar provides comprehensive guidance to students in the process of making successful adjustment to college life. It includes units on development of productive study habits, sound academic planning, increased test sophistication, and career awareness.

GENERAL SCIENCE

GSC 200  Science in the Elementary School (4)
Science in the Elementary School emphasizes selected topics from the physical sciences and the biological sciences and on the methods of applying these to elementary school situations. Three lecture hours and one two-hour laboratory per week. A twenty-hour practicum is required.
Prerequisites: BIO 100 and PHS 100

GEOGRAPHY

GEO 201  World Regional Geography (3)
World Regional Geography is a survey of the major economic, social, political, and physical characteristics of the world's economically developed nations and the world's economically developing nations. Students engage in considerable amounts of map preparation work for every region of the world.

GEO 401  Cultural Geography (3)
Cultural Geography deals with the relationship between land and people. It examines cultural patterns of linguistic, religious, ethnic, and popular geographic differentiation as well as spatial and environmental concerns.
HEALTH SCIENCE

HSC 301  Introduction to Nutrition  (3)
Introduction to Nutrition includes a study of the nutrients essential to human well being, their function in metabolic processes, their sources in food, and the application of information about nutrition to the study of the relationship between dietary habits and health.

HSC 302  Chronic and Communicable Disease  (3)
Chronic and Communicable Disease investigates the etiology of disease, with emphasis on cardiovascular disease, cancer, diabetes, and sexually transmitted diseases and the risk factors associated with these diseases. Preventive and educational programs are developed and presented by the class through research of current data.

HSC 303  Stress Management  (3)
Stress Management examines physiological and psychological stressor and their underlying effects on health. Effective strategies for preventing and/or alleviating attendant symptoms of stress are explored. Learning activities in this course are both theoretical and experiential.

HSC 304  Family Life and Sex Education  (3)
Family Life and Sex Education examines the family structure and the importance of sex education, including the moral and ethical foundations. The value of community- and family-based education programs will be presented and developed.

HSC 310  Introduction to Epidemiology  (3)
Introduction to Epidemiology provides an overview of epidemiological principles and practices related to the study, prevention, and control of health-related conditions in the human population. Emphasis will be on the principal concepts of epidemiology, including aspects of disease etiology; distribution and determinants; descriptive and analytic epidemiologic methods and study designs; and application of epidemiologic data to develop, implement and evaluate health programs, administer health-related services or promote hazard-free environments. This course helps prepare Health Science minor students who complete seven (7) additional Health Science credit hours to meet the competencies delineated in the National Commission for Health Education Credentialing (NCHEC) Areas of Responsibility and for Certified Health Education Specialist (CHES) certification.

HSC 312  Health Care Systems and Programs  (3)
Health Care Systems and Programs examines the United States health care system and its multi-faceted delivery system. Students develop strategies to access the health care system and the many governmental programs available.

HSC 320  Foundations of Health Education  (3)
Foundations of Health Education is a study of the historical, philosophical, sociological, psychological, and scientific foundations of health education. Consideration is given to the individual and societal factors which contribute to and/or influence physical, social, emotional, spiritual, and intellectual health.

HSC 400  Health Services Organization and Administration  (3)
Health Services Organization and Administration examines the multiple facets of running an effective and efficient health care program. Program evaluation, Federal regulations, unions, staffing, funding sources, and current issues will be discussed and researched.
HSC 425  Ethical and Legal Issues for Health Professionals  (3)
Ethical and Legal Issues for Health Professionals deals with the complex legal is-
sues faced by health professionals in today's society and with legal and medical ter-
minology. Students will be able to discuss and interpret legal and medical terminolo-
gy.

HSC 427  Community Development for Health  (3)
Community Development for Health familiarizes students with concepts, principles, and
techniques underlying the organization of community resources for health action.

HSC 431  Research Methods in Health Science (1)
Research Methods in Health Science introduces the student to the study and practical
application of research design as it applies to the health sciences. Emphasis will be on
the necessary skills and competencies required to develop an acceptable research
proposal.

HSC 450  Environmental Health and Safety  (3)
Environmental Health and Safety examines the physical, biological, chemical, and
socio-behavioral factors that affect our environment. The effects of population growth,
vector control, and consumer information about the environment will be discussed. The
class participates in educational and promotional activities.

HSC 490  Current Health Issues Seminar (3)
This is a capstone course designed to focus on synthesizing, utilizing, and researching
public health concepts, methods, theories, interventions, implementations, and
evaluation of research designs on a current public health issue and/or problem. The
application of student's research will be conducted through an assessment and
literature review, data collection, development, and planning, culminating in a senior
research project. The course focuses on theory as it relates to practice and experience,
and emphasizes résumé writing, interview, communication, and other professional and
technological methods and skills. Through weekly discussions and interactions,
students develop a comprehensive, in-depth overview of the profession as a whole.
This culmination of ideas leads to professional growth and a broader understanding of
the total public health profession. Prerequisites: HSC 320, HSC 310, HSC 427 and
HSC 450

492 Internship (3)
Internship is the culmination of the student's educational experience in health science.
Students select an agency for internship and spend 120 hours in the internship
experience. Prerequisites: HSC 310, HSC 320, HSC 427, HSC 450

HISTORY

HIS 104  World History  (3)
World History examines the history of the world from 1500 to the present. It deals with
significant developments, events, people, institutions, and global interaction and
includes social, economic, political, military, religious, aesthetic, legal, and technological
factors that contribute the student's understanding of the modern world.

HIS 106  African-American History  (3)
African-American History is a survey of major developments of the African Diaspora in
its American context from African heritage to the present. Particular emphasis is placed
on the African way of life, the beginning of slavery, the era of the Civil war and
Reconstruction, African-American leadership and organizations, the struggle for civil
rights, and contemporary issues and concerns.
HIS 304 American History I (3)  
American History I is the study of the colonization of America, the establishment of American independence, the formation of the federal republic, the growth of the American nation, and the Civil War up to 1865.

HIS 305 American History II (3)  
American History II is the study of modern America; the impact of World War I, World War II, and the Civil Rights Movement; and industrial and political changes, with emphasis on economic, social, and intellectual developments from 1865 to the present.

HIS 307 American Economic History (3)  
American Economic History covers historical development in agriculture, industry, communication, transportation, banking and credit, commerce, and government economic policies.

HIS 310 History of the Civil Rights Movement (3)  
History of the Civil Rights Movement examines the contributions of African-American leaders of the Civil Rights era. It evaluates the origins of the movement, the struggles, and the protests of the 1950’s and the 1960’s, the variety of strategies and tactics employed by the movement’s leaders, and the legacy of the reform movement.

HIS 311 Classical and Medieval Civilizations (3)  
Classical and Medieval Civilizations covers developments in North Africa, Southwest Asia, and Europe before 1500. It includes topics on ancient Egyptian, Mesopotamian, Hebrew, early Persian, Greek, Roman, Germanic, Celtic, Byzantine, Slavic, and Medieval European history. It also examines Judaism, Christianity, and Islam from a historical perspective.

HIS 312 Early Modern Europe (3)  
Early Modern Europe is a study of European history that begins with the Renaissance through the French Revolution and Napoleonic eras. Attention is given to the Protestant Reformation, the emergence of "modern states," the origins of modern science, the expansion of Europe, and the Enlightenment. The course offers an overview of recent European development.

HIS 317 Recent European History (3)  
Recent European History deals with a study of recent European development and process with a study of European history from the Congress of Vienna through the Common Market. Emphasis is placed on both national and "European" movements, ideas, and institutions that have shaped the course of the modern world.

HIS 321 Non-Western Area Studies (3)  
Non-Western Area Studies is an interdisciplinary approach to the study of major non-western areas of the world from the aspects of culture, religion, politics, and economics.

HIS 331 Soviet Russia (3)  
Soviet Russia is a study of contemporary Russia beginning with the origins of the Revolution of 1917. The course is organized around the chief threads of political, economic, and social change in the Soviet Union. Emphasis is also placed on the examination of Russian-Leninism and the official ideology of the Soviet State.

HIS 341 British History (3)  
British History examines British history from the Roman period to the present. It includes topics on the political, economic, social, cultural, and constitutional development of the British Isles.
**DESCRIPTION OF COURSES**

**HIS 401 Modern Sub-Saharan Africa (3)**
Modern Sub-Saharan Africa deals with the legacy of colonialism in Africa, the transition to nationalism in the independent states of Black Africa, and the search for a Pan-African future. Major political and cultural changes and regional economic and political groupings will be discussed.

**HIS 402 Twentieth Century United States (3)**
Twentieth Century United States is a study of the economic, political, social, and diplomatic affairs of the United States in the twentieth century.

**HIS 403 History and Principles of the American Constitution (3)**
History and Principles of the American Constitution is an inquiry into the historical development of the American constitutional system, with emphasis on the judiciary in the interpretation of the Constitution.

**HIS 404 American Revolution (3)**
American Revolution is a seminar course which introduces to the student a cross section of theories and researchers on the American Revolution and also ideas and concepts concerning the Revolution and its legacy.
Prerequisite: HIS 304

**HIS 406 The American Military Experience (3)**
The American Military Experience provides an overview of the American military experience, with emphasis on the principles of warfare and the historical threads of continuity. Students review battles from every major period of history, particularly those relevant to the evolution of warfare. Students are expected to be able to conduct a systematic battle analysis. A battlefield visit is required.

**HIS 409 History of South Carolina (3)**
History of South Carolina deals with the growth and development of South Carolina, with emphasis on the current, social, political, and economic problems.

**HIS 499 History Seminar (3)**
History Seminar is the capstone course for students majoring in History. It provides a basic foundation in historiography and research methods directed toward the preparation and preparation of a scholarly paper. An overview of current issues and concerns within the discipline, a comprehensive Exit Examination, as well as a consideration of professional development skills and career opportunities related to the field are also included in the instructional format.

**HONORS PROGRAM**

**HON 110 Honors Seminar (2)**
Honors Seminar 110 introduces and prepares students toward the development of leadership skills, potential and style. This seminar will also enhance and facilitate student success, honing study skills, professionalism, and interpersonal skills, thereby equipping and preparing students for advanced academic study. (Second Semester Freshman)

**HON 210 Honors Seminar (2)**
Honors Seminar 210 focuses on critical thinking skills reflecting societal, educational and collegiate issues, building upon cultural awareness. This seminar will also involve active student participation in activities and projects that focus on civic/community involvement designed to enhance leadership and service awareness, skills, and experiences. (First Semester Sophomore)
Prerequisite: HON 110
HON 220  Honors Seminar (2)
Honors Seminar 220, a continuation from HON 210, will offer students the opportunity to deliver presentations, discuss contemporary issues, host forums, conduct debates and participate in panel discussions. This seminar will also guide students toward post-graduate as well as topic formulation toward their senior thesis. (Second Semester Sophomore)
Prerequisite:  HON 210

HON 310  Honors Seminar (2)
Honors Seminar 310 is interdisciplinary in nature and emphasizes active student involvement in the analysis of social issues, presentations/discussions, and the development of leadership skills.
Prerequisite:  HON 220

HON 320  Honors Seminar (2)
Honors Seminar 320 offers the opportunity for juniors who by their past performance have indicated high academic promise for continued self development. A self-thematic approach is used to focus on significant aspects of cultural heritage and identity. Participants engage in research, formal lectures, informal discussions, and co-curricular activities.
Prerequisite:  HON 310

HON 410  Honors Seminar (2)
Honors Seminar 410 introduces the student to advanced study in both research and the formulation of ideas related to the student’s specific academic area. A proposal for the senior thesis must be approved by the end of the first semester.
Prerequisite:  HON 320

HON 420  Honors Seminar (2)
In Honors Seminar 420, a senior thesis is required of all Honors Program students who desire to graduate as members of the program. The thesis must be related to the student’s academic area of concentration, and it must meet the approval of a selected faculty advisor and the Director of the Honors Program. All theses must be presented before a selected committee prior to the students’ graduation.
Prerequisite:  HON 410

HUMANITIES

HUM 310  Literature, Film, and Visual Arts (3)
Literature, Film, and Visual Arts covers principles, theories, and elements of literature, motion pictures, and visual arts. Attention is placed on interdisciplinary approaches to the analysis and interpretation of the arts.

HUM 400  Liberal Studies Seminar (3)
Liberal Studies Seminar is the capstone course for Liberal Studies majors, integrating all aspects of liberal arts education, the arts, and issues related to the unity and diversity of human knowledge. This course incorporates a semester-long thesis and a professional career portfolio. A comprehensive senior exit examination covering subject matter in the field is incorporated into this course.

HUM 430  Arts Management (3)
Arts Management covers the general aspects of arts management as it involves the artists, producers, exhibitors, and promoters. Various arts organizations and resources, methods of fund-raising and proposal writing, effective public relations, audience building, and copyright regulations are also introduced.
JUNIOR SEMINAR

JRS 300  Junior Seminar (1)
Junior Seminar is designed to help students who are beginning course work in their major field to be successful in the pursuit of their chosen program of study. The basic elements of this course are designed to enhance the student's oral literacy, formal writing, and research and computer skills, with emphasis on their classroom applications. Additional features of the course include reviewing strategies through which students can improve their academic planning, career awareness, and test-taking skills, as well as undertaking the initial preparation for the capstone course in the major that is taken during the senior year.

MATHEMATICS

MAT 103  College Algebra  (3)
College Algebra is the study of linear and polynomical functions, rational functions, exponential functions and systems of equations, quadratic equations, and the theory of equations. Students are introduced to the language and symbols of mathematics.

MAT 104  Trigonometry  (3)
Trigonometry is the study of angles, trigonometric functions, inverse trigonometric functions, circular functions, trigonometric identities, applications of trigonometry, polar coordinates, and DeMoivre’s Theorem.
Prerequisite:  MAT 103

MAT 105  Elementary Functions  (3)
Elementary Functions is a study of the properties and graphs of polynomials and trigonometric, exponential, and logarithmic functions.
Prerequisite: MAT 104

MAT 201  Calculus I (3)
Calculus I is an introduction to analytic geometry, limits, continuity, derivatives and integrals of algebraic functions including applications. The history of mathematics and information about the lives of important mathematicians are included.
Prerequisite: MAT 105

MAT 210  Calculus II (3)
Calculus II covers conic sections; techniques of integration; applications of the definite integral; differentiation; and integration of trigonometric, exponential, and logarithmic functions. The history of mathematics and information about the lives of important mathematicians are included.
Prerequisite: MAT 201

MAT 203  Set Theory and Logic  (3)
Set Theory and Logic includes set theory, symbolic logic, truth tables, inductive proofs, deductive reasoning, relations, functions, Venn Diagrams, and Euler’s circles. Relevant mathematics symbols are introduced.
Prerequisite: MAT 105

MAT 206  Introductory Probability and Statistics  (3)
Introductory Probability and Statistics includes descriptive statistics, measures of central tendency, measures of variability, introductory probability, sampling techniques, confidence intervals, and hypothesis testing. Relevant mathematics symbols are introduced.
Prerequisite: MAT 103
MAT 303 Linear Algebra (3)
Linear Algebra emphasizes the study of solutions of systems of linear equations, vector spaces, linear transformations, matrices, determinants, eigenvalues, and eigenvectors and their applications.
Prerequisite: MAT 203

MAT 304 Abstract Algebra (3)
Abstract Algebra emphasizes the study of sets, mappings, equivalence relations, groups, rings, fields, and ideals, with emphasis on the techniques of proofs.
Prerequisite: MAT 203

MAT 310 Calculus III (3)
Calculus III is a study of advanced integration techniques, quadratic surfaces, polar coordinates, infinite series and sequences, Taylor Series, and McLaurin Series, vectors, and parametric equations. The history of mathematics and information about the lives of important mathematicians are included.
Prerequisite: MAT 210

MAT 320 Calculus IV (3)
Calculus IV is the study of vectors and vector calculus, partial derivatives and their applications, multivariable calculus, and multiple integrals in rectangular and other coordinate systems, line and surface integrals, Green’s Theorem, and Stoke’s Theorem.
Prerequisite: MAT 310

MAT 401 College Geometry (3)
College Geometry is a study of axiomatic methods and proofs. Topics from Euclidean geometry include lines, angles, triangles, congruent and similar triangles, and polygons. The course also includes an introduction to the topics of non-Euclidean geometry and compares non-Euclidean geometry with Euclidean geometry.
Prerequisite: MAT 203

MAT 402 Advanced Probability and Statistics (3)
Advanced Probability and Statistics deals with probability, discrete continuous random variables, moments, special distributions, sampling, limit theorems, the normal distribution, confidence, intervals, testing hypotheses, and statistical decision theory.
Prerequisite: MAT 206, MAT 310

MAT 403 Differential Equations (3)
Differential Equations is a study of methods of solving first-order differential equations, linear differential equations with constant coefficients, variation of parameters, and series solutions and applications.
Prerequisite: MAT 310

MAT 404 Elementary Number Theory (3)
Elementary Number Theory is the study of divisibility properties, prime numbers, congruencies, primitive roots, quadratic residues, and the distribution of primes.
Prerequisite: MAT 304

MAT 405 Advanced Calculus (3)
Advanced Calculus is a rigorous treatment of the derivative and the integral, general theorems on partial differentiation, implicit function theorems, infinite series, Fournier Series, and Fournier Integrals.
Prerequisite: MAT 320
MAT 412  Mathematics Seminar  (3)
Mathematics Seminar is the capstone course for Mathematics majors. It is a review of major concepts in contemporary mathematics, including complex variables, number theory, numerical analysis methods, calculus-level probability and statistics, advanced calculus, and topics in differential equations. Students are required to conduct independent library research, present oral reports, write a scholarly term paper, and prepare for and pass the senior exit examination. Preparation for the Graduate Record Examination (GRE) is emphasized for students planning to attend graduate school. A comprehensive senior exit examination covering subject matter in the field is incorporated into this course.
Prerequisites: MAT 203, MAT 206, MAT 320
Co-requisite: MAT 403

MAT 490  Introduction to Topology  (3)
Topics covered in this course include topological spaces, metric spaces, continuity, connectedness, and compactness. This course may be used as an elective by students who plan to attend graduate school.
Prerequisite: MAT 203, MAT 320

MEDIA ARTS

MED 300  Mass Communications  (3)
Mass Communications surveys various topics of mass media such as newspapers, radio, television, film, and advertising. The primary focus of this course is mass communication theories, functions, and influences of specific media forms as they interact with individuals and the public.

MED 302  News Writing and Editing  (3)
News Writing and Editing covers aspects of news gathering, reporting, and editing for newspapers, radio, and television. Students will cover news stories during the semester and edit them for publication and/or broadcasting.
Prerequisite: MED 300

MED 303  School Publications Workshop I  (1)
School Publications Workshop I covers editing, design, and layout of student publications including college newspapers and yearbooks. Students are involved in copy editing and proofreading as well as in other practical experiences.
Prerequisite: MED 300, MED 302

MED 304  Advertising  (3)
Advertising covers principles of advertising and public relations. Students gain experience in the preparation of newspaper advertisements, radio and television commercials, news releases, and editing newsletters.
Prerequisite: MED 300

MED 305  Film History  (3)
Film History explores the evolution and development of film forms and styles. It traces the basic film structures from the earlier works of Lumière and Melies to Griffith and Eisenstein.
Prerequisite: MED 300

MED 307  History of Journalism  (3)
History of Journalism surveys the history of journalism from ancient times to the present. Emphasis is on the media revolution of the twentieth century.
Prerequisite: MED 300
MED 312 School Publications Workshop II (1)  
School Publications Workshop II is a more in-depth concentration in the preparation and editing of school publications (newspapers, yearbooks, and websites). Students receive additional practical experience in the course.  
Prerequisite: MED 300

MED 320 Television Production (3)  
Television Production emphasizes both theory and practice of television production. Students are involved in the production of programs of broadcast quality.  
Prerequisite: MED 300

MED 321 Advanced Television Production (3)  
Advanced Television Production provides instruction in the creation, preparation, and production of advanced television programs. Students are involved in scripting and editing original programs.  
Prerequisite: MED 320

MED 330 Scriptwriting (3)  
Scriptwriting critically evaluates continuity in structure, form, characterization, action, and dialogue. It analyzes the format for film and television.  
Prerequisite: MED 300

MED 331 Basic Photography (3)  
Basic Photography covers fundamentals of camera and darkroom techniques. Students will learn to shoot, process, and develop black and white film.  
Prerequisite: MED 300

MED 332 Advanced Photography (3)  
Advanced Photography covers the techniques for outdoor, indoor, and tabletop photography. Students analyze camera lenses and effective lighting.  
Prerequisite: MED 300, MED 331

MED 341 Broadcast Announcing (3)  
Broadcast Announcing covers the principles and techniques of broadcast announcing. Students analyze the various roles and functions of announcing.  
Prerequisite: MED 300

MED 350 Radio Programming and Production (3)  
Radio Programming and Production covers techniques and procedures in the creation, production, and direction of radio programs. Students are involved in hands-on experiences.  
Prerequisite: MED 300

MED 351 Writing for the Media (3)  
Writing for the Media covers writing for the media, with emphasis on script formats for motion pictures, live television, radio drama presentations, and television commercials. Students write one adaptation and one original script.  
Prerequisite: MED 300

MED 360 Basic Sound Recording (3)  
Basic Sound Recording covers principles and practices of recording, mixing, and editing. Students gain a knowledge of audio terminology and learn the use of basic recording and editing equipment.  
Prerequisite: MED 300
DESCRIPTION OF COURSES

MED 361 Media Law and Ethics (3)
Media Law and Ethics introduces students to law and ethics as they apply to the media. The course emphasizes standards of behavior for the profession in addition to law and ethics case studies and current issues.
Prerequisite: MED 300

MED 362 Media Research Methods (3)
Media research Methods introduces methods of research used in mass media. Students will study content, questionnaires, interviews, and surveys and design and conduct qualitative and quantitative research studies.
Prerequisite: MED 300

MED 401 Public Relations (3)
Public Relations deals with the principles of public relations. Experiences in the preparation of news releases, newsletters, and promotional packages are provided.

MED 402 Advanced News Writing and Editing (3)
Advanced News Writing and Editing adds news gathering to the news writing and editing activities of MED 302. Students submit their stories for publication or broadcasting.
Prerequisite: MED 300, MED 302

MED 405 Newspaper Organization (3)
Newspaper Organization incorporates a semester-long project that emphasizes the relationship and dynamics of copy editing, news writing, and newspaper layout.
Prerequisite: MED 300, MED 303

MED 410 Advanced Media Project (3)
Advanced Media Project is the capstone course for Mass Communications majors. This course integrates the major concepts in the discipline, such as writing for the media, broadcasting, programming, recording, photography, and production. Students will prepare a semester-long project/paper and a professional career portfolio. A comprehensive senior exit examination covering subject matter in the field is incorporated into this course.
Prerequisite: MED 300

MED 490 Internship (3)
Internship provides students with work experience in a newspaper office, a photography studio, and/or a radio or television station.
Prerequisites: MED 300; MED 302; MED 310, MED 351

MILITARY SCIENCE

ARMY RESERVE OFFICER TRAINING CORPS (ROTC)

MSC 101 Fundamentals of Military Science (2)
Fundamentals of Military Science is designed to develop leadership, management, and communications skills. It emphasizes map reading, land navigation, and study/time management techniques. The course requires one lecture and one laboratory per week.

MSC 102 Introduction to the Army (2)
Introduction to the Army explores the history, organization, mission, and role of the United States Army in national defense. It examines the components of total army structure, with an emphasis on group dynamics and communication skills. The course requires one lecture and one laboratory per week.
MSC 201  Fundamentals of Military Leadership  (3)  
Fundamentals of Military Leadership includes the study of oral and written military communications and planning and organizing techniques. It examines current military leadership doctrine and application and emphasizes combined arms concepts, organizations, and tactics. The course requires two lectures and one laboratory per week.

MSC 202  Fundamentals of Military Decision Making  (3)  
Fundamentals of Military Decision Making includes a study of soldier skills, including map reading and land navigation. It introduces Army troop-leading procedures through practical exercises and principles of war using historical events. The course requires two lectures and one laboratory per week.

MSC 301  Advanced Military Decision Making  (4)  
Advanced Military Decision Making emphasizes small group leadership through practical applications. Its focus is the development of individual leadership skills through problem analysis, decision formation, and steps in the decision-making process. The course requires two lectures and one laboratory each week.

MSC 302  Applied Military Leadership  (4)  
Applied Military Leadership continues the development of leadership competencies and confidence. It includes tactical training exercises to enhance leadership development. The course requires two lectures and one laboratory each week.  
Prerequisite: MSC 301

MSC 401  Leadership and Management Seminar I  (4)  
Leadership and Management Seminar I is a study of current Army leadership, tactical, and training doctrine. It examines military law in context of peacekeeping/enforcement operations and includes an overview of the Army’s role in joint operations. The course requires three lectures and one laboratory each week.  
Prerequisite: MSC 302

MSC 402  Leadership and Management Seminar II  
Involves the application of current Army leadership, tactical, and training doctrine. It emphasizes the evolution of military professionalism, civil-military relations, personal and professional ethics, and the military justice system. The course requires three lectures and one laboratory each week.  
Prerequisite: MSC 401

MUSIC

MUS 100, 102, 200, 202, 300, 302, 400, 402  Choir  (1)  
MUS 100, 200, 300, and 400 consist of ensemble singing of a variety of the finest choral literature from the Renaissance to the present, with emphasis on vocal techniques, conducting, repertoire, and choir organization.

MUS 101  Music Appreciation  (2)  
Music Appreciation is designed to acquaint students with major factors involved in the intelligent listening to and the importance of music as an art. The course covers music from the Middle Ages to the present.

MUS 111 Piano  (1)  
MUS 111 consists of basic keyboard fundamentals and technical skills.

MUS 112 Piano  (1)  
MUS 112 is a continuation of MUS 111, with the addition of multi-key reading.  
Prerequisite: MUS 111
MUS 123 Voice (1)
MUS 123 is the study of the fundamentals of singing, with emphasis on tone production, diction, and interpretation.

MUS 124 Voice (1)
MUS 124 is a continuation of MUS 123, with a survey of literature for the solo voice. Prerequisite: MUS 123

MUS 203 Music Theory I (2)
Music Theory I is an introduction to the basic fundamentals of music theory and composition, including notation, scales, melody rhythm, intervals, and chord building. Prerequisites: MUS 111, MUS 112

MUS 204 Music Theory II (2)
Music Theory II, a continuation of Music Theory I, is an introduction to functional diatonic harmony and melody. This course includes techniques of harmonization, analysis, part writing, keyboard, and sight singing skills. Prerequisite: MUS 203

MUS 211 Piano (1)
MUS 211 consists of the playing of major scales, sight reading, and building repertoire. Prerequisite: MUS 112 or placement test

MUS 212 Piano (1)
MUS 212 is a continuation of MUS 211, with the addition of playing minor scales, sight reading, building scales, and building repertoire. Prerequisite: MUS 211 or placement test

MUS 221 African American Music (3)
African American Music is a survey of music created by African Americans, with special emphasis on blues, jazz, gospel, and pop music. Prerequisite: MUS 101

MUS 223 Voice (1)
MUS 223 is the development of a vocal repertoire of songs in English, French, Italian, Spanish, and German. Prerequisite: MUS 124 or placement test

MUS 224 Voice (1)
MUS 224 is a continuation of Voice 223, with emphasis on performing as a soloist in recitals and choral concerts. Prerequisite: MUS 223 or placement test

MUS 231 Sight Singing and Ear Training I (1)
Sight Singing and Ear Training I is the study of basic rhythmic reading, sight singing, dictation, and other oral and written skills. Prerequisites: MUS 111, MUS 112

MUS 232 Sight Singing and Ear Training II (1)
Sight Singing and Ear Training II, a continuation of Sight Singing and Ear Training I, is the study of advanced rhythmic reading, sight singing, dictation, and other oral and written skills. Prerequisites: MUS 111, MUS 112, MUS 231 or placement test
MUS 303 Music Theory III (2)
Music Theory III consists of analytic studies of triadic structures, harmony and voice leading, and musical forms. Emphasis is on the harmonic language of the Eighteenth and Nineteenth Centuries.

MUS 304 Music Theory IV (2)
Music Theory IV is a continuation of Music Theory III, with greater emphasis on form, analysis, Twentieth Century techniques, and creative writing.
Prerequisite: MUS 303

MUS 330 Church Music (3)
Church Music is a study of church music organization and administration, handbell choir techniques, and choral literature, with emphasis on Black hymnody and sacred music.

MUS 421 Choral Conducting (1)
Choral Conducting is an investigation of choral literature of varying styles and genres, with emphasis on conducting techniques and score analysis.

MUS 431 History of Western Music (3)
History of Western Music is a general survey of the development of music from the Middle Ages to the Present.
Prerequisite: MUS 101

ORGANIZATIONAL MANAGEMENT

ORM 300 Adult Development and Career Life Assessment (3)
Adult Development and Career Life Assessment introduces the student to adult development theory and links these concepts to life through a process of individual reflection. Both classical and contemporary adult development theories are examined. These theories then provide the paradigm for self-analysis and life assessment and provide the basis for understanding individuals within organizations.

ORM 301 Group and Organizational Behavior (3)
Group and Organizational Behavior is a study of group behavior and the way in which group functioning affects organizational effectiveness. Emphasis is placed on decision-making and resolving conflict in groups. Students develop strategies for efficient and productive group management and determine which tasks are best handled by groups and which by individuals.

ORM 303 Organizational Communication (3)
Organizational Communication investigates communication and relationships in creating a productive work environment. Effectiveness in personal and social relationships is also covered through readings and exercises involving nonverbal communication, constructive feedback, dealing with anger, and resolving conflict.

ORM 304 Methods of Research and Analysis (3)
Methods of Research and Analysis is an introduction to research and its tools for the student as both a consumer and a producer of statistics and research. It covers the analysis and evaluation of a problem in the workplace or in a vocational environment which the student has selected for an independent study project.

ORM 305 Research Project Seminar I (1)
Research Project Seminar I is a major research effort designed to enhance knowledge in an area related to the student's work or community. Student activities will focus on the improvement of writing skills, presentation skills, research skills, and decision-making skills.
ORM 306 Information Systems Management (3)
Information Systems Management introduces students to the impact of information technologies and systems on various business processes throughout the enterprise. Students work individually and in groups using various application skills and managing related resources such as systems personnel, software applications, databases, networks and computer hardware. This course is aimed at developing the non-technical skills that business school graduates need to make appropriate decisions about the deployment of information systems throughout the firm.
Prerequisite: CIS 101

ORM 307 Managerial Accounting (3)
Managerial Accounting is the analysis of accounting data used in the planning, control, and decision-making activities of an enterprise. Students learn and build on financial accounting concepts and principles. Managerial Accounting topics include but are not limited to financial statements, flow of funds, cost-value-profit relationship, budgetary planning and control, cost consideration in decision making, and the use of quantitative techniques as an instrument of control and proper planning. Emphasis is on reading and understanding accounting documents rather than on their preparation.

ORM 312 Managerial Finance (3)
Managerial Finance is an introduction to financial management. Students explore the financial tools available for planning and analysis as well as how those tools are utilized to manage cash flows and financial resources and to evaluate future investment opportunities. Main topics include planning and analysis of financial statements; cash flow management; time value of money; analysis of risks and expected rates of return; stocks, bonds and their valuation; yield to maturity; financial ratios and their uses. Emphasis is on cash budgeting, retained earnings, dividend policy, capital budgeting, net present values and optimal capital structure.
Prerequisites: ORM 307, ORM 401

ORM 400 Humanities: A Holistic Approach (3)
Humanities: A Holistic Approach promotes the investigation of a specific area of the humanities often not previously explored by the student. It is designed to foster knowledge and understanding of the literature of the Judeo-Christian heritage and to relate it to life relationships and to the world in which we live.

ORM 401 Managerial Economics (3)
Managerial Economics focuses on the principles of economics as they need to be understood and used by managers and supervisors in all fields. In this era of "downsizing" or "rightsizing" brought on by international competition and globalization of every part of the American way of life, it is crucial that managers at every level understand and use the principles of economics to aid in making sound decisions. The objective of this course is to provide students with a sound foundation of economic principles and theory that can be used in making managerial decisions that relate to resource allocation.

ORM 402 Managerial Marketing (3)
Managerial Marketing focuses on the principles of marketing that need to be understood by managers in all areas in order to develop and utilize effective marketing practices. The concepts of a global economy, including major social, psychological, and political influences, are explored and their marketing implications considered from the manager's perspective.

ORM 404 Managerial Principles (3)
Managerial Principles examines motivational theory and its application to individual and group functioning in work and home situations. Leadership styles related to particular
circumstances are analyzed. Negotiation is covered through readings and class practice, with an analysis of the effect on productivity.

**ORM 405 Biblical Perspectives (3)**
Biblical Perspectives is an overview of the literary, historical, and religious dimensions of the Old and New Testaments. Special attention is given to the themes of covenant, redemption, justice, righteousness, reconciliation, eschatology and hope. Students are guided in an examination of Biblical faith and the integration of faith, learning, and living.

**ORM 406 Human Resource Management (3)**
Human Resource Management explores the values and perceptions of selected groups affecting social and economic life through an analysis of policies and practices of recruitment, selection, training, development, and compensation of employees. Special attention is given to Equal Opportunity and Office of Safety and Health Administration legislation through a series of case studies and simulations.

**ORM 407 Strategic Management (3)**
Strategic Management introduces the student to various management planning models and techniques and applies these to business cases. Students formulate solutions to practical business problems through the use of case analysis.

**ORM 408 Legal and Ethical Issues in Management (3)**
Legal and Ethical Issues in Management involves a study of contracts, property rights, business transactions, negotiable instruments, credit transactions, sales, mergers, acquisitions and insurance. Students will study the foundations of the U.S. legal system, the public and international environment, the private environment and the regulatory environment. This course also focuses on values formation, self-understanding in an ethical context, and the construction of a personal model of ethical decision making congruent with personal values.

**ORM 409 Research Project Seminar II (4)**
Research Project II is the capstone course for Organizational Management majors (Advance Program) and is designed to integrate content from various management and business courses. Each student who enrolls in the Advance Program is assigned a research advisor during his or her first semester at the College. Students gather and analyze data, draw conclusions, and present solutions or recommendations to practical management or business problems. In addition, students are required to present their research projects to a research committee. A comprehensive senior exit examination covering subject matter in the field is incorporated into this course.

Prerequisites: ORM 305, ORM 403, ORM 406, ORM 407, ORM 408

**PHILOSOPHY**

**PHI 302 History of Philosophy (3)**
History of Philosophy gives the student a general knowledge of ancient, medieval, and modern philosophy, each period’s outstanding philosophers, and their contributions to civilization.

**PHYSICAL SCIENCES**

**PHS 100 Physical Sciences (4)**
Physical Sciences deals with the fundamental aspects of physical sciences including the scientific method; chemistry, (atoms periodic law, chemical reactions); physics, (energy, electricity and magnetism, waves); earth science; astronomy (universe, solar system and stars); oceanography; meteorology (atmosphere, weather systems,
climate); and geology (minerals, rocks, plate tectonics, earth quakes, and historical geology). Three lecture hours and one two-hour laboratory per week.

**PHYSICS**

**PHY 101 Introduction to Engineering I (1)**
Introduction to Engineering develops skills with dimensions, units, calculators, and technical communications and emphasizes engineering ethics. Career guidance is provided, including surveys of the professional fields of engineering, the engineering curricula, and engineering departments.

**PHY 201 General Physics I (4)**
General Physics I is an introductory course in physics. Emphasis is on the basic physical ideas and how they are manifested in the world around us, both in nature and in technology. Topics include mechanics, wave motion, sound and heat. Topics relevant to environmental issues will be introduced. The history of physics and its relationship to the other natural sciences are also studied. Three one-hour lectures and one two-hour laboratory per week.
Prerequisite: MAT 103

**PHY 202 General Physics II (4)**
General Physics II is a continuation of PHY 201, with topics in electricity, magnetism, relativity, and quantum, atomic and nuclear physics. The ethical aspects of atomic and nuclear weapons and their effects on nature and humanity are explored. Topics relevant to environmental issues will be introduced. Three one-hour lectures and one two-hour laboratory per week.
Prerequisite: PHY 201

**PHY 203 Calculus-Based Physics I (4)**
Calculus-Based Physics I is the first course of a two-semester calculus-based physics sequence for students following the pre-engineering track. Topics include vectors, kinematics and dynamics, gravitation, conservation laws, systems of particles, rigid body, static and elasticity waves, fluid mechanics, and thermodynamics. Three one-hour lectures and one two-hour laboratory per week.
Prerequisite: MAT 201, PHY 202

**PHY 204 Calculus-Based Physics II (4)**
Calculus-Based Physics is the second course of a two-semester calculus-based physics sequence for student following the pre-engineering track. Topics include: electricity and magnetism, electromagnetic waves, Maxwell's equations, DC-AC circuits, light interference and diffraction, relativity, and quantum mechanics. Three one-hour lectures and one two-hour laboratory per week. Required of pre-engineering track students.
Prerequisites: PHY 202 and MAT 210

**PHY 301 Mathematical Physics (3)**
The aim of Mathematical Physics is to apply mathematics to physics. Topics include vectors, matrices, differential and integral calculus, complex numbers, differential equations, and the laws of probability. Required of the pre-engineering track students.
Prerequisites: PHY 203 and MAT 310

**POLITICAL SCIENCE**

**PSC 300 Introduction to Political Science (3)**
Introduction to Political Science is a study of the elements of the discipline, its terminology, philosophy, and methodology, with a balance of treatment of political
thoughts and theories and applied politics. Required of all those who plan to minor in political science.

PSC 302 Ethnic and Minority Group Politics (3)
Ethnic and Minority Group Politics is a survey of the political development and activities of ethnic and minority groups in the United States, with African-Americans, Native Americans, Latino Americans, Asian-Americans, Arab-Americans, White Ethnics, and women representing ethnic and political minority groups to be specially featured.

PSC 303 Community Politics and Social Change (3)
Community Politics and Social Change is an introduction to politics at the community level. It conducts a historical and contemporary survey of communities as unique socio-economic entities, highlighting the nature of community power structures and the interaction of various interest in pursuit of social change at the local level.

PSC 304 American National Government (3)
American National Government is a study of American government institutions at the national level, with special emphasis on the structure and processes of the executive, legislative, and judicial branches of the government.

PSC 305 Constitutional Law (3)
Constitutional Law introduces the student to legal philosophy. It examines the legal basis of Constitutional Law and selected decisions of the Supreme Court and their impact on government. Prerequisite: PSC 304

PSC 306 State and Local Government (3)
State and Local Government is a study of state political systems, including their administration, local sub-systems, intergovernmental relationships, and policy outputs. Specific attention is given to the state of South Carolina.

PSC 351 Comparative Government (3)
Comparative Government introduces the student to comparative political analysis in the field of government. It offers a functional approach to a number of specific constitutional structures and processes in contemporary democratic, authoritarian, and developing political systems in different countries.

PSC 361 American Foreign Policy (3)
American Foreign Policy is a study of the principles and machinery of the conduct of foreign relations. Major emphasis is on the United States’ foreign policy since World War I.

PSC 401 International Relations (3)
International Relations is a survey of principles of international relations and of the institutions created by man to achieve and preserve peace, with special emphasis on the United Nations and its specialized agencies. The course includes a discussion of the foreign policies of the major powers and the international role of newly independent countries in Asia and Africa.

PSC 403 Political Theory (3)
Political Theory synthesizes reflection by major ancient, medieval and modern thinkers regarding the nature and purpose of the state with issues pertaining to the actual workings of political and governmental institutions. Professional development issues within the discipline are also considered as a feature of this course for students intending to pursue further study in the field. Prerequisites: PSC 300, PSC 304 and PSC 305
DESCRIPTION OF COURSES

PSC 404  Public Administration and Policy  (3)
Public Policy is an interdisciplinary approach to the study of public issues of health, energy, welfare, education, housing, the environment, and related areas. Critical thinking is emphasized.

PSC 405  Senior Seminar in Legal Studies  (3)
Senior Seminar in Legal Studies is designed for senior students, who participate in a systematic interdisciplinary inquiry into major issues of law and legal administration. Students may be required to submit a comprehensive research paper.

PSC 407  Politics of the Developing World  (3)
Politics of the Developing World is a survey of historical as well as contemporary social, economic, and political issues as they affect the processes of government and nation-building in the developing states of Africa, Latin America, and Asia. Problems associated with socio-economic and political modernization in these societies and the impact of global integration on their future development will be especially emphasized.

PSC 408  Senior Seminar in Political Science  (3)
Senior Seminar in Political Science is the capstone course for students majoring in political science and provides a synthesis of important issues inside the field as a specialized area of study. Major concepts, theoretical approaches, personalities, and matters related to the practical application of specialized knowledge and skills within the discipline are emphasized. A scholarly research papers that will be presented in a public setting and critiqued by a panel of evaluators is required. Professional development skills and a comprehensive exit examination covering a broad range of subject matter from the field of political science are also incorporated into this course.

PSYCHOLOGY

PSY 201  General Psychology  (3)
General Psychology presents an introduction to the fundamentals of psychology. Principal topics included are the scope and goals of psychology, movements that shaped modern psychology, principles that guide psychological research, fundamental learning processes, and psychology in relation to social problems.

PSY 301  Abnormal Psychology  (3)
Abnormal psychology conducts a survey of the field of maladaptive and disordered behavior in humans. Its objective is to develop an understanding between observed human behavior and theories of personality development and disorder. The Diagnostic and Statistical Manual of Mental Disorder as a classification system adopted by mental health professionals will be emphasized.

PSY 302  Theories of Personality  (3)
Theories of Personality features an examination of major personality theories that are most influential in clinical practice. Works by persons shaping the field of personality theory, and how those theories are applied in actual therapy settings are covered.

PSY 305  Tests and Measurements  (3)
Tests and Measurements is an exploration of the theory and practice of psychological assessment in measuring mental abilities, achievement, personality and psychopathology. Topics will include construction, validation and use of psychological tests in a variety of settings.

PSY 306  Psychology of the African American Experience  (3)
Psychology of the African American Experience is the study of psychological theories and methods applied to the experience of people of African ancestry. The role of
cultural retention in relation to identity formation, adaptive behaviors as well as the impact of institutionalized racial discrimination and other historical phenomena is explored.

PSY 401 Applied Psychology (3)
Applied Psychology provides students with an opportunity to understand the role of psychology in everyday life. Emphasis is directed toward the application of psychology to the understanding of social issues and problems.

PSY 402 Organizational and Industrial Psychology (3)
Organizational and Industrial Psychology is an introduction to the theory, research and application of psychology as they relate to human behavior in organizations. The major contributions of organizational and industrial psychology to understanding how people function in the world of work will be explored.

RECREATION

REC 101 Seasonal Activities (1)
Seasonal Activities is designed to provide an orientation to the objectives, needs, values, and activities of physical education and to teach activities that may be engaged in by students in their leisure time.

REC 201 Introduction to Recreation (3)
Introduction to Recreation provides an overview of the recreation movement and profession. It examines foundations, historical perspectives, and the development of recreation as a prime facet of society. The formulation of a personal philosophy of recreation is also covered. The recreation system and scope are discussed, with an emphasis on career exploration.

REC 310 Recreation for Special Populations (3)
Recreation for Special Populations is designed to provide a study of the concepts in program planning, leadership and adaptation of recreation activities for special populations: the physically and mentally handicapped, the incarcerated, the aged, and disadvantaged groups. The course includes twenty hours of practicum.

REC 312 Programming for Recreation (3)
Programming for Recreation is designed to provide an overview of recreation programs in various settings such as rural, urban, medical, and industrial.

REC 320 Camp Counseling and Management (3)
Camp Counseling and Management addresses the role of organized camping. The course involves the study of principles and methods of camp development, management, and staff relations and expands on responsibilities of camp counselors and their functions for the campers.

REC 340 Commercial Recreation (3)
Commercial Recreation examines recreation as a profit-making enterprise. It surveys the development, expansion, and operation of goods and services available in the leisure market.

REC 401 Organization and Administration of Recreation (3)
Organization and Administration of Recreation is an examination of principles and methods of administering a recreation agency. Problem solving, personnel recruitment and supervision, finance, budgeting, delivery structures, issues, and legislation are discussed.
DESCRIPTION OF COURSES

REC 405 Facility Maintenance and Management (3)
Facility Maintenance and Management establishes maintenance and management principles for indoor and outdoor recreation areas. It examines standards, legalities, personnel work orders, record keeping, landscaping, surface types, and traffic pattern implications.

REC 420 Safety and Legal Issues in Sports and Recreation (3)
Safety and Legal Issues in Sports and Recreation examines sports, recreational, and environmental safety. It views accident prevention in relation to risk taking in recreation and explores sports medicine and rehabilitative techniques.

REC 425 Tourism and Travel (3)
Tourism and Travel studies the impact of tourism and travel on society. It investigates strategies and techniques used in the delivery of travel packages by commercial travel agencies and the ways in which travel becomes a marketable commodity.

REC 430 Therapeutic Recreation (3)
Therapeutic Recreation is a comprehensive study of the therapeutic recreation process as a part of rehabilitative services. It investigates legislative, governmental, professional, and agency issues and includes an overview of medical terminology.

REC 440 Internship (3)
Internship is a practical quasi-administrative experience for the student. Under supervision of a professional, the student receives opportunities to apply principles learned in the classroom setting. Practical experiences in public relations, personnel practices, career exploration, budget development, programming, and similar responsibilities are acquired.
Prerequisites: REC 201, REC 310, REC 312, REC 401, REC 420

REC 450 Senior Seminar (3)
This is a capstone course designed to provide a summary review and evaluation of principles learned in all prior major courses. There are discussions of current issues in the profession along with career exploration, résumé writing, interviewing and the development of research papers. The course prepares the student to enter the recreation field as a competent, developing professional. A comprehensive senior exit examination is incorporated into this course.
Prerequisites: REC 201, REC 312, REC 310, REC 340 and REC 405

RELIGION

REL 201 Literature and Religion of The Old Testament (3)
Literature and Religion of the Old Testament gives the student firsthand knowledge of the cultural and religious heritage of the Hebrew-Christian tradition. The course enables the student to evaluate carefully and to appreciate the moral and spiritual values of the Old Testament.

REL 202 Literature and Religion of the New Testament (3)
Literature and Religion of the New Testament is a survey of the cultural and religious life of the Hebrew in the Greco-Roman world and points out the main events which prepared the way for the establishment of the Religion and Literature of the New Testament.

REL 203 World Religions (3)
World Religions is designed to introduce the students to nine world religions (list). The student will be able to identify the major religions of the world; their founders, their
origins and present memberships, and their belief structures and influences. The students will also be able to compare and contrast the tenets of the world’s major religions and give rationale for religious pluralism and coexistence.

**Introduction to Christian Education, REL 300:**
Introduction to Christian Education is a survey of the field of Christian Education. Attention is given to biblical basis and current philosophies of Christian education as well as the goals and organization of educational programs, including those that influence physical, mental, emotional, and spiritual health.

**REL 301 Church History (3)**
Church History is designed to lead the student through a serious study of the Church's several stages of historical development, with emphasis on the Great Councils. Effort is made to link earlier pronouncements with today's ecclesiological shapes.

**REL 302 Principles of Worship (3)**
Principles of Worship is a study of the principles and practices of worship in the Protestant tradition. The concern for liturgical order and impact is examined.

**REL 303 The Prophets (3)**
The Prophets is an intensive study of the major Eighth and Seventh Century B.C. Prophets of Israel, including Amos, Micah, Isaiah, Jeremiah, Hosea, and Ezekiel. Both the literature and the historical contexts of these powerful personalities are shared with the student.

**REL 304 Theology of The Old Testament (3)**
Theology of the Old Testament is an intensive study of the development of the doctrine of God, man, sin, and redemption in the Old Testament. This course also emphasizes Prophetic and Exodus themes.

**REL 305 Theology of The New Testament (3)**

**REL 306 Black Church Studies (3)**
Black Church Studies addresses such subjects as the history, the present state, and the future missions of the Black Church in the increasingly pluralistic religious society of the Twenty-First Century.

**REL 311 Church Administration (3)**
Church Administration is a study of the pastor's role as an administrator. It highlights the need to foster vision, team spirit, culture critique, integrity, physical fitness, and mental alertness.

**REL 312 Principles of Christian Education (3)**
Principles of Christian Education is a study of the most effective methods of teaching religion in the church school and other religious organizations. The course is vital to the major.

**REL 315 Baptist Polity (3)**
Baptist Polity is an examination of the definition of church polity, with special emphasis on the principles governing the Baptist Church. The probe goes back to the Anabaptists.
REL 316  The Social Teachings of Jesus  (3)
The Social Teachings of Jesus is a course which examines three areas in which one has inescapable responsibilities: to oneself, to fellow humans, and to God. The student will find that Jesus of Nazareth throws great light on questions in the three areas of concern by His teachings and actions.

REL 318  Theology and Christian Thought  (3)
Theology and Christian Thought examines the major issues in classical and contemporary Christian Thought. In an effort to give the student an understanding of the Christian religion, the course will focus on what the Christian Church believes, teaches, and confesses, with emphasis given to beliefs that Christians hold in common while exploring such doctrines as God, Christ, the Holy Spirit, salvation, justification, ecclesiology, and eschatology.

REL 319  Black Theology  (3)
Black Theology, in both of its phases from Richard Allen to James H. Cone, has been both a corrective and a protest by the Black Church as it faced racism in America, a phenomenon not yet totally eliminated. This course leads the student to raise and ponder the question as to whether the God of the Christian faith and racism are compatible in either theory or practice. Prerequisite: REL 317

REL 400  Christian Ethics  (3)
Christian Ethics deals with the origin and development of moral standards in Christian ethics, pointing out the underlying forces contributing to the development of the various moral standards. The course explores the concept of agape, which undergirds all Christian Ethics.

REL 401  Homiletics  (3)
Homiletics is a study of the art of sermon construction, with special emphasis on the purpose of preaching, the selection of the text, and the organization and presentation of material. Each student is required to prepare and deliver one sermon.

REL 402  Christian Leadership Seminar  (3)
Christian Leadership Seminar is the capstone course for the Christian Education Program, integrating the basic theoretical concepts and the ways in which they are applied or implemented. The major principles of the Christian faith regarding teaching and the proven theories from education are blended to assure effective training of Christian educators. This course incorporates a semester-long senior thesis and a professional career portfolio. A comprehensive senior exit examination covering subject matter in the field is incorporated into this course.

REL 404  Pastoral Care and Counseling  (3)
Pastoral Care and Counseling is the capstone course for the Pastoral Ministry program, integrating theological, ethical, and biblical principles into church vocation, training, and the development of a congregation that is mentally, emotionally, physically, and spiritually sound. This course incorporates a semester long thesis and a professional career portfolio. A comprehensive senior exit examination converging subject matter in the field is incorporated into the course.

REL 415  Internship  (3)
The Internship provides a thorough involvement in the work of ministry under the supervision of a pastor, chaplain, Director of Religious Education, or CEO of an agency approved as a field instructor by the division. The internship experience provides the student with the necessary direct and hands-on involvement with the world of work. Students are encouraged to work with the field instructor in the development of
programs and ministries, when applicable, that will address the mental, emotional, physical, and spiritual wellness of constituencies associated with the church or agency. Prerequisites: REL 311, REL 315 (Christian Education and Pastoral Ministry Majors); REL 300, REL 307 (Christian Education Majors); REL 302, REL 404 (Pastoral Ministry majors).

SOCIAL SCIENCES

SSC 100 Contemporary Affairs (1)
Contemporary Affairs is a course designed for analytical, critical, and creative examination of contemporary social, political, and economic issues. Emphasis is on social sciences skills and application through discussions, essays, and special projects.

SSC 200 Pre-Law Seminar (2)
Pre-Law Seminar is a study of selected areas of federal and state legal history, constitutional law, and the legal profession.

SSC 201 Computers and Society (3)
Computers and Society is an interdisciplinary introduction to the study of computer impact. It includes historical interplay between technology and society, the present and future role of computers as they affect individuals, and their impact on society.

SSC 301 Women's Role in a Changing Society (3)
Women's Role in a Changing Society is designed to sensitize students to the historical role of women in various parts of the world and to the changing role of women in contemporary society. The course examines the impact of culture and society on gender roles, including socialization and identity formation, as expressed in various lifestyles.

SSC 350 Introduction to Social Statistics (3)
Introduction to Social Statistics provides an introduction to the fundamentals and uses of modern statistics and quantitative methods in the social sciences. It includes descriptive statistics, statistical inference and statistical inference and probability theory. Prerequisite: MAT 103

SSC 400 Social Science Seminar (3)
Social Science Seminar is the capstone course for students majoring in Sociology. It focuses on discussions and topics that synthesize significant issues and concerns inside the field of sociology as a specialized area of study. Major concepts, theoretical approaches, personalities, and matters related to practical application of knowledge and skills within the discipline are emphasized. A scholarly research papers that will be presented in a public setting and critiqued by a panel of evaluators is required. Professional development skills and a comprehensive examination covering a broad range of subject matter from the field of sociology are also incorporated into this course.

SSC 450 Internship (3)
Internship includes practical experience for social science students in a professional setting. Students are required to work 120 hours under the supervision of professionals, who provide them with valuable experience and the opportunity to apply principles learned in the classroom setting.

SOCIOLOGY

SOC 101 Principles of Sociology (3)
Principles of Sociology is an introduction to the concepts and methods of sociology. The
DESCRIPTION OF COURSES

course includes examination of diverse methods of socialization, group processes, major social institutions, and social change.

**SOC 300 Introduction to Gerontology (3)**
Introduction to Gerontology is an introduction to the areas of Biological, Psychological, and Sociological contributions to the field of Gerontology, with an emphasis on personal awareness of myths, problems, and solutions relating to the older person in America.
Prerequisite: SOC 101

**SOC 301 Social Psychology (3)**
Social Psychology analyzes the interrelationship between society, culture, and personality. Emphasis is placed on the concepts of motivation, self perception, personality, crowds, groups and propaganda.
Prerequisite: SOC 101

**SOC 302 Social Problems (3)**
Social Problems is a critical review of major social problems such as crime and juvenile delinquency, adolescent pregnancy, and drug abuse and their impact on diverse populations in American society.
Prerequisite: SOC 101

**SOC 303 Societal Responses to Aging (3)**
Societal Responses to Aging is a study of the ways in which aging, as a dimension of social organization, touches every life, every home, every community, and every relationship.
Prerequisite: SOC 101

**SOC 307 Community Organization (3)**
Community Organization is a study of processes, integration, and change in the community and analysis and comparison of rural and urban communities with respect to structural features, communications processes, and basic institutions. The course examines changing roles of the local community in the total society.
Prerequisite: SOC 101

**SOC 308 Political Sociology (3)**
Political Sociology is a study of various government institutions and the way in which their social structures operate to conform to various political philosophies (at the international level). Social forces that created various political systems are also a focus of study.
Prerequisite: SOC 101

**SOC 309 Courtship, Marriage and Family (3)**
Courtship, Marriage and Family concerns mate selection: the meaning of love; engagement; and the physical, psychological and social adjustments in marriage; the past, present and future of marriage; and the analysis of the family institution as a background for the study of family interactions, family crises, and problems.
Prerequisite: SOC 101

**SOC 310 Cultural Anthropology (3)**
Cultural Anthropology focuses on the nature of culture and society and involves the study of a variety of cultures on different developmental levels, including social, economic, political, education, and religious systems and their interrelationships and includes a comparison of preliterate and contemporary societies.
Prerequisite: SOC 101
SOC 315 Gerontological Development and Social Policy (3)
Gerontological Development and Social Policy focuses on national awareness, historical growth, and policy development in response to Gerontology in the United States. Specific examples include social and health insurance, White House conferences, legislation, administration on aging, national institute on aging, scientific and applied groups, and financing programs.
Prerequisite: SOC 101

SOC 340 Social Work Methods in Human Services (3)
Social Work Methods in Human Services introduces students to the generalist method of social work practice. Course content includes helping students to learn basic interviewing and intervention skills, case recording, and analyzing. Emphasis is placed on working with diverse populations, including children, older persons, and adolescents.
Prerequisite: SOC 101

SOC 400 Introduction to Social Welfare (3)
Introduction to Social Welfare is a study of social work as both an art and a science, the evolution of social services, the field of social work, administration of public welfare and voluntary social agencies, and social work as a discipline as a profession.
Prerequisite: SOC 101

SOC 401 Introduction to Social Research (3)
Introduction to Social Research deals with defining and delimiting a social problem, choosing a design, gathering and analyzing data, and reviewing other research studies.
Prerequisite: SOC 101

SOC 402 Social Theory (3)
Social Theory is a synthesis that combines an overview and assessment of the works of leading contemporary sociologists with critical analysis centering on the nature of sociological explanation. For students intending to pursue further study in the field, various professional development issues are also considered. A comprehensive senior exit examination covering subject matter in the field is incorporated into this course.
Prerequisites: SOC 101, SOC 302, SOC 309 and SOC 310

SOC 403 Ethnic Minority Groups in American Society (3)
Ethnic Minority Groups in American Society is a study of the historical and social significance of the presence of diverse ethnic groups in the American nation; an analysis of the structure and dynamics of race relations and their relationship to the meaning of the American theory of equality.
Prerequisite: SOC 101

SOC 404 Urban Sociology (3)
Urban Sociology examines the city as a social phenomenon in the modern world and analyzes urban trends, characteristics, functions, and social organization.
Prerequisite: SOC 101

SOC 405 Techniques of Management in Aging Agencies (3)
Techniques of Management in Aging Agencies is an overview of basic management theory and practice. The student will learn the federal/state funding process, financial planning and budgeting, and basic accounting concepts used in non-profit agencies.
Prerequisite: SOC 101

SOC 406 Practicum in Gerontology (3-12)
Practicum in Gerontology provides an opportunity in the world of work for the student to gain experience within the field of Gerontology. Each student will complete one
DESCRIPTION OF COURSES

summer or one semester in an agency planning or administering program for older people.
Prerequisites: SOC 303, 315, and 340

SOPHOMORE SEMINAR

SMS 200 Sophomore Seminar (1)
Sophomore Seminar build on what was learned in Freshman Seminar: information on the development of productive study habits, sound academic planning, increased test sophistication, career awareness, time management, the acquisition of core knowledge from the General Education Curriculum, and basic skills in oral and written communication that will facilitate the students’ moving into the introductory courses in their respective majors.

SPANISH

SPA 101 Elementary Spanish I (3)
Elementary Spanish I provides an introduction to the four basic language skills: listening, speaking, reading, and writing. It includes a primary study of Spanish culture and history.

SPA 102 Elementary Spanish II (3)
Elementary Spanish II is designed to further the students’ knowledge level in the four basic language skills and of Spanish history and culture.
Prerequisite: SPA 101

SPA 201 Intermediate Spanish I (3)
Intermediate Spanish I enables students to improve on the basic skills already learned in order to use the language in conversation and writing. A review of grammar, more complex structures, and vocabulary expansion are introduced, as well as histories, cultures, and national identities of Spain and major Latin-speaking nations.

SPA 202 Intermediate Spanish II (3)
Intermediate Spanish II is also designed to enhance the students’ knowledge in conversation, reading, and writing. Greater emphasis is placed on grammar, more complex structures, and vocabulary expansion, along with histories, cultures, and national identities of Spain and major Latin-speaking nations.
Prerequisite: SPA 201

SPEECH AND THEATER

SPH 103 Voice and Speech Improvement (3)
Voice and Speech Improvement is designed to acquaint students with various formal and public communication situations and provide practical opportunities to demonstrate effective oral techniques. This course also assists in refining interpersonal and business communications skills, equipping students to enter the public and private sectors and making them competitive in current and future job markets.

SPH 201 Public Speaking (3)
Public Speaking covers the fundamentals of public speaking, including organization and delivery of speeches for various occasions.

SPH 202 Voice and Diction (3)
Voice and Diction includes instruction and practice in voice production and articulation.
Exercises in strength, flexibility, and sensitivity in the use of the voice and speech mechanism are utilized.

**SPH 210 Introduction to the Theater (3)**
Introduction to the Theater is an introduction to dramatic modes, play production, acting, directing, and theater management.

**SPH 220 Oral Interpretation (3)**
Oral Interpretation is a study of the oral interpretation of literary pieces. Students are assigned poems, scenes from plays, and segments of other literary works for interpretation and speech practice.

**SPH 310 Play Production (3)**
Play Production provides students the opportunity to produce a theatrical presentation. It involves participation in at least one of the areas of production: design, acting, make-up, stage managing, stage lighting, and set construction.

**SPH 320 Modern Drama (3)**
Modern Drama is a study of dramatic theory and literature from the Greeks to the present day. It explores the Greek theater; the English theater of the Renaissance period; mid-eighteenth century theater; and recent developments in realism, naturalism, and expressionism.

ROBERT EAVES, Director of Business Affairs
ELIZA E. BLACK, Interim Dean of Student Affairs
DOROTHY CHEAGLE, Director of Planning and Governmental Relations
ROY GRAHAM, Director of Business Support Services and Personnel
MELVIN MACK, Director of Institutional Advancement and Church Relations Officer

ADMINISTRATIVE STAFF
2010-2011

Robyn B. Hall-Agent, M.S, Catalog Librarian
Margaret A. Bailey, M.Ed., Director of Career Planning, Cooperative Education and Placement
Deborah Calhoun, M.Ed., Director of Admissions and Records
Gwen L. China, M.A., Computer Laboratory Assistant
Janet Clayton, M.A., Director of Learning Resources Center
Arland H. Compton Jr., M.D., College Physician (Part-time)
Vacant, Director of Assessment
Altoya A. Felder-Deas, M.Ed., Alumni Affairs Officer
Carol L. Fleury, M.S.L.S, Reference Librarian
Alston Freeman, B.S., Coordinator of Student Activities
Juana L. Davis-Freeman, Ph.D., Counselor and Testing Assistant
Glenda C. Fulwood, B.A., Volleyball Coach (Part-Time)
Lula J. Gary, M.Ed., Director of Counseling & Testing Center
Gloria P. Gibbons, A.C.T., Laboratory Assistant and Database Manager
Philip L. Gibbons, B.A., Supplemental English Instructor, Student Support Services
Sandia S. Gibson, M.Ed., Director of Financial Aid
Maggie W. Glover, M.Ed., Activity Director/Director of Developmental Programs
Vacant, Admissions Counselor
Shawn L. Hair, M.M.Ed., College and Chorale Accompanist (Part-time)
Dorothy Hazel, A.A., Network Administrator

Oliver T. Hill, M.Div., Director of Ministerial Certificate Extension Classes (Part-time)

Clarence M. Houck, B.A., Director of Athletics and Head Men’s Basketball and Baseball Coach

Bernice Lewers Irby, B.S., Chief Accountant

James Jamison, M.Div., Principal Recruiter for Religion Majors

Rodney Johnson, M.B.A., Director of Management Information Systems and Computer Center and Part-time Cross-Country and Track and Field Coach

Joseph B. Jones, M.P.A., Director of Student Support Services

Leroy Keith, B.A., Supervisor of Technical Services

Leisha J. Lloyd, B.S., Computer Laboratory Assistant

Tiffany McCants, B.A., Admissions Counselor

Permon D. Mitchell, M.A., Director of Residential Life

Georthia M. Moses, M.I.S., Computer Laboratory Assistant

Margaret N. Mukooza, M.L.I.S., Assistant Director of Learning Resources Center

Crystal M. Nesbit, B.S., Supplemental Mathematics Instructor, Student Support Services

Charles Pee, M.Div., College Minister (Part-time)

Gerald R. Polinsky, Ph.D., Management Specialist (Part-time)

Dianna C. Pringle, M.A., Academic Success Center Coordinator

Kay M. Rhoads, Ph.D., Director of Academic Administrative Services (Part-time)

Cindye Richburg, M.S., Director of the ADVANCE Program

Lorenzo A. Rivers, B.S., Admissions Counselor

Dean Rockwood, Graphics Center Coordinator

Johnell Rogers, LPN, Director of Health Services

Gloria M. Scriven, M.S., Assistant Director of Admissions and Records

Quanda D. Sims, M.Ed., Counselor, Student Support Services

Irene R. Singletary, Ed.D., Director of Teacher Education

King D. Singleton, M.A.T., Director of Upward Bound Program

206
FACULTY

Carlotta Stackhouse, M.S., Director of the Forensics Center

Rudolph Wheeler, M.Ed., Counselor, Upward Bound

Marguerite D. Wilder, M.S., Assistant Director of Financial Aid

NiCole Williams, B.A., Director of Public Relations

Gilbert Wilson, B.Ed., Womens Basketball Coach and Head Softball Coach (Part-time)

Delois Woodward, M.S., Cooperative Education Coordinator

Faculty
2010-2011

Luns C. Richardson, President
A.B., Benedict College; M.A. Teachers College, Columbia University; L.H.D., Morris College; Ped. D., Benedict College; Litt. D., Coker College; D.D., Simmons Bible College. Further study: Rutgers University of New Jersey, University of Tennessee, South Carolina State University.

Leroy Staggers, Academic Dean and Professor of English (Appointed August 1993)
B. S., Voorhees College; M.A. and D.A., Atlanta University.

Radman M. Ali, Chairperson, Division of Natural Sciences and Mathematics and Professor of Biology (Appointed September 1966)
B.A. and M.S., Miami University of Ohio; Ph.D., Clemson University.

Reginald A. Bess, Chairperson, Division of General Studies and Professor of French/Spanish (Appointed July 2002)
B.S., West Virginia State College; MALS (Humanities), Grambling State University; M.A. and Ph.D., The Ohio State University. Further study: Universität Hamburg, Hamburg, Germany; Universität Bonn, Bonn Germany; University of California-Santa Barbara; Mt. Holyoke College; Louisiana Scholars’ College; Louisiana Tech University; University of South Carolina; Goethe Institute, Berlin.

Jacob E. Butler, Jr., Chairperson, Division of Social Sciences and Associate Professor of Political Science (Appointed July 2000)
B.A., South Carolina State University; M.A. and Ph.D., Atlanta University.

Marc C. David, Chairperson, Division of Religion and Humanities and Associate Professor of English (Appointed August 2006)
B.A., Morehouse College; M.A., North Carolina Central University; Ph.D., Syracuse University.

Lois Weston Green, Chairperson, Division of Education and Professor of Education/Spanish (Part-time) (Appointed August 2002)
B.A., Spelman College; M.A., Central Michigan University; Ed.D., University of Georgia.

Richard L. Smith, Chairperson, Division of Business Administration and Associate Professor of Business Administration (Appointed August 1981)
B.S., Shippensburg State College; M.Ed., Pennsylvania State University; Ph.D., Ohio State University. Further study: Pennsylvania State University, University of Maryland.

Patricia G. Ali, Professor of History (Appointed January 1967)
B.A., Skidmore College; M.A., Clemson University; Ph.D., University of South Carolina.

Jafar Amirzadeh, Professor of Physics (Appointed August 1985)
B.S., University of Tabriz (Iran); M.S., University of Tehran (Iran); M.S., Michigan State University; Ph.D., West Virginia University.
Ayo Awosanya, *Associate Professor of Mathematics (Appointed August 2005)*
B.S., Florida A&M University; M.S., Clark Atlanta University; Ph.D., Florida State University.

Dorothy Bishoff, *Assistant Professor of Biology (Appointed January 2005)*
A.B., Occidental College; Ph.D., University of North Carolina.

Christine Bostick, *Instructor of Developmental English/Reading (Appointed August 2010)*
B.A., M.A., University of Central Florida.

Elaine Bunche, *Assistant Professor of Art (Appointed August 1992)*
B.A., Benedict College; M.A., Miami University of Ohio.

Walter Butler, *Assistant Professor of Religion (Appointed August 2009)*
B.S., Claflin College; B.D., Morris College; M.Div., ITC Seminary; D.Min., Hood Seminary.

Robert Carter, *Associate Professor of Sociology (Appointed August 2008)*
B.A., Howard University; M. Phil. and Ph.D., Columbia University.

Deborah Crawford, *Associate Professor of Biology (Appointed August 2003)*
B.S., Voorhees College; Ph.D., Atlanta University.

Paul N. Ezeji, *Associate Professor of Health Science (Appointed August 1994)*
B.S., M.S. and Ph.D., Southern Illinois University at Carbondale.

Martin Fashbaugh, *Assistant Professor of English (Appointed August 2010)*
B.S., Iowa State University; M.A., Northwestern State University of Louisiana; Ph.D., Purdue University.

Barbara A. Fitzsimmons, *Associate Professor of Education (Appointed August 2009)*
B.A., Old Dominion University; M.S. Ed., Ed.D., University of Southern California.

Martin Greenberg, *Associate Professor of Criminal Justice (Appointed January 2011)*
B.A., Queens College; M.A., John Jay College; J.D., New York Law School; M. Phil. and Ph.D., City University of New York.

Shawn Hair, *Instructor of Music (Appointed August 2009)*
B.A., Newberry College; M.M.Ed., University of South Carolina.

Cherry Harmond-Early, *Associate Professor of English (Appointed August 2004)*
B.A., Tuskegee Institute; M.Ed., Oklahoma University, Ph.D, Indiana University of Pennsylvania.

Sherrie Harvin, *Assistant Professor of Reading (Appointed August 2004)*
B.S., Bay Ridge Christian College; M.Ed., Prairie View A & M University.

Windolin Hastie, *Instructor of Mathematics (Appointed August 2004)*
B.S., Morris College; M.S., Troy State University.

James G. Ibe, *Associate Professor of Business Administration (Appointed January 1993)*
B.S., Northern Michigan University; M.A., University of Texas; M.B.A., Amber University; Ph.D., University of Texas. Further study: University of South Carolina.
Keith L. Johnson, **Associate Professor of Mathematics (Appointed August 1997)**
B.S., Gannon University; M.A. (Statistics), M.A. (Mathematics) and Ph.D., Pennsylvania State University.

Sheri Johnson, **Assistant Professor of Reading (Appointed August 2009)**
B.A., College of Charleston; M.Ed., The Citadel.

Catherine Kapi, **Associate Professor of French (Appointed August 2008)**
B.A. and M.A., Université Laval; Ph.D., Louisiana State University.

Flossie L. King, **Assistant Professor of English (Appointed August 1995)**
A.B. and M.Ed., South Carolina State University.

Martha C. King, **Assistant Professor of Mathematics (Appointed January 1994)**
B.S., Morris College; M.Ed., South Carolina State University.

Daniel Lackey, **Assistant Professor of English (Appointed August 2004)**
B.A., Trinity University; M.A., Texas Tech University; Ph.D., Boston University.
Further study: State University of New York

Lenord Lawson, **Instructor of English (Appointed August 2010)**
B.S., Winthrop University; M.A., National University.

Lorne Lee, **Instructor of Music (Appointed August 2010)**
B. Mus., University of Central Oklahoma; M.M.Ed., Howard University

Deloris McBride, **Assistant Professor of Computer Information Science (Appointed January 2000)**
B.S., Morris College; M.S., Ohio State University; M.S., Webster University.

Elaine McClure, **Associate Professor of Education (Appointed August 2004)**
B.A., University of South Carolina; M.A., University of Alabama; Ph.D., University of South Carolina.

Michael R. McCormick, **Associate Professor of History (Appointed August 1988)**
B.S. and M.A., Southern Illinois University; Ph.D., Ohio State University.

David Magnin, **Associate Professor of Chemistry (Appointed August 2005)**
B. S., University of Wisconsin-Eau Claire; Ph. D., University of South Carolina. Further study: Duke University.

Joshua Oyekan, **Professor of Psychology (Appointed August 2008)**
B.Th, Nigerian Baptist Seminary; BA, William Carey University; M.Div., Southern Baptist Seminary; M.A. Spalding University; Ed.S, Ed.D., University of Tennessee; D. Min., Luther Rice Seminary; M.Sc., Ph.D., Federal University of Jos (Nigeria). Further study: Louisiana State University, George Peabody Teachers College of Vanderbilt University.

Charles M. Pee, **Instructor of Religion (Appointed August 1987)**
B.S., Francis Marion College; M.Div., Duke University.

Joseph Popoola, **Assistant Professor of Speech (Appointed August 2008)**
B.A., University of Ibadan; M.A., Indiana University; Ph.D., Howard University.

Ivana Popovik, **Assistant Professor of Mass Communications (Appointed August 2009)**
B.A., William Woods University; M.S., Boston University.

John R. Rooks, **Associate Professor of English (Appointed August 1989)**
B.A., University of East Anglia (Great Britain); M.Litt., University of New Castle (Great Britain); Ph.D., University of York (Great Britain).
Kathleen Roy, *Instructor of Speech and Theater (Appointed 2003)*
B.F.A., University of Connecticut; M.A., University of South Carolina

William H. Salyer, Jr., *Associate Professor of Organizational Management (Appointed January 1999)*
B.S., M.S., and Ph.D., University of Tennessee.

Peter B. Scholle, *Associate Professor of Health Science and Recreation (Appointed August 1990)*
B.S., Ithaca College; M.S. Miami University; Ph.D., Florida State University.

LaVon Simpson, *Instructor of Business Administration (Appointed August 2000)*
B.S., South Carolina State University; M.B.A., Winthrop University.

Irene R. Singletary, *Associate Professor of Education (Appointed August 2000)*
B.A., Voorhees College; M.Ed. and Ed.D., South Carolina State University.

Edward Smith, *Professor of Biology (Appointed January 2009)*
B.A., Cheyney State University; M.A., Hampton University; Ph.D., Eastern Virginia Medical School. Further study: University of Pennsylvania.

Ann E. Trahanovsky-Orletsky, *Associate Professor of Mathematics (Appointed August 1998)*
B.S., University of Pittsburgh; M.Ed., and Ph.D., Pennsylvania State University.

B.S., Limestone College; M.A., Webster University.

Robert J. Zalimas, *Assistant Professor of History (Appointed August 2000)*

**Part-Time Faculty 2010-2011**

Byron Brown, *Instructor of Political Science (Appointed August 2005)*
B.A., Norfolk State University; M.A., Western Michigan University, M.P.A., Kentucky State University.

Gail June China, *Instructor of Education (Appointed August 2004)*
B.A., Benedict College; M.Ed., Cambridge College. Further study: University of South Carolina.

Franklin Colcough, *Instructor of Organizational Management and Religion (Appointed June 1997)*
B.A., Johnson C. Smith University; B.D., Johnson C. Smith Seminary; D.Min., McCormick Theological Seminary.

Anthony Dennis, *Instructor of Criminal Justice (Appointed August 2007)*
B.S., St. Leo University; M. S., Troy University.

Larry L. Foote, *Instructor of Organizational Management (Appointed February 1997)*
B.A., Clark College; M.B.A., Atlanta University; M.A., Webster University. Further study: University of South Carolina.

Jacquemar Fudge-Law, *Assistant Professor of Organizational Management (Appointed August 2010)*
B.S. and M.S., Syracuse University; Ed.D., Nova Southeastern University.
Edward L. Garris, Instructor of Organization Management (Appointed January 1998)
B.S., Appalachian State University; M.A.T., University of South Carolina.

James B. Giffin, Associate Professor of Business Administration (Appointed January 1991)
B.S.B.A., Wayland Baptist University; M.A.B.A., M.A, and MCIRM., Webster University.

Leighton A. Hartzog, II, Instructor of Organizational Management (Appointed August 2010)
B.A., Wolford College; M.B.A., University of South Carolina.

Oliver T. Hill, Instructor of Religion (Appointed August 1996)
B.A., Morris College; M.Div., Duke University

Maritza Hogan, Assistant Professor of Psychology (Appointed August 2005)
B.A., C. W. Post College; Ph.D., State University of New York.

James A. Jamison, Instructor of Religion (Appointed January 2001)
B.S., Benedict College; M.Div., Interdenominational Theological Center.

Elizabeth Ray, Instructor of Spanish (Appointed August 1997)
B.A., University of South Carolina; M.Ed., Converse College.

Suzette McClellan, Instructor of Health Science (Appointed August 2009)
B.S. College of Charleston; MPH, University of South Carolina.

Jerome McCray, Assistant Professor of Health Science (Appointed August 2008)
B.A., Limestone College; M.Ed., East Tennessee State University.

Barrington Pierson, Instructor of Mathematics (Appointed January 2002)
B.A. Morris College; M. Ed., University of South Carolina. Further study: South Carolina State University, College of Charleston; Atlanta University; Princeton University.

May Samuel, Associate Professor of Biology (Appointed January 2011)
B. S., Benedict College; M.P.H., University of South Carolina; further study Kennedy Western University, University of South Carolina

Max Weber, Instructor of Biology (Appointed January 2007)
B. S., Clemson University; M.A.T., Winthrop University.

Jordan D. White, Assistant Professor of Criminal Justice (Appointed August 2005)
B.A., Wolford College; J.D., University of Florida Law School.

FACULTY AND STAFF EMERITI
2010-2011

Eliza E. Black, Dean Emerita of Student Affairs
B.A., Morris College; M.S., South Carolina State University. Further study: University of Rhode Island, New York University, Columbia University, University of South Carolina.

Bobby L. Brisbon, Professor Emeritus of Education and Director of Teacher Education
A.A., Norfolk State University; B.S., Virginia State University; B.D., Morris College; M.A., Case Western Reserve University; M.A.T., University of Virginia; Ed. D., University of South Carolina; Ed.D., Auburn University. Further study: Princeton University, University of Minnesota; Hampton University, Virginia State University.
Margaret W. Davis, Associate Professor Emerita of Education
A.B., Morris College; M.Ed., Temple University. Further study: South Carolina State University, Western Carolina University, Eastern Kentucky University.

Sister Marie G. Donovan, Assistant Professor Emerita of Speech/Theatre
B.A., Rosary College; M.A., Catholic University of America. Further study: Marquette University, Creighton University, St. Mary’s Theological Seminary, Bowie State College, University of Notre Dame.

Beatrice G. Sanders, Assistant Professor Emerita of Education and Director of Guidance
A.B., Morris College; M.Ed., Temple University; L.H.D., Morris College. Further study: University of South Carolina.

Queen Williams Spann, Director Emerita of Admissions and Records
B.A., Morris College; M.Ed., University of South Carolina.

STAFF
2010-2011

Barbara A. Abrams, Data Entry Clerk, Admissions and Records
